century we have seen the murderer as different from the ordinary citizen a special individual like an artist or a genius who exists apart from the moral majority a sovereign self who obeys only the destructive urge sometimes even commanding cult followings In contemporary culture we continue to believe that there is something different and exceptional about killers but is the murderer such a distinctive type Are they degenerate beasts or supermen as they have been depicted on the page and the screen Or are murderers something else entirely In *The Subject of Murder* Lisa Downing explores the ways in which the figure of the murderer has been made to signify a specific kind of social subject in Western modernity Drawing on the work of Foucault in her studies of the lives and crimes of killers in Europe and the United States Downing interrogates the meanings of media and texts produced about and by murderers Upending the usual treatment of murderers as isolated figures or exceptional individuals Downing argues that they are ordinary people reflections of our society at the intersections of gender agency desire and violence

[Town Journal](#), 1928 *The Secret History of Domesticity* Michael McKeon, 2006-12-06 Taking English culture as its representative sample *The Secret History of Domesticity* asks how the modern notion of the public private relation emerged in the seventeenth and eighteenth centuries Treating that relation as a crucial instance of the modern division of knowledge Michael McKeon narrates its pre history along with that of its essential component domesticity This narrative draws upon the entire spectrum

of English people's experience. At the most public extreme are political developments like the formation of civil society over against the state, the rise of contractual thinking and the devolution of absolutism from monarch to individual Subject. The middle range of experience takes in the influence of Protestant and scientific thought, the printed publication of the private, the conceptualization of virtual publics, society, public opinion, the market and the capitalization of production, the decline of the domestic economy and the increase in the sexual division of labor. The most private pole of experience involves the privatization of marriage, the family and the household and the complex entanglement of femininity, interiority, Subjectivity and sexuality. McKeon accounts for how the relationship between public and private experience first became intelligible as a variable interaction of distinct modes of being, not a static dichotomy but a tool to think with. Richly illustrated with nearly 100 images including paintings, engravings, woodcuts and a representative selection of architectural floor plans for domestic interiors, this volume reads graphic forms to emphasize how susceptible the public-private relation was to concrete and spatial representation. McKeon is similarly attentive to how literary forms evoked a tangible sense of public-private relations among them: figurative imagery, allegorical narration, parody, the author-character-reader dialectic, aesthetic distance and free indirect discourse. He also finds a structural analogue for the emergence of the modern public-private relation in the conjunction of what contemporaries called the secret history and the domestic novel. A capacious and synthetic historical investigation, *The Secret History of Domesticity* exemplifies how the methods of literary interpretation and historical analysis can inform and enrich one another.

Twenty Thousand Mornings John Joseph Mathews, 2012-08-31. When John Joseph Mathews (1894-1979) began his career as a writer in the 1930s, he was one of only a small number of Native American authors writing for a national audience. Today he is widely recognized as a founder and shaper of twentieth-century Native American literature. *Twenty Thousand Mornings* is Mathews's intimate chronicle of his formative years. Written in 1965-67 but only recently discovered, this work captures Osage life in pre-statehood Oklahoma and recounts many remarkable events in early twentieth-century history. Born in Pawhuska, Osage Nation, Mathews was the only surviving son of a mixed-blood Osage father and a French American mother. Within these pages he lovingly depicts his close relationships with family members and friends. Yet always drawn to solitude and the natural world, he wanders the Osage Hills in search of tranquil swimming holes and new adventures. Overturning misguided critical attempts to confine Mathews to either Indian or white identity, *Twenty Thousand Mornings* shows him as a young man of his time. He goes to dances and movies, attends the brand new University of Oklahoma and joins the Air Service as a flight instructor during World War I, spawning a lifelong fascination with aviation. His accounts of wartime experiences include unforgettable descriptions of his first solo flight and growing skill in night flying. Eventually Mathews gives up piloting to become a student again, this time at Oxford University, where he begins to mature as an intellectual. In her insightful introduction and explanatory notes, Susan Kalter places Mathews's work in the context of his life and career as a novelist, historian, naturalist and scholar. Kalter draws on his unpublished diaries, revealing aspects of his

personal life that have previously been misunderstood In addressing the significance of this posthumous work she posits that Twenty Thousand Mornings will challenge defy and perhaps redefine studies of American Indian autobiography
