Reminded by the Instruments You Nakai, Yu Nakai, 2021 David Tudor is remembered today as an extraordinary pianist of post war avant garde music who worked closely with composers like John Cage and Karlheinz Stockhausen and as a founding figure of live electronic music His bold reinterpretation of Cage's *Variations II* and his idiosyncratic performances using homemade modular instruments inspired a whole generation of musicians But his reticence his unorthodox approaches and the diversity of his creative output which began with the organ and ended with visual art have kept Tudor a puzzle *Reminded by the Instruments* sets out to solve the puzzle of David Tudor by applying Tudor's own methods for approaching the materials of others to the vast archive of materials that he himself left behind Author You Nakai deftly patches together instruments electronic circuits sketches diagrams recordings letters receipts customs declaration forms and testimonies like modular pieces of a giant puzzle to reveal a new perspective on Tudor's creative process Rejecting the established narrative of Tudor as a performer turned composer this book presents a lively portrait of an artist whose work always merged both of these roles In reading Tudor's electronic devices as musicological texts and examining his dissection of electronic circuits Nakai transcends discourses on sound and illuminates our understanding of the instruments behind the sounds in post war experimental music *Poetry on & Off the Page* Marjorie Perloff, 1998 The fourteen essays that make up this collection have as their common theme a reconsideration of the role historical and cultural change has played in the evolution of twentieth century poetry and poetics Committed to the notion that in John Ashbery's words You can't say it that way anymore *Poetry On Off the Page* describes the formations and transformations of literary and artistic discourses and traces these discourses as they have evolved in their dialogue with history culture and society The volume is testimony to the important role that contemporary artistic practice will continue to play as we move into the twenty first century **Doing Digital Humanities** Constance Crompton, Richard Lane, Ray Siemens, 2016-09-13 *Digital Humanities* is rapidly evolving as a significant approach to method of teaching learning and research across the humanities This is a first stop book for people interested in getting to grips with digital humanities whether as a student or a professor The book offers a practical guide to the area as well as offering reflection on the main objectives and processes including Accessible introductions of the basics of Digital Humanities through to more complex ideas A wide range of topics from feminist Digital Humanities digital journal publishing gaming text encoding project management and pedagogy Contextualised case studies Resources for starting Digital Humanities such as links training materials and exercises *Doing Digital Humanities* looks at the practicalities of how digital

Gillott, 2020-12-10 How do readers approach the enigmatic and unnavigable modernist long poem Taking as the form's exemplars the highly influential but critically contentious poetries of John Cage and Charles Olson this book considers indeterminacy the fundamental feature of the long poem by way of its analogues in musicology mycology cybernetics and philosophy It addresses features of these works that figure broadly in the long poem tradition such as listing typography archives mediation and mereology while articulating how both poets broke with the longform poetic traditions of the early 1900s Brendan C. John Cage Marjorie Perloff, Charles Junkerman, 1994-08 John Cage Composed in America is the first book length work to address the other John Cage a revisionist treatment of the way Cage himself has composed and been composed in America Cage as these original essays testify is a contradictory figure A disciple of Duchamp and Schoenberg Satie and Joyce he created compositions that undercut some of these artists' central principles and then attributed his own compositional theories to their tradition An American in the Emerson Thoreau mold he paradoxically won his biggest audience in Europe A freewheeling Californian artist Cage was committed to a severe work ethic and a firm discipline especially the discipline of Zen Buddhism

The Ashgate Research Companion to Experimental Music James Saunders, 2017-02-03 The recent resurgence of experimental music has given rise to a more divergent range of practices than has previously been the case The Ashgate Research Companion to Experimental Music reflects these recent developments by providing examples of current thinking and presenting detailed case studies that document the work of contemporary figures The book examines fourteen current

Heiner Goebbels and Curatorial Composing after Cage Ed McKeon, 2022-11-24 This Element introduces the notion of curatorial composing to account for certain musical practices that emerged from the 1960s as the founding concepts of music as an art instituted in the modern era were systematically dismantled It raises the key question of how musical value and authority might be produced without recourse to an external principle origin transcendental framework or other foundation It argues that these practices do not dismiss the issue of value or simply relativise it but shift the paradigm to a curatorial concern for composing public encounters and staging events The Element shows that Lydia Goehr's elaboration of the work concept provides a framework that was transformed by John Cage in his work from 0 00 1962 onwards The Element then introduces Heiner Goebbels practice and focus on his role as Artistic Director of the Ruhrtriennale 2012 14 which it argues was an extension of his curatorial composing Corita Kent and the Language of Pop Susan Dackerman, 2015-01-01 Exhibition catalog published in conjunction with the exhibition held at the Harvard Art Museums Cambridge Massachusetts September 3 2015 January 3 2016 and at the San Antonio Museum of Art San Antonio Texas February 13 May 8 2016

Poetry as Re-Reading Ming-Qian Ma, 2008-08-20 Grounded in a detailed and compelling account of the philosophy guiding such a project Ma's book traces a continuity of thought and practice through the very different poetic work of objectivists Louis Zukofsky George Oppen Carl Rakosi and John Cage and language poets Susan Howe Lyn Hejinian Bruce Andrews and Charles Bernstein His deft individual readings provide an opening into this notoriously difficult work even as his larger critique reveals a new and clarifying perspective on American modernist and post modernist avant garde poetics Ma shows how we cannot understand these poets according to the usual way of reading but must see how they deliberately use redundancy unpredictability and irrationality to undermine the meaning oriented foundations of American modernism
