Cadegan,2013-09-15 Until the close of the Second Vatican Council in 1965 the stance of the Roman Catholic Church toward the social cultural economic and political developments of the twentieth century was largely antagonistic Naturally opposed to secularization skeptical of capitalist markets indifferent to questions of justice

confused and appalled by new forms of high and low culture and resistant to the social and economic freedom of women in all of these ways the Catholic Church set itself up as a thoroughly anti modern institution Yet in and through the period from World War I to Vatican II the Church did engage with react to and even accommodate various aspects of modernity In *All Good Books Are Catholic Books* Una M Cadegan shows how the Church's official position on literary culture developed over this crucial period The Catholic Church in the United States maintained an Index of Prohibited Books and the National Legion of Decency founded in 1933 lobbied Hollywood to edit or ban movies pulp magazines and comic books that were morally suspect These regulations posed an obstacle for the self understanding of Catholic American readers writers and scholars But as Cadegan finds Catholics developed a rationale by which they could both respect the laws of the Church as it sought to protect the integrity of doctrine and also engage the culture of artistic and commercial freedom in which they operated as Americans Catholic literary figures including Flannery O'Connor and Thomas Merton are important to Cadegan's argument particularly as their careers and the reception of their work demonstrate shifts in the relationship between Catholicism and literary culture Cadegan trains her attention on American critics editors and university professors and administrators who mediated the relationship among the Church parishioners and the culture at large
