*Eighteenth-Century Women Writers and the Gentleman's Liberation Movement* Megan A. Woodworth, 2016-04-29 In the late eighteenth century English novel the question of feminism has usually been explored with respect to how women writers treat their heroines and how they engage with contemporary political debates particularly those relating to the French Revolution Megan Woodworth argues that women writers ideas about their own liberty are also present in their treatment of male characters In positing a Gentleman s Liberation Movement she suggests that Frances Burney Charlotte Smith Jane West Maria Edgeworth and Jane Austen all used their creative powers to liberate men from the very institutions and ideas about power society and gender that promote the subjection of women Their writing juxtaposes the role of women in the private spheres with men s engagement in political structures and successive wars for independence the American Revolution the French Revolution and the Napoleonic Wars The failures associated with fighting these wars and the ideological debates surrounding them made plain at least to these women writers that in denying the universality of these natural freedoms their liberating effects would be severely compromised Thus to win the same rights for which men fought women writers sought to remake men as individuals freed from the tyranny of their patriarchal inheritance **The**

**Afterlives of Eighteenth-Century Fiction** Daniel Cook, Nicholas Seager, 2015-09-29 The Afterlives of Eighteenth Century Fiction probes the adaptation and appropriation of a wide range of canonical and lesser known British and Irish novels in the long eighteenth century from the period of Daniel Defoe and Eliza Haywood through to that of Jane Austen and Walter Scott Major authors including Jonathan Swift Samuel Richardson Henry Fielding and Laurence Sterne are discussed alongside writers such as Sarah Fielding and Ann Radcliffe whose literary significance is now increasingly being recognised By uncovering this neglected aspect of the reception of eighteenth century fiction this collection contributes to developing our understanding of the form of the early novel its place in a broader culture of entertainment then and now and its interactions with a host of other genres and media including theatre opera poetry print caricatures and film **A Genealogy of the**

**Gentleman** Mary Beth Harris, 2024-03-15 A Genealogy of the Gentleman argues that eighteenth century women writers made key interventions in modern ideals of masculinity and authorship through their narrative constructions of the gentleman It challenges two latent critical assumptions first that the gentleman s masculinity is normative private and therefore oppositional to concepts of performance and second that women writers from their disadvantaged position within a patriarchal society had no real means of influencing dominant structures of masculinity By placing writers such as Mary Davys Eliza Haywood Charlotte Lennox Elizabeth Inchbald and Mary Robinson in dialogue with canonical representatives of the gentleman author Joseph Addison and Richard Steele David Hume Samuel Johnson and Samuel Richardson Mary Beth Harris shows how these women carved out a space for their literary authority not by overtly opposing their male critics and society s patriarchal structure but by rewriting the persona of the gentleman as a figure whose very desirability and appeal

were dependent on women's influence. Ultimately this project considers the import of these women writers' legacy both progressive and conservative on hegemonic standards of masculinity that persist to this day. **The Orphan in Eighteenth-Century Law and Literature** Cheryl L. Nixon, 2016-02-17 Cheryl Nixon's book is the first to connect the eighteenth-century fictional orphan and factual orphan, emphasizing the legal concepts of estate, blood, and body. Examining novels by authors such as Eliza Haywood, Tobias Smollett, and Elizabeth Inchbald, and referencing never before analyzed case records, Nixon reconstructs the narratives of real orphans in the British parliamentary equity and common law courts and compares them to the narratives of fictional orphans. The orphan's uncertain economic, familial, and bodily status creates opportunities to plot his or her future according to new ideologies of the social individual. Nixon demonstrates that the orphan encourages both fact and fiction to re-imagine structures of estate, property, and inheritance, blood, familial origins, and marriage, and body, gender, and class mobility. Whereas studies of the orphan typically emphasize the poor urban foundling, Nixon focuses on the orphaned heir or heiress and his or her need to be situated in a domestic space. Arguing that the eighteenth century constructs the valued orphan, Nixon shows how the wealthy orphan became associated with new understandings of the individual. New archival research encompassing print and manuscript records from Parliament, Chancery, Exchequer, and King's Bench demonstrate the law's interest in the propertied orphan. The novel uses this figure to question the formulaic structures of narrative sub-genres such as the picaresque and romance, and ultimately encourage the hybridization of such plots. As Nixon traces the orphan's contribution to the developing novel and developing ideology of the individual, she shows how the orphan creates factual and fictional understandings of class, family, and gender. **The Little Republic** Karen Harvey, 2012-04-19 Reconstructs the distinctive relationship between the house and masculinity in the eighteenth century, adds a missing piece to the history of the home, uncovering the hopes and fears men had for their homes and families. Reveals how the public identity of men has always depended to a considerable extent upon the roles they performed within doors.

**The Rise of the Novel** Nicholas Seager, 2017-09-16 Why have scholars located the emergence of the novel in eighteenth-century England? What historical forces and stylistic developments helped to turn a disreputable type of writing into an eminent literary form? This Reader's Guide explores the key critical debates and theories about the rising novel from eighteenth-century assessments through to present-day concerns. Nicholas Seager surveys major criticism on authors such as Aphra Behn, Daniel Defoe, Samuel Richardson, Henry Fielding, and Jane Austen. Covers a range of critical approaches and topics including feminism, historicism, postcolonialism, and print culture. Demonstrates how critical work is interrelated, allowing readers to discern trends in the critical conversation. Approachable and stimulating, this is an invaluable introduction for anyone studying the origins of the novel and the surrounding body of scholarship. **Romance Fiction** Kristin Ramsdell, 2012-03-02 A comprehensive guide that defines the literature and outlines the best-selling genre of all time, romance fiction. **Literary Cultures and Eighteenth-Century Childhoods** Andrew O'Malley, 2018-12-29 The essays in this volume offer fresh and innovative considerations both of how children interacted with the world of print and of how childhood circulated in the literary cultures of the eighteenth century They engage with not only the texts produced for the period's newly established children's book market but also with the figure of the child as it was employed for a variety of purposes in literatures for adult readers Embracing a wide range of methodological and disciplinary perspectives and considering a variety of contexts these essays explore childhood as a trope that gained increasing cultural significance in the period while also recognizing children as active agents in the worlds of familial and social interaction Together they demonstrate the varied experiences of the eighteenth century child alongside the shifting sometimes competing meanings that attached themselves to childhood during a period in which it became the subject of intensified interest in literary culture

*Women Novelists and the Ethics of Desire, 1684-1814* Elizabeth Kraft, 2016-12-05 In *Women Novelists and the Ethics of Desire 1684-1814* Elizabeth Kraft radically alters our conventional views of early women novelists by taking seriously their representations of female desire To this end she reads the fiction of Aphra Behn Delarivier Manley Eliza Haywood Sarah Fielding Charlotte Smith Frances Burney and Elizabeth Inchbald in light of ethical paradigms drawn from biblical texts about women and desire Like their paradigmatic foremothers these early women novelists create female characters who demonstrate subjectivity and responsibility for the other even as they grapple with the exigencies imposed on them by circumstance and convention Kraft's study informed by ethical theorists such as Emmanuel Levinas and Luce Irigaray is remarkable in its juxtaposition of narratives from ancient and early modern times These pairings enable Kraft to demonstrate not only the centrality of female desire in eighteenth century culture and literature but its ethical importance as well
