Lovers Touch:

The Vital Touch Sharon Heller, 2025-09-23 Using a lively array of anthropological and sociological sources The Vital Touch How Intimate Contact with Your Baby Leads to Happier Healthier Development by Sharon Heller PhD presents a provocative examination of the reasons why now more than ever we need to make consistent physical connections with our infants and children

Images of Desire Jaqueline Lapa Sussman, 2003-12 Most of us suffer from images implying that we must look and act like movie stars to be sensuous Movie television magazines as well as our personal histories shape these images and sensuality But each of us is born with a natural sensuality that is still locked within us Eidetic Imaging removes those layers of false images and unlocks our lush natural sensuality

Empire of the Senses David Howes, 2021-08-05 With groundbreaking contributions by Marshall McLuhan Oliver Sacks Italo Calvino and Alain Corbin among others *Empire of the Senses* overturns linguistic and textual models of interpretation and places sensory experience at the forefront of cultural analysis The senses are gateways of knowledge instruments of power sources of pleasure and pain and they are subject to dramatically different constructions in different societies and periods *Empire of the Senses* charts the new terrains opened up by the sensual revolution in scholarship as it takes the reader into the sensory worlds of the medieval witch and the postmodern mall a Japanese tea ceremony and a Boston shelter for the homeless This compelling revisioning of history and cultural studies sparkles with wit and insight and is destined to become a landmark in the field

Shades of Life Linda Faye Beach, 2005-02 All people hold on to life and hope to find the beauty so often hidden from them They fail to understand that the beauty they seek surrounds them at all times Beauty is in all of life not just the happy times but what one might consider the hard times as well How wonderful to be entitled to live even for a short time and know such feelings as love hate joy sadness beauty sorrow and all the feeling that make us human This is poetry Life is a book of poetry Each day we wake and start a new page and do not understand that we are all poets We create what we will be We see beauty in a half dead tree or we cut it down We talk to God on our level and shake when we hear his name Choose your life create your own poetry find love and beauty in all things Love while you can

Your Next 24 Hours Hal Donaldson, Kirk Noonan, 2017-02-14 If asked who among us wouldn't say we were kind people But kindness is often manifested in feelings of pity or sympathy especially when others are watching rather than in deeds And when it comes down to it what good does mere feeling do for the world *Your Next 24 Hours* is about something much bigger a lifestyle of kindness without thought of reciprocation extended toward every person in our lives both friend and foe Through powerful true stories of kindness lived out this book shows readers the enormous difference they can make through small doable acts of kindness in their families communities workplaces schools and churches It shows how every encounter with another person is an opportunity to be kind and a chance to change our world Readers of *Your Next 24 Hours* will find deep satisfaction and joy as they discover how they can be part of a revolution of kindness that starts with them and reaches out through every person their lives touch

the Psychology of Sex: Sexual selection in man Havelock Ellis, 1905 *Studies in the psychology of sex. v.4, 1906* Havelock Ellis, 1905 **Studies in the Psychology of Sex v4** Havelock Ellis, 2015-11-07

umescence the process by which the organism is brought into the physical and psychic state necessary to insure conjugation and detumescence to some extent comes about through the spontaneous action of internal forces To that extent it is analogous to the physical and psychic changes which accompany the gradual filling of the bladder and precede its evacuation But even among animals who are by no means high in the zo logical scale the process is more complicated than this External stimuli act at every stage arousing or heightening the process of tumescence and in normal human beings it may be said that the process is never completed without the aid of such stimuli for even in the auto erotic sphere external stimuli are still active either actually or in imagination The chief stimuli which influence tumescence and thus direct sexual choice come chiefly indeed exclusively through the four senses of touch smell hearing and sight All the phenomena of sexual selection so far as they are based externally act through these four senses 1 The reality of the influence thus exerted may be demonstrated statistically even in civilized man and it has been shown that as regards for instance eye color conjugal partners differ sensibly from the unmarried persons by whom they are surrounded When therefore we are exploring the nature of the influence which stimuli acting through the sensory channels exert on the strength and direction of the sexual impulse we are intimately concerned with the process by which the actual form and color not alone of living things generally but of our own species have been shaped and are still being shaped At the same time it is probable we are exploring the mystery which underlies all the subtle appreciations all the emotional undertones which are woven in the web of the whole world as it appeals to us through those sensory passages by which alone it can reach us We are here approaching therefore a fundamental subject of unsurpassable importance a subject which has not yet been accurately explored save at a few isolated points and one which it is therefore impossible to deal with fully and adequately Yet it cannot be passed over for it enters into the whole psychology of the sexual instinct *The Psychology of Sex (Vol. 1-6)* Havelock Ellis, 2020-12-17 This edition contains three studies which seem to me to be necessary prolegomena to that analysis of the sexual instinct which must form the chief part of an investigation into the psychology of sex The first sketches the main outlines of a complex emotional state which is of fundamental importance in sexual psychology the second by bringing together evidence from widely different regions suggests a tentative explanation of facts that are still imperfectly known the third attempts to show that even in fields where we assume our knowledge to be adequate a broader view of the phenomena teaches us to suspend judgment and to adopt a more cautious attitude So far as they go these studies are complete in themselves their special use as an introduction to a more comprehensive analysis of sexual phenomena is that they bring before us under varying aspects a characteristic which though often ignored is of the first importance in obtaining a clear understanding of the facts the tendency of the sexual impulse to appear in a spontaneous and to some extent periodic manner affecting women differently from men This is a tendency which later I hope

to make still more apparent for it has practical and social as well as psychological implications Here and more especially in the study of those spontaneous solitary manifestations which I call auto erotic I have attempted to clear the ground and to indicate the main lines along which the progress of our knowledge in these fields may best be attained **Studies in the Psychology of Sex** Havelock Ellis, 2001 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
