**The Model of Love** Vincent Brümmer,1993-09-16 Religious believers understand the meaning of their lives and of the world in terms of the way these are related to God The conceptual models whereby this relationship is described therefore play a key role in the conceptual designs which theologians produce to express the faith of the community of believers Vincent Brümmer examines the implications of using the model of love in this context and looks at a number of the most significant views of the nature of love exclusive attention Ortega y Gasset ecstatic union nuptial mysticism passionate suffering courtly love need love Plato Augustine and gift love Nygren All these views are shown to interpret love as an attitude rather than as a relation between persons In the final chapters a relational concept of love is developed and it is shown how all the various attitudes discussed in the previous chapters have a role to play Finally the implications are addressed of using the model of love as a key model in theology

**The Psychology of Love** Thiago de Almeida, David L. Rodrigues,2025-01-16 The topic of loving relationships is one of the most important and often problematic areas of people's lives Unfortunately such importance is best perceived when relationships are unsatisfactory and or threatened by the possibility of an imminent breakup When that happens our mood our ability to concentrate our energy our work and our health among other dimensions of our lives can be profoundly affected Although contemporary love life appears to be markedly different from that of predecessor generations given the wide range of current relationships as the hook up living together separate cohabitation virtual love or even betrayal among many other forms of loving interaction we live in a time when relationships between two or more people it seems need more understanding and more accurate research However studying love scientifically is a hard task because of methodological difficulties and conceptual improprieties intrinsically

related to this type of investigation Because it can be considered such a familiar concept many researchers should agree on what love is and how it can be measured But this is not what occurs After all what is love Is it as a psychological phenomenon capable of being scientifically studied by psychology The goal of this Research Topic is to Promote and disseminate publications related to what is conceived scientifically as the Psychology of Love differing from conceptions related to self help and common sense Conceptualize love through psychological science Systematize knowledge about the nature of love and related phenomena such as jealousy shyness inhibition infidelity and other related topics Understand conceptualizations of love and relationship dynamics of people in monogamous and consensually non monogamous relationships Research the establishment and maintenance of romantic relationships and try to understand scientifically the role of love in marital satisfaction

**Our Purpose Is Love** David N. Field, 2018-04-19 We live in a time of great division in the world and too often we find this polarization mirrored in the church People sitting in the same pew working in the same office and living on the same street find themselves at odds with one another politically and theologically on a variety of issues Conflict seems to reign supreme As Christians we know we are supposed to love one another but even that mandate has come to mean different things to different people What does it mean to love God and neighbor today in both the world and the church and can this be the answer to the conflict that divides and polarizes us In Our Purpose Is Love author David Field answers this question with a compelling Yes as he challenges us to recognize and reclaim love as the center of our identity and purpose as the church Field presents a Wesleyan vision of the church as the embodiment of God s love in the world and explores the implications of this vision for our life together In this vision the church is where we become creatures of love learning to love God and neighbor ever more completely and authentically through the means of God s grace As a result we bear witness to the world by reflecting God s love more and

more perfectly in the way we treat others and order our common life With a special focus on the importance of unity for the church s witness Field invites us to consider the ways in which embodying God s love can and should influence how we live as individuals and as communities of faith calling us to reclaim and recommit to love as the center of who we are     **The Gospel of Dynamite** J.
