Love And Revolution A Political Memoir:

Love and Revolution Signe Waller, 2002 *Love and Revolution A Political Memoir* is both memoir and people's history. It is a factually detailed and passionate account of events surrounding the Greensboro Massacre by a woman intimately connected with the events narrated. The author's husband, a pediatrician who abandoned medicine to work in a textile mill and organize low wage workers, was among the slain.

The Good Doctors John Dittmer, 2017-01-31 In the summer of 1964 medical professionals, mostly white and northern, organized the Medical Committee for Human Rights (MCHR) to provide care and support for civil rights activists organizing black voters in Mississippi. They left their lives and lucrative private practices to march beside and tend the wounds of demonstrators from Freedom Summer, the March on Selma, and the Chicago Democratic Convention of 1968. Galvanized and sometimes radicalized by their firsthand view of disenfranchised communities, the MCHR soon expanded its mission to encompass a range of causes from poverty to the war in Vietnam. They later took on the whole of the United States healthcare system. MCHR doctors soon realized fighting segregation would mean not just caring for white volunteers but also exposing and correcting shocking inequalities in segregated health care. They pioneered community health plans and brought medical care to underserved or unserved areas. Though education was the most famous battleground for integration, the appalling injustice of segregated health care levelled equally devastating consequences. Award-winning historian John Dittmer, author of the classic civil rights history *Local People: The Struggle for Civil Rights in Mississippi*, has written an insightful and moving account of a group of idealists who put their careers in the service of the motto: Health Care Is a Human Right.

In Search of Power Brenda Gayle Plummer, 2013 *In Search of Power* is a history of the era of civil rights decolonization and Black Power. In the critical period from 1956 to 1974, the emergence of newly independent states worldwide and the struggles of the civil rights movement in the United States exposed the limits of racial integration and political freedom. Dissident leaders and elites alike were linked in a struggle for power in a world where the rules of the game had changed. Brenda Gayle Plummer traces the detailed connections between African Americans' involvement in international affairs and how they shaped American foreign policy, integrating African American history, the history of the African Diaspora, and the history of United States foreign relations. These topics, usually treated separately, not only offer a unified view of the period but also reassess controversies and events that punctuated this colorful era of upheaval and change.

Truth and Revolution Michael Staudenmaier, 2012-05-15 A poignant, compelling history of one of the most important radical groups you've never heard of.

The New Transnational Activism Sidney Tarrow, 2005-08 *The New Transnational Activism* shows how even the most prosaic activities like immigrants bringing remittances back to their families can assume broader political meanings when they provide ordinary people with the experience of crossing transnational space. This means that we cannot be satisfied with defining transnational activists through the ways they think. The defining feature of transnationalism in this book is relational and not cognitive. This emphasis on activism's relational

structure means that even as they make transnational claims transnational activists draw on the resources the networks and the opportunities in which they are embedded and only then if at all on more distant transnational links **Political**

Violence in America Lori Cox Han, Tomislav Han, 2022-03-29 This multivolume encyclopedia surveys America's long and troubled history of political violence from the colonial era to the present with a particular emphasis on factors driving political violence and intimidation in the United States in the 21st century Americans like to think of their nation as one grounded in high minded democratic ideals and peaceful transitions of power In reality though American politics has been heavily laced with expressions of violence and intimidation since the nation's very inception which saw a campaign of violent rebellion against British rule Since then America has endured the deaths of four presidents from assassination a four year civil war racist attacks on civil rights activists and ordinary citizens deadly clashes between protesting citizens and law enforcement sustained campaigns of violence against marginalized populations seeking greater political or economic equality politically motivated mass shootings and on January 6 2021 the shocking spectacle of a politically motivated mob attack on the U S Capitol How and why did these events transpire What were the root causes What factors are driving political violence and intimidation in America today And are there changes that we could make to our country's political discourse that would reduce such outbreaks of bloodshed This authoritative multivolume encyclopedia provides answers to all these questions and more *The War on Poverty* Annelise Orleck, Lisa Gayle Hazirjian, 2011 Lyndon Johnson's War on Poverty has long been

portrayed as the most potent symbol of all that is wrong with big government Conservatives deride the War on Poverty for corruption and the creation of poverty pimps and even liberals carefully distance themselves from it Examining the long War on Poverty from the 1960s onward this book makes a controversial argument that the programs were in many ways a success reducing poverty rates and weaving a social safety net that has proven as enduring as programs that came out of the New Deal The War on Poverty also transformed American politics from the grass roots up mobilizing poor people across the nation Blacks in crumbling cities rural whites in Appalachia Cherokees in Oklahoma Puerto Ricans in the Bronx migrant Mexican farmworkers and Chinese immigrants from New York to California built social programs based on Johnson's vision of a greater more just society Contributors to this volume chronicle these vibrant and largely unknown histories while not shying away from the flaws and failings of the movement including inadequate funding co optation by local political elites and blindness to the reality that mothers and their children made up most of the poor In the twenty first century when one in seven Americans receives food stamps and community health centers are the largest primary care system in the nation the War on Poverty is as relevant as ever This book helps us to understand the turbulent era out of which it emerged and why it remains so controversial to this day *The Black Revolution on Campus* Martha Biondi, 2014-03-21 Winner of the Wesley Logan Prize in African Diaspora History from the American Historical Association and the Benjamin Hooks National Book Award for Outstanding Scholarly Work on the American Civil Rights Movement and Its Legacy *Remaking Transitional*

Justice in the United States James Edward Beitler III, 2012-11-09 Remaking Transitional Justice in the United States The Rhetoric of the Greensboro Truth and Reconciliation Commission explores rhetorical attempts to authorize the Greensboro Truth and Reconciliation Commission a grassroots U S based truth commission created in 2004 to redress past injustices in the city Through detailed rhetorical analyses the book demonstrates that the development of the field of transitional justice has given rise to a transnational rhetorical tradition that provides those working in the field with series of enabling constraints The book then shows how Greensboro stakeholders attempted to reaccentuate this rhetorical tradition in their rhetorical performances to construct authority and bring about justice even as the tradition shaped their discourse in ways that limited the scope of their responses Calling attention to the rhetorical interdependence among practitioners of transitional justice this study offers insights into the development of transitional justice in the United States and in grassroots contexts in other liberal democracies The volume is a relevant guide to scholars and practitioners of transitional justice as it brings into relief mechanisms of transitional justice that are frequently overlooked namely rhetorical mechanisms It also speaks to any readers who may be interested in the communicative strategies tactics that may be employed by grassroots transitional justice initiatives

Love and Revolution in the Twentieth-Century Colonial and Postcolonial World G. Arunima, Patricia Hayes, Premesh Lalu, 2021-10-27 This book addresses emancipatory narratives from two main sites in the colonial world the Indian and southern African subcontinents Exploring how love and revolution interrelate this volume is unique in drawing on theories of affect to interrogate histories of the political thus linking love and revolution together The chapters engage with the affinities of those who live with their colonial pasts crises of expectations colonial national convulsions memories of anti colonial solidarity even shared radical libraries It calls attention to the specific and singular way in which notions of love of the world were born in a precise moment of anti colonial struggle a love of the world for which one would offer one's life and for which there had been little precedent in the history of earlier revolutions It thus offers new ways of understanding the shifts in global traditions of emancipation over two centuries

adrienne maree brown author of *Pleasure Activism* and *Emergent Strategy* In June 1977 a group of white anti racist activists received an alarming letter from an inmate at a New York state prison calling for help to fight the Ku Klux Klan's efforts to recruit prison staff and influence the people incarcerated Their response was to form the first chapter of what would eventually become a powerful nationwide grassroots network the John Brown Anti Klan Committee dedicated to countering the rise of the KKK and other far right white nationalist groups No Fascist USA tells the story of that network whose efforts throughout the 1980s which included exposing white supremacists in public office confronting neo Nazis in street protests supporting movements for self determination and engagement with the underground punk scene laid the groundwork for many anti

those labeled scandalous memoirs It examines how the evolution of this subgenre was shaped partially by several innovative memoirs that have received only modest critical attention Breashears argues that Madame de La Touche's Apologie and her friend Lady Vane's Memoirs contributed to the crystallization of this sub genre at mid century and that Lady Vane's collaboration with Tobias Smollett in The Adventures of Peregrine Pickle resulted in a brilliant experiment in the relationship between gender and genre It demonstrates that the Memoirs of Catherine Jemmat incorporated influential new strategies for self justification in response to changing kinship priorities and that Margaret Coghlan's Memoirs introduced revolutionary themes that created a hybrid the political scandalous memoir This book will therefore appeal to scholars interested in life writing women's history genre theory and eighteenth century British literature
