America and the Limits of the Politics of Selfishness Sidney R. Waldman, 2007-01-01 America and the Limits of the Politics of Selfishness examines Congress the Presidency the public and public policy demonstrating the important impact of the public s selfishness morality compassion and religious beliefs on the American political system The influence of public opinion on our democratically elected leaders affects whether our country will be able to find solutions to some of its more important problems The public s self love an exclusive or excessive regard for oneself and one s interests unbalanced by a

concern for others beyond one's family is critical in impacting the quality of our political system. For example, Waldman illustrates how the public affects the government's ability to solve the problem of failing education in our cities and rural towns. Ultimately, this work reveals the importance of compassion, morality, and religion in dealing with the problem of excessive self-love with great practical consequences for our country, our own welfare, and that of the world. **No** David Walsh, 2007-01-09. It's not just a one-word answer; it's a parenting strategy. By saying No when you need to, you help your children develop skills such as self-reliance, self-discipline, respect, integrity, the ability to delay gratification, and a host of other crucial character traits they need to be successful. Although the importance of using No should be obvious, many parents have a hard time saying it even when they know they should, when other parents and the culture around them are being permissive. Now, successful psychologist, bestselling author, and nationally known parenting expert Dr. David Walsh provides you with an arsenal of tactics, explanations, and examples for using No the right way with your kids. With Dr. Walsh's straightforward parent tool kits, you can assess and improve your relationship with your kids, set and enforce limits that make sense for different ages from toddlers to teens, and otherwise make No a positive influence on kids' behavior and in your overall family life. Other parenting books broach the topics of tough love and discipline, but only No offers the lively voice, warm wisdom, science made simple, and breadth of knowledge that readers have come to expect from Dr. Walsh. The first look at the psychological importance of No in a child's development, No is filled with down-to-earth advice that you can put into practice immediately. Dr. Walsh's memorable, affecting, and sometimes humorous anecdotes remind you that you're not alone in your parenting struggles and help you regain confidence in your own judgment and ability to say No. His stories also reinforce his message that establishing healthy limits is not only essential for kids' well-being; it's vital for creating disciplined, productive adults who can compete in a global marketplace and ensure a prosperous economic future for our country. Most important, No gives parents real, effective strategies for helping their children bloom and grow, giving them the psychological resources to become healthy, happy adults.

Dreams of Love and Fateful Encounters Ethel S. Person, 2007-04-02. This groundbreaking study has been widely hailed for its focus on a human emotion generally considered impervious to rational analysis: romantic, passionate love. Ethel Person views romantic love as a powerful agent of change, arguing that it is as central to human culture as it is to human existence. This new edition of *Dreams of Love and Fateful Encounters* emphasizes the relevance of passion not only to lovers but also to mental health professionals whose patients often enter treatment because of love-related issues: from the inability to love or make a commitment to the perils of extramarital love to love sickness or loss of love. She forthrightly addresses not only the power of love to unlock the soul but also its inherent paradoxes and conflicts. Employing a philosophical perspective in order to understand the existential dilemmas posed by love and a cultural perspective in order to understand its cultural variability, Dr. Person breaks with contemporary intellectual and philosophical dismissive assumptions about romantic love. She acknowledges love's vital importance and power, proposing that passion

serves an important function not only for the individual but also for the culture while charging psychoanalysis with a reductionist emphasis on sexuality and psychopathology that has narrowed the focus of inquiry into love Among the issues she discusses are romantic love's sources in our early lives its relationship to imagination and creativity and its capacity to enable the lover to transcend the self how romantic love often demands a reordering of values and promotes personal growth by exposing the self to new risks and possibilities the transformational potential of transference love in the therapy process flaws in the common misperception that women are more influenced by romantic love than men considerations of homosexual love love across generations and love triangles focusing on the individual growth that can result from such relationships Citing accounts of love drawn from literature film and real life Person focuses on the lover's internal soliloquy and external dialogue with the beloved that can develop over an individual's life An uplifting resource for people experiencing failing or unorthodox romances Dreams of Love and Fateful Encounters boldly takes on issues pertinent to lovers to professionals who encounter patients for whom key conflicts revolve around romantic love and to anyone who has struggled to understand the importance of romantic love in his or her own life *From Life to Life* John Wilbur

considerations when assessing a child patient Foremost among these is that caring for the child entails caring for the family members involved with that child The therapist must balance the competing needs and feelings of the child parents and family as a whole By forming an alliance with all members of the family the therapist is in a position to strengthen and enhance the ties between child parents and family during all phases of assessment and treatment leading to a more effective therapeutic intervention Paving the Way for Children's Success offers a model that will help clinicians achieve this alliance The model presented in this book focuses on ways to integrate child assessment and treatment with that of their parents and families level of function It uses the authors unique concept of the Zones of Care to help clinicians assess this level of function In turn each of the four zones leads to a specific approach to treatment The authors present how these treatment approaches to current internalizing and externalizing disorders in children and adolescents allow clinicians to integrate a wide variety of techniques to address most DSM IV categories Their approach stresses both symptom reduction and the

cultivation of coping skills It also integrates fiscal issues of treatment into the development of the alliance with the parents in resolving the presenting problem Dr Ziegler and Dr Bush present the reader with practical workable strategies for laying down strong diagnostic foundations for successful treatment making *Paving the Way for Children's Success* a valuable resource for any clinician working with children and adolescents
