**The Seven Deadly Sins** David A. Salomon, 2019-03-22 This volume looks at the history of the idea of sin as it has influenced and shaped Western culture Emphasis is placed on an inter and cross disciplinary approach The word sin has come to transcend the theological and enter the common parlance in both media and society This book is an examination of that idea It discusses how the concept of sin evolved through the Middle Ages and into the modern era From religion to politics and from the bedroom to the boardroom a more complete understanding of the history of sin will assist the modern reader in a wide variety of fields This book builds on the work of Gregory the Great to explain each of the so called seven deadly sins pride lust anger gluttony avarice envy and sloth Each chapter provides a close look at the origins and history of that individual sin concluding with a section on contemporary applications of the idea and a case study The central argument is that the concept of sin has been integral to the development of Western society including not only political and religious history but also in extensive aspects of popular culture in the twenty first century The broader but significant issue of intention versus action permeates the study

**What's the Difference? Philosophy**

Adam Ferner, 2025-03-25 What's the difference between sarcasm and irony Or nihilism and fatalism Or sex and gender This book is part of a new series and a brand new approach to popular reference based on the question What's the difference Inside there are crystal clear explanations of 150 paired words that build into a wide ranging philosophy primer Philosophical concepts are explored in pairs to help clarify common and not so common confusions Exploring two definitions at the same time cuts to the heart of a topic quickly and clearly so you can avoid those all too frequent conceptual slip ups This book helps you to define your terms so you can tell the difference between a chatterbox and a brainbox a sophist and a sage and crucially a well informed argument and a sloppy debate **Love** Anthony Walsh, 2017-07-05 Love is a little word with a universe of meanings and has engaged people's interest throughout human history The need to give and receive love lies deep within human nature Philosophers poets theologians sociologists and scientists have all attempted to explain its exact origin but is it an evolutionary adaptation or a social construct Walsh discusses that the nature of and need for love has biological origins He draws upon Darwin's sexual selection theory to define the perceptions of love by infants through the process of experience dependent brain wiring He observes that mother love makes a child capable of loving and that father love makes a child feel worthy of love He appraises the origin and purpose of romantic love in his discussions on sexual reproduction by looking at chemical and neurological responses to love and the influence of love on one's physical and mental health With frequent quotes from literary masters like Shakespeare to orient one's scientific and humanistic understanding of love Walsh goes on to explore various styles of romantic love including monogamy promiscuity bartering love and betrayed love the effects of a skewed sex ratio on dating and mating practices and the age old quest for a perfect society populated by perfect people obeying the biblical command to love one another *Something Old, Something New* Wayne Glausser, 2018 *Something Old Something New* Contemporary Entanglements of Religion and Secularity offers a fresh perspective on debates surrounding religious and secular thinking In each chapter Wayne Glausser focuses on a topic of contemporary relevance in which something old the sacrament of extreme unction Greek rhetorical tropes scholastic theology entangles with something new psilocybin therapy for the dying the New Atheism cognitive science Glausser uses the term entanglement to describe his distinctive approach to the relationship between religion and secularity The concept of entanglement refers to a contentious but oddly intimate relationship in which secular ideas compete with corresponding religious convictions but neither side wins by displacing the other As traditional religious knowledge and values come into conflict with their secular counterparts the old ideas undergo stress and adaptation but the influence works in both directions Whether they do so consciously or unconsciously entangled secularists engage with and sometimes borrow from older paradigms they believe they have surpassed *Something Old Something New* takes an unusual approach to this popular debate and offers a new perspective in the conversation between believers and secularists This is a book that theists atheists agnostics and everyone still searching for the right label will find respectful but provocative *Feminist Theology and*

*Contemporary Dieting Culture* Hannah Bacon, 2019-08-08 Hannah Bacon draws on qualitative research conducted inside one UK secular commercial weight loss group to show how Christian religious forms and theological discourses inform contemporary weight loss narratives Bacon argues that notions of sin and salvation resurface in secular guise in ways that repeat well established theological meanings The slimming organization recycles the Christian terminology of sin spelt Syn and encourages members to frame weight loss in salvific terms These theological tropes lurk in the background helping to align food once more with guilt and moral weakness but they also mirror to an extent the way body policing techniques in Christianity have historically helped to cultivate self care The self breaking and self making aspects of women s Syn watching practices in the group continue certain features of historical Christianity serving in similar ways to conform women s bodies to patriarchal norms while providing opportunities for women s self development Taking into account these tensions Bacon asks what a specifically feminist theological response to weight loss might look like If ideas about sin and salvation service hegemonic discourses about fat while also empowering women to shape their own lives how might they be rethought to challenge fat phobia and the frenetic pursuit of thinness As well as naming as sin principles and practices which diminish women s appetites and bodies this book forwards a number of proposals about how salvation might be performed in our everyday eating habits and through the cultivation of fat pride It takes seriously the conviction of many women in the group that food and the body can be important sites of power wisdom and transformation but channels this insight into the construction of theologies that resist rather than reproduce thin privilege and size ist norms
