Ackerman, 2019-06-06 Although Paul used language similar to the religions and cultures of his time he had a unique understanding of the mystery of God The once hidden plan of God was revealed and fulfilled in the person of Jesus of Nazareth Saul of Tarsus experienced a fundamental change when he encountered the risen Jesus on the road to Damascus This vision gave him new direction and purpose and profoundly changed his understanding of God s plan for humanity Paul often uses the phrase in Christ or its variations to describe this plan Being in Christ results in transformation into Christ s likeness of holiness and love through the indwelling Holy Spirit Those in Christ form a new community that crosses ethnic barriers is bound together in fellowship with the Triune God and fulfills its purpose of holiness before him Paul s answer to the struggles people face is simple when one is united with Christ by dying to the old self and committing to his supremacy one will find victory over any force opposed to us in this world This book explores one of the most profound claims in the New Testament that demands a response of its readers **Discourses on Corruption** Kalpana Kannabiran, Hollstein, Bettina, Florian F Hoffmann, 2021-11-01 Corruption often described as all that is rotten in the modern society has become an increasingly dominant theme in contemporary political discourse one that is

related to specific practices concepts and evaluations that vary across regions cultures spheres of action and disciplines This volume through case studies investigates corruption in the Global South especially India and Brazil and West especially Switzerland to gain a more nuanced view of the phenomenon The chapters in this volume are organized into two loosely structured and overlapping parts the first part consisting of Chapters 2 5 covers conceptual questions related to corruption discourses from different perspectives such as economic ethics social capital theory and literature the second part consisting of Chapters 6 11 details the complexity and diversity of corruption practices within and between countries and regions providing different interpretative frameworks which in turn flow into discourses on corruption

Legalized Families in the Era of Bordered Globalization Dafna Hacker, Daphna Hacker, 2017-08-31 The first book to provide a socio legal perspective on current interrelations between globalization borders families and the law

International Law and Society Laura A. Dickinson, 2017-11-30 Scholars of international human rights law are largely unfamiliar with law and society scholarship while the study of international human rights has remained at the margins of the law and society movement International Law and Society Empirical Approaches to Human Rights seeks to bridge this gap by presenting the work of a growing number of academics who are adopting a range of empirical approaches to international human rights Drawn from the fields of anthropology sociology political science and law the studies featured in this volume use a variety of qualitative and quantitative methods to analyze core issues of international law and human rights such as compliance the development of norms and the role of social movements

Law and Social Movements Michael McCann, 2017-07-05 The work of both socio legal scholars and specialists working in social movements research continues to contribute to our understanding of how law relates to and informs the politics of social movements In the 1990s an important line of new research most of it initiated by those working in the law and society tradition began to bridge the gaps between these two areas of scholarship This work includes new approaches to group legal mobilization politics analysis of the judicial impact on social reform struggles studies of individual legal mobilization in civil disputing and an almost entirely new area of research in cause lawyering It brings together the best of this research introduced by a detailed essay by the editor

The Individual in International Law Anne Peters, Tom Sparks, 2024-02-28 Shifts across the corpus of international law have brought the international legal system into a closer alignment with the interests of the individual This has led to a great and growing interest in the roles and status of individuals in international law and provided new impulses for debate The Individual in International Law is an exploration of what is described as the humanisation of international law It examines how international law has accommodated individuals and how individual status rights and obligations have become denser and more important in the international legal system Split into two parts the book analyses the humanisation of international law in different historical periods and from various theoretical perspectives The first part focuses on the historical evolution of international law exploring how the interests of individuals have shaped the development of the legal system from antiquity

to 1945 providing a counterpoint to State centric readings of international law's history The second part contains theoretical debates critical approaches and interdisciplinary investigations offering perspectives from ius positivism and ius naturalism Marxism TWAIL feminism global law global constitutionalism law and economics and legal anthropology The book aims to stimulate further research on the humanisation and dehumanisation of new fields ranging from the ius contra bellum to climate law The editors introduction and conclusion frame the contributions draw together their findings and address critiques comprehensively Written by a team of acknowledged experts in their fields this volume elucidates how the interests rights obligations and responsibilities of individuals have shaped international norms and regimes and suggests how a reoriented transformative humanism can inform and develop international law in an era of profound ideological ecological and technical challenge This is an open access title It is made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 International licence It is available to read and download as a PDF version on the Oxford Academic platform

Hunter-trader-trapper, 1912 **Realistic Socio-legal Theory** Brian Z. Tamanaha, 1997

Combining philosophical pragmatism with a methodological foundation Tamanaha formulates a framework for a realistic approach to socio legal theory The strengths of this approach are contrasted with that of the major schools of socio legal theory by application to core issues in this area Thus Tamanaha explores the problematic state of socio legal studies the relationship between behaviour and meaning the notion of legal ideology the problem of indeterminacy in rule following and application and the structure of judicial decision making These issues are tackled in a clear and concise fashion while articulating a social theory of law which draws equally from legal theory and socio legal theory

Monitoring, Simulation, Prevention and Remediation of Dense and Debris Flows III D. De Wraechien, 2010 Debris and hyper concentrated flows are among the most destructive of all water related disasters They affect both rural and urban areas in a wide range of morphoclimatic environments and in recent years have attracted more and more attention from the scientific and professional communities and concern from the public due to the death toll they claim The increased frequency of these natural hazards coupled with climatic change predictions and urban development suggests that they are set to worsen in the future This book contains the edited versions of the papers presented at the third International conference on Monitoring Simulation Prevention and Remediation of Dense and Debris Flows The Conference brought together engineers scientists and managers from across the globe to discuss the latest scientific advances in the field of dense and hyper concentrated flows as well as to improve models assess risk develop hazard maps based on model results and to design prevention and mitigation measures The papers have been organised into the following sections Debris Flow Modelling Debris Flow Triggering Risk Assessment and Hazard Mitigation Sediment Transport and Debris Flow Monitoring Analysis

Criminal Law in Action Jan J.M. van Dijk, Ch. Haffmans, F. Rüter, J. Schutte, S. Stolwijk, 2023-09-20 *Globalization and Common Responsibilities of States* Koen De Feyter, 2017-05-15 There is a growing awareness that international law insufficiently

protects common global interests and that States and non State actors need to work together to protect global aims The focus of this book is on the different fields of international law where there is a need for global cooperation to achieve common aims for example the law of the sea protection of world cultural heritage sustainable development biological diversity and climate change human rights and international crimes The volume also identifies the legal developments which have taken place for example treaties which use the language of common heritage of mankind or common concern of humanity thereby identifying global concerns and reflecting a global set of values and interests independent of the interests of States

Confronting Sexual Harassment Anna-Maria Marshall, 2017-03-02 Examining the relationship between law and social change in the context of employees everyday problems with sexual harassment this volume elaborates a framework for studying the role of law in everyday acts of resistance what the author calls the legal consciousness of injustice The framework situates the analysis in the context of a specific social problem and its related legal domain It de centres the law by accounting for the way that social movements counter movements policy makers and powerful institutions frame the debate surrounding the social problem Drawing on frame analysis developed in social movement studies this aspect of the approach specifically incorporates other schema and shows how law supports both oppositional and dominant interpretations of experience Following the stages of a dispute the framework then examines the way that people use frames to make sense of their experiences

Law in Modern Society Roberto Mangabeira Unger, 1977-07 Law in Modern Society is a comparative study of the place of law in societies as well as a criticism of social theory Under what conditions do different kinds of law emerge What are the bases of the rule of law ideal that marks advanced liberal capitalist societies What can the study of law teach us about social hierarchy and moral vision in these societies and indeed about the specificity of Western civilization Why do we find it necessary to struggle for the rule of law and impossible to achieve it What political possibilities are closed or opened by present day changes in the established styles of legality and legal thought Unger deals with these questions in a broad range of historical settings But he also relates them to the central issues of social theory the method of explanation the conditions of social order and the nature of modern society the book argues that to resolve its own internal dilemmas the science of society must once again become both metaphysical and political

Habermas and Law Hugh Baxter, 2020-09-10 Habermas and Law makes accessible the most important essays in English that deal with the application to law of the work of major philosophers for whom law was not a main concern It encompasses not only what these philosophers had to say about law but also brings together essays which consider those aspects of the work of major philosophers which bear on our interpretation and assessment of current law and legal theory The essays are based on scholarly study of particular philosophers and deal with both the nature and role of law and the application of philosophy to specific areas of law

Indigenous Peoples, Customary Law and Human Rights - Why Living Law Matters Brendan Tobin, 2014-08-27 This highly original work demonstrates the fundamental role of customary law for the realization of

Indigenous peoples human rights and for sound national and international legal governance The book reviews the legal status of customary law and its relationship with positive and natural law from the time of Plato up to the present It examines its growing recognition in constitutional and international law and its dependence on and at times strained relationship with human rights law The author analyzes the role of customary law in tribal national and international governance of Indigenous peoples lands resources and cultural heritage He explores the challenges and opportunities for its recognition by courts and alternative dispute resolution mechanisms including issues of proof of law and conflicts between customary practices and human rights He throws light on the richness inherent in legal diversity and key principles of customary law and their influence in legal practice and on emerging notions of intercultural equity and justice He concludes that Indigenous peoples rights to their customary legal regimes and states obligations to respect and recognize customary law in order to secure their human rights are principles of international customary law and as such binding on all states At a time when the self determination land resources and cultural heritage of Indigenous peoples are increasingly under threat this accessible book presents the key issues for both legal and non legal scholars practitioners students of human rights and environmental justice and Indigenous peoples themselves

Nonlinear And Chaotic Phenomena In Plasmas, Solids And Fluids - Proceedings Of The Conference W Rozmus, Jack A Tuszynski, 1991-07-22 *Varieties of Capitalism in History, Transition and Emergence* Martha Prevezer, 2017-03-27 Economics tends to teach that developed countries have good institutions while developing countries do not and that this is the factor that constrains the latter's growth However the picture is far messier than this explanation suggests Building on the varieties of capitalism framework this book brings together the tools of institutional economics with historical analyses of institutional evolution of different kinds of property rights and legal systems protected by different kinds of state giving rise to distinct corporate governance structures It constructs institutional development histories across leading liberal capitalisms in Britain and the United States compared with continental capitalisms in France and Germany and contemporary transitional capitalisms in China and Tanzania This volume is innovative in combining both historical and economic insights and in combining developed country with developing country institutional emergence dispelling the prevailing sense of complacency about the inevitability of the path of institutional development for the developed areas of the world and the paths that developing countries are likely to follow This volume will be of great importance to those who study international economics development economics and international business
