no excuses of what he didn't have but talks about how he achieved what he does have He learned the values of hardwork at an early age Self determination never left him although hard times challenged him Reflecting on how he walked around with cardboard stuffed at the bottom of his shoes to replace their worn soles drug dealing and use and gang involvement Mr Harris knows that there is a much better life for everyone despite their challenges The book captures such experiences of everyday people and prominent people we all know His experience in the United States Army awakened him to his life's purpose Although those years were not his best they were the years that fertilized the seed his grandfather planted within him to cultivate the man he is today This book is straight talk It is nothing spectacular but provocative practical profound and to the point His advice to young people is believable and achievable The book is trusting and real Now you be the judge
