Lynching Beyond Dixie Michael J. Pfeifer, 2013-03-16 In recent decades scholars have explored much of the history of mob violence in the American South especially in the years after Reconstruction However the lynching violence that occurred in American regions outside the South where hundreds of persons including Hispanics whites African Americans Native Americans and Asian Americans died at the hands of lynch mobs has received less attention This collection of essays by prominent and rising scholars fills this gap by illuminating the factors that distinguished lynching in the West the Midwest and the Mid Atlantic The volume adds to a more comprehensive history of American lynching and will be of interest to all readers interested in the history of violence across the varied regions of the United States Contributors are Jack S Blocker Jr Brent M S Campney William D Carrigan Sundiata Keita Cha Jua Dennis B Downey Larry R Gerlach Kimberley Mangun Helen McLure Michael J Pfeifer Christopher Waldrep Clive Webb and Dena Lynn Winslow

ideology Arguing that the origins of lynching cannot be restricted to any particular region Pfeifer shows how the national and transatlantic context is essential for understanding how whites used mob violence to enforce the racial and class hierarchies across the United States **African American History and Life, 1877-1954** Jean Kemble, British Library, 2000

Unnatural Selections Daylanne K. English, 2005-12-15 Challenging conventional constructions of the Harlem Renaissance and American modernism Daylanne English links writers from both movements to debates about eugenics in the Progressive Era She argues that in the 1920s the form and content of writings by figures as disparate as W E B Du Bois T S Eliot Gertrude Stein and Nella Larsen were shaped by anxieties regarding immigration migration and intraracial breeding English's interdisciplinary approach brings together the work of those canonical writers with relatively neglected literary social scientific and visual texts She examines antilynching plays by Angelina Weld Grimké as well as the provocative writings of white female eugenics field workers English also analyzes the *Crisis* magazine as a family album filtering uplift through eugenics by means of photographic documentation of an ever improving black race English suggests that current scholarship often misreads early twentieth century visual literary and political culture by applying contemporary social and moral standards to the past Du Bois she argues was actually more of a eugenicist than Eliot Through such reconfiguration of the modern period English creates an allegory for the American present because eugenics was in its time widely accepted as a reasonable progressive ideology we need to consider the long term implications of contemporary genetic engineering fertility enhancement and control and legislation promoting or discouraging family growth The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America Legacies of Lynching Jonathan Markovitz, 2004 Between 1880 and 1930 thousands of African Americans were lynched in the United States Beyond the horrific violence inflicted on these individuals lynching terrorized whole communities and became a defining characteristic of Southern race relations in the Jim Crow era As spectacle lynching was intended to serve as a symbol of white supremacy Yet Jonathan Markovitz notes the act's symbolic power has endured long after the practice of lynching has largely faded away *Legacies of Lynching* examines the evolution of lynching as a symbol of racial hatred and a metaphor for race relations in popular culture art literature and political speech Markovitz credits the efforts of the antilynching movement with helping to ensure that lynching would be understood not as a method of punishment for black rapists but as a terrorist practice that provided stark evidence of the brutality of Southern racism and as America's most vivid symbol of racial oppression Cinematic representations of lynching from *Birth of a Nation* to *Do the Right Thing* he contends further transform the ways that American audiences remember and understand lynching as have disturbing recent cases in which alleged or actual acts of racial violence reconfigured stereotypes of black criminality Markovitz further reveals how lynching imagery has been

politicized in contemporary society with the example of Clarence Thomas who condemned the Senate's investigation into allegations of sexual harassment during his Supreme Court confirmation hearings as a high tech lynching. Even today, as revealed by the 1998 dragging death of James Byrd in Jasper, Texas, and the national soul searching it precipitated, lynching continues to pervade America's collective memory. Markovitz concludes with an analysis of debates about a recent exhibition of photographs of lynchings suggesting again how lynching as metaphor remains always in the background of our national discussions of race and racial relations. Jonathan Markovitz is a lecturer in sociology at the University of California, San Diego.

Radical History Review: Volume 52 Barbara Smith, 1992-11-12 This is volume 52 of the Radical History Review series. It deals specifically with new directions in gender history and the history of sexuality.

More Than Our Pain Beth Hinderliter, Steve Peraza, 2021-04-01 Confronted by a crisis in black American leadership, state-sanctioned violence against black communities, and colorblind laws that trap black Americans in a racial caste system, Black Lives Matter activists and the artists inspired by them have devised new forms of political and cultural resistance. *More Than Our Pain* explores how affect and emotion can drive collective political and cultural action in the face of a new nadir in race relations in the United States. This foregrounding of affect and emotion marks a clear break from civil rights era activists who were often trained to counter false narratives about protesters as thugs and criminals by presenting themselves as impeccably groomed and disciplined young black Americans. In contrast, the Black Lives Matter movement in the early twenty-first century makes no qualms about rejecting the politics of respectability. Affect and emotion has moved from the margin to the center of this new human rights movement, and by examining righteous rage, black joy, as well as grief and fatigue among other emotions, the contributors celebrate the vitality of black life while documenting those who have harmed it. They also criticize the ways in which journalism has commercialized and sold black affect during coverage of the Black Lives Matter movement and point to strategies and modes of being needed to overcome the fatigue surrounding conversations of race and racism in the United States.

Fractured Modernity Thomas Welskopp, Alan Lessoff, 2016-07-11 The ten essays in this volume deal with the debates and conflicts about modernity in a period of American history when the tensions and strains caused by seemingly unrestrained change and the reactions to it were particularly severe and tangible. Partly concentrating on the margins or dark underworlds of modernity such as racism and violence, partly focusing on the allegedly unlimited space to negotiate and create social order from scratch, the contributions to this volume show that and discuss why modernity was an issue in contemporary United States which seemed to have been even more hotly contested than in Europe at the same time, albeit sometimes in terms of Americanism rather than modernism. In this book, European scholars of the United States apply variations on the transnational discourse on modernity to unexpected dimensions of U.S. history, making this volume a fascinating example of the present-day enterprise of internationalizing American studies.

The Contradictions of American Capital Punishment Franklin E. Zimring, 2004-11-18 Why does the United States continue to employ the death

penalty when fifty other developed democracies have abolished it Why does capital punishment become more problematic each year How can the death penalty conflict be resolved In *The Contradictions of American Capital Punishment* Frank Zimring reveals that the seemingly insoluble turmoil surrounding the death penalty reflects a deep and long standing division in American values a division that he predicts will soon bring about the end of capital punishment in our country On the one hand execution would seem to violate our nation s highest legal principles of fairness and due process It sets us increasingly apart from our allies and indeed is regarded by European nations as a barbaric and particularly egregious form of American exceptionalism On the other hand the death penalty represents a deeply held American belief in violent social justice that sees the hangman as an agent of local control and safeguard of community values Zimring uncovers the most troubling symptom of this attraction to vigilante justice in the lynch mob He shows that the great majority of executions in recent decades have occurred in precisely those Southern states where lynchings were most common a hundred years ago It is this legacy Zimring suggests that constitutes both the distinctive appeal of the death penalty in the United States and one of the most compelling reasons for abolishing it Impeccably researched and engagingly written *Contradictions in American Capital Punishment* casts a clear new light on America s long and troubled embrace of the death penalty

[African Americans Confront Lynching](#) Christopher Waldrep, 2009 This book examines African Americans strategies for resisting white racial violence from the Civil War until the assassination of Martin Luther King Jr in 1968 and up to the Clinton era Christopher Waldrep s semi biographical approach to the pioneers in the anti lynching campaign portrays African Americans as active participants in the effort to end racial violence rather than as passive victims In telling this more than 100 year old story of violence and resistance Waldrep describes how white Americans legitimized racial violence after the Civil War and how black journalists campaigned against the violence by invoking the Constitution and the law as a source of rights He shows how toward the end of the nineteenth century and into the twentieth anti lynching crusaders Ida B Wells and Monroe Work adopted a more sociological approach offering statistics and case studies to thwart white claims that a black propensity for crime justified racial violence Waldrep describes how the NAACP founded in 1909 represented an organized even bureaucratic approach to the fight against lynching Despite these efforts racial violence continued after World War II as racists changed tactics using dynamite more than the rope or the gun Waldrep concludes by showing how modern day hate crimes continue the lynching tradition and how the courts and grass roots groups have continued the tradition of resistance to racial violence A rich selection of documents helps give the story a sense of immediacy Sources include nineteenth century eyewitness accounts of lynching courtroom testimony of Ku Klux Klan victims South Carolina senator Ben Tillman s 1907 defense of lynching and the text of the first federal hate crimes law

The Oxford Encyclopedia of American Social History Lynn Dumenil, 2012-06-07 The Oxford Encyclopedia of American Social History is the first reference work to eschew a narrow focus on past presidents intellectuals military heroes and other exhaustively studied and well remembered persons
