

Do you think a bright young engineer should spend his most imaginative years on the same assignment?

Neither do we.

That's why many of our areas are organized by function—rather than by project.

At Hughes, you might work on spacecraft this year, communications satellites next year, tactical missiles the next year.

All you need is an EE, ME or Physics degree, 2-6 years experience, and talent. If you qualify, you may work on several different assignments over a period of a few years.

You may work on specialized assignments, or broad systems-oriented programs.

Or you can choose not to change assignments if you'd rather develop in-depth skills in one area.

Either way, we think you'll like the Hughes approach—the chance to be assigned by function, if desired.

It means you'll become more versatile in a shorter time.

(And your salary will show it.)
