Ludwig Persius The Architectural Work Today:

Ludwig Persius Ludwig Persius, Hillert Ibbeken, 2005 Ludwig Persius 1803 1845 architecture was molded by the work of Karl Friedrich Schinkel He was a master of the disposition of building volumes and of tying buildings into the landscape About 50 buildings have survived including early industrial structures Architectural work today Hillert Ibbeken, Karl Friedrich Schinkel, Elke Blauert, 2002 Records and assembles material on over 150 buildings by Karl Schinkel Germany's most important 19th century architect *Hut Pavilion Shrine: Architectural Archetypes in Mid-Century Modernism* Miles David Samson, 2016-03-09 The phase of American architectural history we call mid century modernism 1940 1980 saw the spread of Modern Movement tenets of functionalism social service and anonymity into mainstream practice It also saw the spread of their seeming opposites Temples arcades domes and other traditional types occur in both modernist and traditionalist forms from the 1950s to the 1970s Hut Pavilion Shrine examines this crossroads of modernism and the archetypal and critiques its buildings and theory The book centers on one particularly important and omnipresent type the pavilion a type which was the basis of major work by Louis I Kahn Paul Rudolph Philip Johnson Minoru Yamasaki and other eminent architects While focusing primarily on the architecture culture of the United States it also includes the work of British European Team X and Scandinavian designers and writers Making connections between formal analysis historical context and theory the book continues lines of inquiry which have been pursued by Neil Levine and Anthony Vidler on representation and by Sarah Goldhagen and Alice Friedman on modernism's forbidden elements of the honorific and the visually pleasurable It highlights the significance of pavilionizing mid century designers such as Victor Lundy John Johansen Eero Saarinen and Edward Durrell Stone and shows how frequently essentialist and traditionalist types appeared in the roadside vernacular of drive in restaurants gas stations furniture and car showrooms branch banks and motels The book ties together the threads in mid century architectural theory that addressed aspects of type essential structure and primal humanistic aspects of environment making and discusses how these concerns outlived the mid century moment and in the designs and writings of Aldo Rossi and others they paved the way for Post Modernism Architectural Record, 1928
