## Love Starts With You:

Shreemad Bhagavad Gita Paramahansa Sri Swami Vishwananda, 2016-05-31 The Shreemad Bhagavad Gita is one of the most ancient scriptures in the world. It contains the direct word of God spoken for all of mankind irrespective of religion or tradition. Its philosophy and teachings are central to human life. It teaches us to live our daily lives in Divinity as a service unto God and His creation. It achieves this by gifting us true knowledge, faith, devotion, surrender, detachment, and a release of expectations and ownership over one's own actions. It comes as a stark contrast to the lives with which we have grown accustomed to leading. Today's world is filled with constant desire for material wealth, sense pleasures, individualism, and egoism. The Gita acts as a lighthouse on the shores of Vaikunta, guiding lost sailors at the sea of illusion to safety. But like any teaching, time and unqualified minds can distort it and misunderstand what is contained within. It is for that purpose that the Lord continuously takes birth on earth in the form of the Guru to revive the true essence of the Gita, to show the simplicity of the message of Bhagavan. One such Master is Paramahansa Sri Swami Vishwananda, and in this book, which is his personal commentary, we hold a treasure chest of spiritual insight.

**The Present.** Jason Paul Jelicich, 2016-12-27 When is the last time that you did nothing for 10 minutes? Not reading, not watching TV, not even thinking. For many, this seems an impossible feat. Life is just too busy. We have become so consumed by our work, smartphones, and gossip that we have lost touch with our natural selves. This disconnection is the root cause of much of the pain we suffer, a pain that arises from our resistance to what is. You likely have been thinking about doing something about this for a while now, knowing that your current trajectory leaves little left in the tank for self-care. Like most of us, you have experienced that feeling of restlessness that keeps your mind whirring even in moments of repose. The world just keeps on getting faster, and you find yourself struggling to keep pace, to stay on top of things, to stay centred. The Present is written for people just like you. It is a layperson's guide to mindfulness, offering insights and practices on how to be less tangled up in your thoughts about the past and/or future and become more present. After all, when you are present, you are happy. In fact, it's impossible to be happy and not to be present. You're bound to get at least one idea that resonates with you and sets you on a path towards more peace and contentment in your life. Perhaps the best news of all is that it can happen right here, right now.

**The Human Addictions** Valentin Matcas, 2016-04-20 Humans always seek pleasure; humans venerate pleasure but are humans sentient or

feelers by nature the way science depicts them Because if humans are defined as feelers and if they are expected to behave as feelers then this remains their meaning in life and in the world always to feel good to feel everything and to live life feeling the best even addicted Yet as you notice humans excel at reasoning the most and not mainly at feeling which describes more the animal kingdom Pleasure is very good and it is better than pain yet there is a difference between feeling and reasoning Because reasoning is more about mastering life and the world while feeling is about celebrating these Yet even this statement is insufficient because feelings are not even abilities within your cognitive system but feelings are only meant to signal needs and their fulfillment rewarding or punishing you depending on circumstances While reasoning is your main cognitive ability and you should treasure it accordingly This lack of understanding makes a difference because if you happen to live your life valuing feelings including your good feelings more than your actual human abilities including all your cognitive abilities then feelings and pleasure in special remain your focus and meaning in life And with the multitude of artificial sources of pleasure that society offers good luck to you because it is only a matter of time before you too become addicted Since as we notice throughout the book becoming addicted is not only an error of judgment that you make while trying to feel good in life as everyone else it is not only a social constraint subduing you as everyone else but addiction is integral part of the normal natural process of your cognitive system and it is even used by your subconscious intelligence in various circumstances in order to render you always eager to fulfill specific highly important activities in life as it is the case with your natural need for reproduction You have to comprehend society as it is because once you are addicted you become weak predictable and controllable and this is how others take over your living and social niche to exploit you While you end up struggling with family problems finance problems and health problems ever after Would you like to be able to manage your life your thinking and your behavior Then you have to be able to manage your feelings first And you may do so not forcefully and not directly since you are not a mechanism but you can manage your feelings only by learning everything about your feelings needs development addictions intelligences reasoning behavior society Life the world and your meaning and place in Life and in the world This book creates an entire model of the human addictions which is still easy to read teaching you everything about drugs and how they work about pleasure and how it controls you and about the world and how it interacts with you before and during addictions If you want to learn more about addictions consequences and withdrawal this book is for you
