Centro Cultural, 2001 One of the first modern European artists to be acknowledged in Latin America Lucio Fontana is also one of the first of his ilk to be influenced by the cultural reality of this region Through his poetic inventions he impregnated the Brazilian art scene with his simple transformations of space and subject and his wish for space paralleled similar concerns expressed by his Brazilian counterparts In Lucio Fontana Brasil the dialogue between the two is explored through instances of collation approximation and comparison and is traced to their shared origins in Western art traditions and its developments in South America **Lucio Fontana** Pia Gottschaller, 2012 Lucio Fontana 1899 1968 is widely regarded as one of the most influential and innovative post World War II Italian artists Best known for his tagli slashed mostly monochromatic canvases Fontana fashioned a remarkably multifaceted oeuvre that encompasses architecture sculpture and ceramics as well as painting In his quest to expand the vocabulary of his art Fontana subjected the pictorial surface of his paintings to a remarkable assortment of punctures gashes and slashes as well as adornments of glass fragments glittering aluminum flakes and sand This richly illustrated book the third in the Getty Conservation Institute's Artist's Materials series presents the first technical study in English of this important painter Initial chapters present an informative overview of Fontana's life and work Subsequent chapters examine the nine major cycles of work on canvas that constitute his most important achievement focusing on the physical genesis of these landmark paintings How did Fontana's philosophical concerns influence his choice of materials Once he had settled on an aesthetic concept what precise means did he use to realize it Did physical constraints imposed by the material force him to adjust his concepts In considering these questions this book seeks to illuminate how Fontana's material choices over the course of his career fit into the gradual evolution of idea into form **Lucio Fontana** Lucio Fontana, 2001 **Made in Brasil** Arlindo Machado, 2007 Made in Brasil tr s d cadas do v deo brasileiro re ne reflex es e depoimentos de artistas realizadores e autores O livro se destaca pela produ o de conhecimento sobre o v deo e suas rela es com o cinema a televis o a literatura e as artes visuais referentes aos principais momentos do v deo no Brasil **space.time.narrative** Frank den Ouden, 2016-12-05 Making exhibitions is a

collaborative art producing is a multi layered unity of ideas and objects of invention and manifestation of content and form However there is an antagonistic dimension to it because content and form are traditionally represented by the entirely different realms of curator and designer Future successful developments in exhibition making are dependent on whether this gap of antagonism can be bridged space time narrative calls for a paradigmatic shift of focus It puts forward a unique approach breaking down traditional barriers and offering a wide ranging theoretical context redefining and expanding the parameters and the dynamics of the exhibition format in terms of an open narrative environment which at its roots displays deep similarities with performance on stage or installation in urban and rural space The book breaks new ground by looking at the exhibition as a cultural format firstly within a great sweep of the arts in general weaving a web of philosophical museological linguistic and media theoretical references which expands the contextual field of the profession It then offers unique and important insights from within in extreme close up by bringing together interviews with six of the leading exhibition designers who discuss the dynamics of the medium its interactive dimensions the soft parameters of the exhibition and how to get to grips with the format as a complex narrative space in which the public takes part Curator and designer should reposition themselves professionally at the heart of the axis which divides or connects content and form

Visualizing Feeling Susan Best, 2011-06-30 Is late modern art anti aesthetic What does it mean to label a piece of art affectless These traditional characterizations of 1960s and 1970s art are radically challenged in this subversive art history By introducing feeling to the analysis of this period Susan Best acknowledges the radical and exploratory nature of art in late modernism The book focuses on four highly influential female artists Eva Hesse Lygia Clark Ana Mendieta and Theresa Hak Kyung Cha and it explores how their art transformed established avant garde protocols by introducing an affective dimension This aspect of their work while often noted has never before been analyzed in detail Visualizing Feeling also addresses a methodological blind spot in art history the interpretation of feeling emotion and affect It demonstrates that the affective dimension alongside other materials and methods of art is part of the artistic means of production and innovation This is the first thorough re appraisal of aesthetic engagement with affect in post 1960s art *Brasil e Italia* Lúcia Wataghin, 2003
