Lyric Poetry Etna:

Lyric Poetry Pietro Bembo, 2005 Pietro Bembo 1470-1547 scholar and critic was one of the most admired Latinists of his day. The poems in this volume come from all periods of his life and reflect both his erudition and his wide-ranging friendships. This volume also includes the prose dialogue *Etna*, an account of Bembo's ascent of Mt Etna in Sicily during his student days.

Lyrical Poetry of the Nineteenth Century Sir Herbert John Clifford Grierson, 1928 Lyrical Poetry from Blake to Hardy Sir Herbert John Clifford Grierson, 1928 Multilingual Texts and Practices in Early Modern Europe Peter Auger, Sheldon Brammell, 2023-02-15 This collection offers a cross-disciplinary exploration of the ways in which multilingual practices were embedded in early modern European literary culture, opening up a dynamic dialogue between contemporary multilingual practices and scholarly work on early modern history and literature. The nine chapters draw on translation studies, literary history, transnational literatures, and contemporary sociolinguistic research to explore how multilingual practices manifested themselves across different social, cultural, and institutional spaces. The exploration of a diverse range of contexts allows for the opportunity to engage with questions around how individual practices shape national and transnational language practices and literatures, the impact of multilingual practices on identity formation, and their implications for creative innovations in bilingual and multilingual texts. Taken as a whole, the collection paves the way for future conversations on what early modern literary studies and present-day multilingualism research might learn from one another and the extent to which historical texts might supply precedents for contemporary multilingual practices. This book will be of particular interest to students and scholars in sociolinguistics, early modern studies in history and literature, and comparative literature. **The Endless Periphery** Stephen J. Campbell, 2019-11-26 While the masterpieces of the Italian Renaissance are usually associated with Italy's historical seats of power, some of the era's most characteristic works are to be found in places other than Florence, Rome, and Venice. They are the product of the diversity of regions and cultures that makes up the country. In *Endless Periphery*, Stephen J. Campbell examines a range of iconic works in order to unlock a rich series of local references in Renaissance art that include regional rulers, patron saints, and miracles, demonstrating, for example, that the works of Titian spoke to beholders differently in Naples, Brescia, or Milan than in his native Venice. More than a series of regional microhistories, *Endless Periphery* tracks the geographic mobility of Italian Renaissance art and artists, revealing a series of exchanges between artists and their patrons, as well as the power dynamics that fueled these exchanges. A counter-history of one of the greatest epochs of art production, this richly illustrated book will bring new insight to our understanding of classic works of Italian art. *The Atlantic Companion to Literature in English* Ed. Glodzik,2023-01-16 In this work Jeffrey Glodzik argues that Vergil played a central role in the prevailing discourse of Renaissance Rome Roman humanists associated with the papacy employed the language of Vergil to express a vision for Rome and its divinely ordained destiny Using the transformation methodology allelopoiesis he shows that in their neo Latin

works Roman humanists focused on a Christian interpretation of the fourth eclogue to highlight an incipient Golden Age ignored pessimistic readings of the Aeneid to emphasize the glories of a renewed imperium and encapsulated Vergil's words to celebrate papal Rome's unquestionable destiny Ultimately Glodzik demonstrates that the interpretation and application of Vergil were not uniform throughout Europe Vergil was instead shaped to fit the concerns of papal Rome

Cartographic Humanism Katharina N. Piechocki, 2021-09-13 Piechocki calls for an examination of the idea of Europe as a geographical concept tracing its development in the 15th and 16th centuries What is Europe and when did it come to be In the Renaissance the term Europe circulated widely But as Katharina N Piechocki argues in this compelling book the continent itself was only in the making in the fifteenth and sixteenth centuries Cartographic Humanism sheds new light on how humanists negotiated and defined Europe's boundaries at a momentous shift in the continent's formation when a new imagining of Europe was driven by the rise of cartography As Piechocki shows this tool of geography philosophy and philology was used not only to represent but more importantly also to shape and promote an image of Europe quite unparalleled in previous centuries Engaging with poets historians and mapmakers Piechocki resists an easy categorization of the continent scrutinizing Europe as an unexamined category that demands a much more careful and nuanced investigation than scholars of early modernity have hitherto undertaken Unprecedented in its geographic scope Cartographic Humanism is the first book to chart new itineraries across Europe as it brings France Germany Italy Poland and Portugal into a lively interdisciplinary dialogue
