The Body ??, 1987-01-01 This book explores mind body philosophy from an Asian perspective It sheds new light on a problem central in modern Western thought Yuasa shows that Eastern philosophy has generally formulated its view of mind body unity as an achievement a state to be acquired rather than as essential or innate Depending on the individual s own developmental state the mind body connection can vary from near dissociation to almost perfect integration Whereas Western mind body theories have typically asked what the mind body is Yuasa asks how the mind body relation varies on a spectrum from the psychotic to the yogi from the debilitated to the athletic from the awkward novice to the master musician Yuasa first examines various Asian texts dealing with Buddhist meditation kundalini yoga acupuncture ethics and epistemology developing a concept of the dark consciousness not identical with the psychoanalytic unconscious as a vehicle for explaining their basic view He shows that the mind body image found in those texts has a striking correlation to themes in contemporary French phenomenology Jungian psychoanalysis psychomatic medicine and neurophysiology The book clears the ground for a provocative meeting between East and West establishing a philosophical region on which science and religion can be mutually illuminating *Nondual Love* A. H. Almaas, 2023-03-21 From beloved author and teacher A H Almaas an exploration of love beyond the boundaries of the individual self revealing that nondual love is the nature of everything including ourselves Love is a transformative aspect of the spiritual path and in fact it is our very nature A H Almaas takes us on a journey beyond a narrow individual understanding of love to an exploration of what he calls the boundless dimension of Divine Love This is not the kind of love that we feel toward somebody else it is nondual a love without boundaries Or put another way it is universal true nature experienced as love By shifting our focus beyond our individual human experience to the experience of the whole of existence we are able to see the true richness of the universe All of reality takes on a quality of inner light of softness and ease of sweetness and holding When we are open to the dimension of nondual love we can relax and trust our inner ground that is also the ground of everything our true nature free from limitations a sense of complete release freedom and delight that is free of conflict fear insecurity and worry Almaas discusses

the obstacles that make it difficult to awaken to true nature in this form such as our belief in a separate self and our past conditioning Each chapter includes an inquiry or practice such as explorations of attachments and worldly desires as well as inquiries into union surrender and grace [A History of Philosophy: History of modern philosophy](#) Friedrich Ueberweg,1874
