Kimberly S. Hanger, 1997-03-13 During Louisiana's Spanish colonial period economic, political, and military conditions combined with local cultural and legal traditions to favor the growth and development of a substantial group of free blacks. In *Bounded Lives, Bounded Places*, Kimberly S. Hanger explores the origin of antebellum New Orleans' large influential and propertied free black or libre population, one that was unique in the South. Hanger examines the issues libres confronted as they individually and collectively contested their ambiguous status in a complexly stratified society. Drawing on rare archives in Louisiana and Spain, Hanger reconstructs the world of late eighteenth-century New Orleans from the perspective of its free black residents and documents the common experiences and enterprises that helped solidify libres' sense of group identity. Over the course of three and a half decades of Spanish rule, free people of African descent in New Orleans made their greatest advances in terms of legal rights and privileges, demographic expansion, vocational responsibilities, and social standing. Although not all blacks in Spanish New Orleans yearned for expanded opportunity, Hanger shows that those who did were more likely to succeed under Spain's dominion than under the governance of France, Great Britain, or the United States. The advent of U.S. rule brought restrictions to both manumission and free black activities in New Orleans. Nonetheless, the colonial libre population became the foundation for the city's prosperous and much acclaimed Creoles of Color during the antebellum era.

**Occupied America** Rodolfo Acuña, 1981 [Building Downtown Los Angeles](#) Leland T. Saito, 2022-07-26 From the 1970s on, Los Angeles was transformed into a center for entertainment, consumption, and commerce for the affluent. Mirroring the urban development trend across the nation, new construction led to the displacement of low-income and working-class racial minorities as city officials targeted these neighborhoods for demolition in order to spur economic growth and bring in affluent residents. Responding to the displacement, there emerged a coalition of unions, community organizers, and faith-based groups advocating for policy change. In *Building Downtown Los Angeles*, Leland Saito traces these two parallel trends through specific construction projects and the backlash they provoked. He uses these events to theorize the past and present processes of racial formation and the racialization of place, drawing new insights on the relationships between race, place, and policy. Saito brings to bear the importance of historical events on contemporary processes of gentrification and integrates the fluidity of racial categories into his analysis. He explores these forces in action as buyers and entrepreneurs meet in the real estate marketplace, carrying with them a fraught history of exclusion and vast disparities in wealth among racial groups.
