of the mid nineteenth century and a leader of the so called Barbizon School occupies a crucial moment of transition from the idealizing effects of academic painting to the radically modern vision of the Impressionists He was an experimental artist who rejected the traditional historical biblical or literary subject matter in favor of unruly nature a Romantic naturalism that confounded his contemporaries with its bizarre compositional and coloristic innovations Lavishly illustrated and thoroughly documented this volume includes five essays by experts in the field Scott Allan and douard Kopp alternately examine Rousseau s diverse techniques and working procedures as a painter and as a draftsman as well as his art s mixed economic and critical fortunes on the art market and at the Salon Line Clausen Pedersen s essay focuses on Mont Blanc Seen from La Faucille Storm Effect an early touchstone for the artist and a spectacular example of the Romantic sublime in the Ny Carlsberg Glyptotek s collection This catalogue accompanies an eponymous exhibition on view at the J Paul Getty Museum from June 21 to September 11 2016 and at the Ny Carlsberg Glyptotek from October 13 2016 to January 8 2017 *National Galleries* Simon Knell,2016-01-22 Are national galleries different from other kinds of art gallery or museum What value is there for the nation in a collection of international masterpieces How are national galleries involved in the construction national art National Galleries is the first book to undertake a panoramic view of a type of national institution which are sometimes called national museums of fine art that is now found in almost every nation on earth Adopting a richly illustrated globally inclusive comparative view Simon Knell argues that national galleries should not be understood as great galleries but as peculiar sites where art is made to perform in acts of nation building A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth Knell reveals an unseen geography and a rich complexity of performance He considers the ways the national galleries entangle art and nation and the differing trajectories and purposes of international and national art Exploring galleries artists and artworks from around the world National Galleries is an argument about how we think about and study these institutions Privileging the situatedness of each national gallery performance and valuing localism over universalism Knell looks particularly at how national art is constructed and represented He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism Painting and Sculpture in France, 1700-1789 Michael Levey,1993-01-01 Discusses the major painters and sculptors of the period during the last years of France s ancien regime a period that started with Watteau and the fete galante and closed with the revolutionary history paintings of David
