Louisiana Faces:

African American Foreign Correspondents Jason Berry, 2000-09-01 Since the late 1970s Louisiana a state long known for outrageous politicians has witnessed a blossoming of the arts and their enthusiastic reception by a national and even world wide audience From John Kennedy Toole s *A Confederacy of Dunces* to James Lee Burke s detective Dave Robicheaux from singers Fats Domino and Aaron Neville to jazz patriarch Ellis Marsalis and his music making family from George Rodrigue s blue dog to Chef Paul Prudhomme s transcendent cooking the list is long for Louisiana talent Louisiana Faces documents in images and words the human texture of this remarkable renaissance not only the painters sculptors chefs musicians poets and writers who create the art but also the ordinary people who in their daily and seasonal rhythms inform that art Some are living legends others well kept secrets all have a place and a face at the feast Philip Gould confirms his own part in the renaissance with the 125 stunning portraits in Louisiana Faces Gould s lively poignant photographs capture a range of personalities in timeless settings that mirror the larger culture whether masked riders in a Cajun carnival or jazzmen playing a street funeral Writer Jason Berry complements Gould s images with a probing witty essay that explores the parallels between art and life Using meld of interviews anecdotes history and commentary Berry treats outsized political figures and pop culture celebrities as a parade of inspiration for Louisiana artists

People or Property Alessandra Jerolleman, Elizabeth Marino, Nathan Jessee, Liz Koslov, Chantel Comardelle, Melissa Villarreal, Daniel de Vries, Simon Manda, 2023-11-09 This open access book explores the intersection of property law relocation and resettlement processes in the United States and among communities that grapple with migration as an adaptation strategy As communities face the prospect of relocating because of rising seas policy makers disaster specialists and community leaders are scrambling to understand what adaptation pathways are legally possible While in its ideal application law functions blindly and without variation the authors find that legal contradictions come to bear on resettlement processes and place certain communities further in harm s way This book will unearth these contradictions in order to understand why successful community based resettlement has presented such a challenge to communities that are
