simple exercise of visiting a positive future forced him to rethink the work he d been doing as a climate activist for decades How to Fall in Love with the Future is the result of that radical disruption and Hopkins s deep dive into the people and movements throughout history who have used visions of the future to inspire positive change on a large and dramatic scale From the life and writings of musician Sun Ra and the history of Black utopian movements to the latest neuroscience on what goes on in our minds and hearts when we time travel Hopkins brings essential new thinking to anyone overwhelmed with dread and anxiety for the future He asks us to consider what would the world look like if we all got to work imagining and then building a world we were deeply in love with Rob Hopkins puts imagination back at the heart of future dreaming offering us an irresistible invitation to dream bigger and then make those dreams a reality Kate Raworth author of Doughnut Economics Italian Americana ,2007 **Program and Abstracts** American Folklore Society.
