The Laws of Nature for a Better Relationship Christopher Walker, 2009-02-12 It's totally refreshing to find a book written by a bloke for blokes about blokes in love This book is well overdue and women all over the world should be celebrating At last a bloke talking about evolve ya bastard to men What is great is the question and answer format So it's relevant and contextual I mean he's taken questions from people and answered them in as short a space of page as could be imagined I don't think he could have said less but in this case less is more The chapter about understanding others is awesome too Who would have thought that thousands of years ago people knew so much about the human constitution and how different folks need different strokes just from that

alone we can understand the dynamics between ourselves and others better and therefore respect them more The last chapter blew us away Those two circles and the idea of being individual for more than 60% of our life yet merging for 30% is sensational It just makes being in love so much more fun Partners all over the world will really laugh at this when they see how simple it can be This is really life changing As for the laws of nature what genius It is said that the most powerful teacher can make the most complex simple Brilliant understanding of the whole entire universe in five short laws it s really unimaginable that it can be so ordered and perfect So is this book Also available from Trafford Publishing Personal Harmony The Laws of Nature for a Better Business The Laws of Nature for a Better Life The Laws of Nature for a Better Self
