Lyrical Left:

The Lyrical Left Edward Abrahams, 1986 *Encyclopedia of the Harlem Renaissance* Cary D. Wintz, Paul Finkelman, 2012-12-06 From the music of Louis Armstrong to the portraits by Beauford Delaney the writings of Langston Hughes to the debut of the musical *Show Boat* the Harlem Renaissance is one of the most significant developments in African American history in the twentieth century The *Encyclopedia of the Harlem Renaissance* in two volumes and over 635 entries is the first comprehensive compilation of information on all aspects of this creative dynamic period For a full list of entries contributors and more visit the *Encyclopedia of Harlem Renaissance* website **New Left Revisited** John Campbell McMillian, Paul Buhle, 2008 Starting with the premise that it is possible to say something significantly new about the 1960s and the New Left the contributors to this volume trace the social roots the various paths and the legacies of the movement that set out to change America As members of a younger generation of scholars none of them apart from Paul Buhle has first hand knowledge of the era Their perspective as non participants enables them to offer fresh interpretations of the regional and ideological differences that have been obscured in the standard histories and memoirs of the period Reflecting the diversity of goals the clashes of opinions and the tumult of the time these essays will engage seasoned scholars as well as students of the 60s **Martyrs of the Early American Left** Robert C. Cottrell, 2023-04-17 Intertwining the stories of three leading early twentieth century radical Americans this book presents the enthralling tale of the too short lives of Inez Milholland Randolph Bourne and John Reed It highlights the movements and personal experiences that drew such privileged individuals to the American left willing to sacrifice comfortable circumstances and opportunities As writers and activists the trio became leading spokespersons for feminism sexual liberation unions civil liberties pacifism internationalism socialism anarchism and in Reed's case communism Challenging capitalism patriarchy and the nation state the independently minded Milholland Bourne and Reed possessed a twofold commitment to personal liberation and community With their early deaths they left behind personal models for acting living and thinking afresh One could say they became martyrs to the very movements they championed **Learning from the Left** Julia L. Mickenberg, 2006 Publisher Description **Left of the Color Line** Bill V. Mullen, James Smethurst, 2012-01-01 This collection of fifteen new essays explores the impact of the organized Left and Leftist theory on American literature and culture from the 1920s to the present In particular the contributors explore the participation of writers and intellectuals on the Left in the development of African American Chicano Chicana and Asian American literature and culture By placing the Left at the center of their examination the authors reposition the interpretive framework of American cultural studies Tracing the development of the Left over the course of the last century the essays connect the Old Left of the pre World War II era to the New Left and Third World nationalist Left of the 1960s and 1970s as well as to the multicultural Left that has emerged since the 1970s Individual essays explore the Left in relation to the work of such key figures as Ralph Ellison T S Eliot Chester Himes Harry Belafonte Amrico Paredes and

Alice Childress The collection also reconsiders the role of the Left in such critical cultural and historical moments as the Harlem Renaissance the Cold War and the Black Arts Movement of the 1960s and 1970s The contributors are Anthony Dawahare Barbara Foley Marcial Gonz lez Fred Ho William J Maxwell Bill V Mullen Cary Nelson B V Olgu n Rachel Rubin Eric Schocket James Smethurst Michelle Stephens Alan Wald and Mary Helen Washington

Why America Needs a Left Eli Zaretsky, 2013-04-26 The United States today cries out for a robust self respecting intellectually sophisticated left yet the very idea of a left appears to have been discredited In this brilliant new book Eli Zaretsky rethinks the idea by examining three key moments in American history the Civil War the New Deal and the range of New Left movements in the 1960s and after including the civil rights movement the women s movement and gay liberation In each period he argues the active involvement of the left especially its critical interaction with mainstream liberalism proved indispensable American liberalism as represented by the Democratic Party is necessarily spineless and ineffective without a left Correspondingly without a strong liberal center the left becomes sectarian authoritarian and worse Written in an accessible way for the general reader and the undergraduate student this book provides a fresh perspective on American politics and political history It has often been said that the idea of a left originated in the French Revolution and is distinctively European Zaretsky argues by contrast that America has always had a vibrant and powerful left And he shows that in those critical moments when the country returns to itself it is on its left liberal bases that it comes to feel most at home

The Palgrave Handbook of Left-Wing Extremism, Volume 2 José Pedro Zúquete, 2023-09-21 This handbook provides a broad overview of left wing extremism and its associated key issues and themes It breaks new ground by assembling a comparative analysis of the phenomenon that is both multidimensional and multidisciplinary Gathering a wide range of influential scholars who have worked at length in the field of extremism studies from different perspectives backgrounds and geographical settings the Palgrave Handbook of Left Wing Extremism presents an array of thought provoking and innovative as well as informative analyses and discussions both historical and contemporary about the phenomenon of left wing extremism and of how researchers conceive of and approach it in their study The Handbook is designed to be for the foreseeable future the reference work for all students researchers and general readers interested in achieving a comprehensive understanding of left wing extremism in all its manifestations subtleties and dynamics and both its current and its potential directions

Left in Dark Times Bernard-Henri Lévy, 2009-10-13 In this unprecedented critique Bernard Henri L vy revisits his political roots scrutinizes the totalitarianisms of the past as well as those on the horizon and argues powerfully for a new political and moral vision for our times Are human rights Western or universal Does anti-Semitism have a future and if so what will it look like And how is it that progressives themselves those who in the past defended individual rights and fought fascism have now become the breeding ground for new kinds of dangerous attitudes an unthinking loathing of Israel an obsessive anti-Americanism an idea of tolerance that in its justification of Islamic fanaticism for example could become the cemetery of democracies and an indifference masked by

relativism to the greatest human tragedies facing the world today At a time of ideological and political transition in America Left in Dark Times articulates the threats we all face in many cases without our even being aware of it and offers a powerful new vision for progressives everywhere

The Religious Left in Modern America Leilah Danielson, Marian Mollin, Doug Rossinow, 2018-05-15 This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left The volume covers a diversity of perspectives including Protestant Catholic and Jewish history and important essays on African American Latino and women s spirituality Taken together these essays offer a comparative and long term perspective on religious groups and social movements often studied in isolation and fully integrate faith based action into the history of progressive social movements and politics in the modern United States It becomes clear that throughout the twentieth century religious faith has served as a powerful motivator and generator for activism not just as on the right where observers regularly link religion and politics but on the left This volume will appeal to historians of modern American politics religion and social movements religious studies scholars and contemporary activists

Robert Cantwell and the Literary Left T. V. Reed, 2014-06-01 Robert Cantwell and the Literary Left is the first full critical study of novelist and critic Robert Cantwell a Northwest born writer with a strong sense of social justice who found himself at the center of the radical literary and cultural politics of 1930s New York Regarded by F Scott Fitzgerald and Ernest Hemingway as one of the finest young fiction writers to emerge from this era Cantwell is best known for his superb novel The Land of Plenty set in western Washington His literary legacy however was largely lost during the Red Scare of the McCarthy era when he retreated to conservatism Through meticulous research an engaging writing style and a deep commitment to the history of American social movements T V Reed uncovers the story of a writer who brought his Pacific Northwest brand of justice to bear on the project of reworking American literature to include ordinary working people in its narratives In tracing the flourishing of the American literary Left as it unfolded in New York Reed reveals a rich progressive culture that can inform our own time

A Foreign Policy for the Left Michael Walzer, 2018-01-01 Something that has been needed for decades a leftist foreign policy with a clear moral basis Foreign policy for leftists used to be relatively simple They were for the breakdown of capitalism and its replacement with a centrally planned economy They were for the workers against the moneyed interests and for colonized peoples against imperial Western powers But these easy substitutes for thought are becoming increasingly difficult Neo liberal capitalism is triumphant and the workers movement is in radical decline National liberation movements have produced new oppressions A reflexive anti imperialist politics can turn leftists into apologists for morally abhorrent groups In Michael Walzer s view the left can no longer in fact could never take automatic positions but must proceed from clearly articulated moral principles In this book adapted from essays published in Dissent Walzer asks how leftists should think about the international scene about humanitarian intervention and world government about global inequality and religious extremism in light of a coherent set of underlying political values

Remapping the History of Catholicism in the United States David J. Endres, 2017 For more than thirty years the quarterly journal *U S Catholic* historian has mapped the diverse terrain of American Catholicism This collection of essays including seven of the most popular and path breaking contributions of recent years tells the story of Catholics previously underappreciated by historians women African Americans Latinos Asian Americans and those on the frontier and borderlands Publisher description

All-American Rebels Robert C. Cottrell, 2020-08-08 From women s suffrage to Civil Rights for African Americans to the environment and the gay and lesbian liberation movement the American Left has achieved notable successes in the 20th and 21st centuries Sometimes celebrated and sometimes reviled the Left has taken on many forms and reinvented itself many times over the past century In *All American Rebels* historian Robert C Cottrell traces the rise and fall ebb and flow of left wing American movements Following an overview of early 20th century movements Cottrell focuses on the 1960s to today offering readers a concise introduction and helping them to understand the political and ideological roots of the Left today Cottrell includes chapters on the most recent versions of the American left discussing community organizing gay liberation the women s movement the Campaign for Economic Democracy the nuclear freeze movement opposition to U S intervention in Central America the anti WTO campaign Code Pink Occupy Wall Street Black Lives Matter Antifa and more The demand for and support of democracy and the quest for empowerment in various guises unifies these different lefts to one another and to the general unfolding of American history Cottrell argues that democratic engagement has proven inconsistent and at times outright contradictory The Left has been most successful when it fully embraces a democratic vision

Messiah of the New Technique Jonathan L. Chambers, 2006

Digital Rebellion Todd Wolfson, 2014-11-30 *Digital Rebellion* examines the impact of new media and communication technologies on the spatial strategic and organizational fabric of social movements Todd Wolfson reveals how aspects of the mid 1990s Zapatistas movement network organizational structure participatory democratic governance and the use of communication tools as a binding agent became essential parts of Indymedia and other Cyber Left organizations From there he uses oral interviews and other rich ethnographic data to chart the media based think tanks and experiments that continued the Cyber Left s evolution through the Independent Media Center s birth around the 1999 WTO protests in Seattle Melding virtual and traditional ethnographic practice to explore the Cyber Left s cultural logic Wolfson maps the social spatial and communicative structure of the Indymedia network and details its operations on the local national and global level He looks at the participatory democracy that governs global social movements and the ways democracy and decentralization have come into tension and how the switchboard of struggle conducts stories from the hyper local and disperses them worldwide As he shows understanding the intersection of Indymedia and the Global Social Justice Movement illuminates their foundational role in the Occupy struggle and other emergent movements that have re energized radical politics

Generations of Social Movements Hélène Le Dantec Lowry, 2015-11-17 French political culture has long been seen as a model of leftist militancy while the left in the

United States is often perceived in terms of organizational discontinuity Yet the crisis of social democracy today suggests that at a time when the archetypal European welfare state is in danger critics and citizens interested in understanding or reviving progressive politics are invited to consider the United States where modes of creative activism recurrently demonstrate potentialities for a renewed leftist culture Using a transatlantic perspective this volume identifies activist influence through the designation or rejection of specific intellectual and militant figures across generations and it examines various narrative modes used by militants to write their own history

Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

Whiteshift Eric Kaufmann, 2019-02-05 This ambitious and provocative work delves into white anxiety about the demographic decline of white populations in Western nations Publishers Weekly Whiteshift is defined as the turbulent journey from a world of racially homogeneous white majorities to one of racially hybrid majorities In this data driven study political scientist Eric Kaufmann explores how these demographic changes across Western societies are transforming their politics The early stages of this transformation have led to a populist disruption tearing a path through the usual politics of left and right If we want to avoid more radical political divisions Kaufmann argues we have to enable white conservatives as well as cosmopolitans to view whiteshift as a positive development Kaufmann examines the evidence to explore ethnic change in North American and Western Europe Tracing four ways of dealing with this transformation fight repress flight and join he makes a persuasive call to move beyond empty talk about national identity Deeply thought provoking enriched with illustrative stories and drawing on detailed and extraordinary survey demographic and electoral data Whiteshift will redefine the way we discuss race in the twenty first century

American Catholic Pacifism Anne Klejment, 1996-11-25 This collection of mostly original essays by scholars and Catholic Worker activists provides a systematic analytical study of the emergence and nature of pacifism in the largest single denomination in the United States Roman Catholicism The collection underscores the pivotal role of Dorothy Day's Catholic Worker movement in challenging the conventional understanding of just war principles and the American Catholic Church's identification with uncritical militarism Also included are a study of Dorothy Day's preconversion pacifism previously unpublished letters from Dorothy Day to Thomas Merton Eileen Egan's account of the birth and early years of Pax the Catholic Worker inspired peace organization and in depth coverage of how the contemporary Plowshares movement

emerged from the Catholic Worker movement

Whispering the Techniques of Language: An Mental Quest through **Lyrical Left**

In a digitally-driven earth where screens reign great and quick transmission drowns out the subtleties of language, the profound strategies and emotional nuances concealed within words usually go unheard. Yet, situated within the pages of **Lyrical Left** a captivating literary treasure blinking with raw emotions, lies an exceptional journey waiting to be undertaken. Penned by an experienced wordsmith, that wonderful opus attracts visitors on an introspective trip, softly unraveling the veiled truths and profound affect resonating within the very fabric of each and every word. Within the emotional depths of the moving evaluation, we can embark upon a honest exploration of the book is key subjects, dissect their interesting writing style, and fail to the powerful resonance it evokes serious within the recesses of readers hearts.
