

Yet, I lie here and kiss
your dented pillow,
A trembling girl who loves
you overmuch—
A harp in anguish for the
player's touch.

Reda-Mekdashy, 2008-11-01 Arab women's writing in the modern age began with A'isha al Taymuriya Warda al Yaziji Zaynab Fawwaz and other nineteenth century pioneers in Egypt and the Levant. This unique study, first published in Arabic in 2004, looks at the work of those pioneers and then traces the development of Arab women's literature through the end of the twentieth century and also includes a meticulously researched comprehensive bibliography of writing by Arab women. In the first section, in nine essays that cover the Arab Middle East from Morocco to Iraq and Syria to Yemen, critics and writers from the Arab world examine the origin and evolution of women's writing in each country in the region, addressing fiction, poetry, drama, and autobiographical writing. The second part of the volume contains bibliographical entries for over 1,200 Arab women writers from the last third of the nineteenth century through 1999. Each entry contains a short biography and a bibliography of each author's published works. This section also includes Arab women's writing in French and English, as well as a bibliography of works translated into English. With its broad scope and extensive research, this book is an indispensable resource for anyone interested in Arabic literature, women's studies, or comparative literature.

Studies in Women Writers in English Mohit Kumar Ray, Rama Kundu, 2004

English is being written and read today by more people outside England than inside. This applies no less to the women writers in English across the globe who have made their unmistakable mark in English literature, especially in the last century. The present volume, the second in the new projected series of Atlantic Publishers and Distributors' *Studies in Women Writers in English*, bears evidence to this phenomenon as the critics address women writers in English in various parts of the globe rather than concentrating on canonised mainstream authors and texts, and thus mainstream writers figure only referentially in the margin of these critical texts. As it were, again understandably, Indian writers take over a chunk of the space. However, the essays included in this volume cover authors from America, Canada, and India, and also some general theoretical discourse regarding feminism and marginal literature. The authors discussed in this volume are Christina Rossetti of England, Emily Dickinson, Harper Lee, Lorraine Hansberry, and Sylvia Plath of America, Margaret Atwood and Beatrice Cullen of Canada, and Kamala Markandaya, Kamala Das, Nayantara Sahgal, Anita Desai, Githa Hariharan of India. Apart from this, a wide spectrum of Indian writers have been referred to and treated in the general articles on feminist theory and practice, especially in India today and yesterday. The sixteen essays of the volume will be found interesting as well as useful by students, teachers, and scholars, and will also be enjoyed by the general readers.

English Women's Poetry, 1649-1714 Carol Barash, 1996. This is the first study to reconstruct the political origins of English women's poetry between the execution of Charles I and the death of Queen Anne. Carol Barash's book shows that between Katherine Philips (1632-64) and Anne Finch, Countess of Winchelsea (1661-1720), an English women's poetic tradition developed as part of the larger political shifts in these years, and particularly in women writers' fascination with the figure of

the female monarch Writers discussed include Aphra Behn Katherine Philips Anne Killigrew Jane Barker and Anne Finch Based on extensive archival research in England and the United States English Women s Poetry 1649 1714 argues that ideas about women s voices and women s communities were crucial to the shaping of an English national literature after the civil wars Women enter print culture as poets and as women by situating their writing in defence of embattled monarchy Women poets are especially fascinated with the figure of the female monarch both real and mythic Their sense of poetic legitimacy derives from the communities they generate around figures of female authority particularly James II s second wife Mary of Modena and later Queen Anne
