Mably Pour Une Utopie Du Bon Sens

De Cock Jacques

Mably Pour Une Utopie Du Bon Sens:

A Classical Republican in Eighteenth-Century France Johnson Kent Wright, 1997-06-01 This is an intellectual biography of Gabriel Bonnot de Mably 1709-85 who emerges as a central figure in the history of republican thought in the era of the Enlightenment and the French Revolution This book has two related aims The first is to fill an important gap in historical scholarship Although Mably whose career as a historian and political theorist stretched from 1740 to the eve of the French Revolution clearly played a major role in the intellectual history of his era there has been no study of his life and thought in English for nearly seventy years At the same time the book seeks to advance a novel interpretation of Mably's thought He has most often been portrayed in two sharply contrasted ways either as one of a handful of utopian communists and a precursor of nineteenth century socialism or as a deeply conservative enemy of the Enlightenment This study sets forth a different reading of Mably's thought one that shows him to be a classical republican in the sense this term has acquired in recent years for students of early modern political thought Mably was the author of the most comprehensive and influential body of republican thought produced in eighteenth century France a claim with implications that go beyond the merely biographical These are explored in a final chapter which draws some conclusions about the character of classical republicanism in France and about the French contribution to the republican tradition in Europe

Mably Brigitte Coste, 1975 **Inventing the French Revolution** Keith Michael Baker, 1990-01-26 How did the French Revolution become thinkable Keith Michael Baker a leading authority on the ideological origins of the French Revolution explores this question in his wide ranging collection of essays Analyzing the new politics of contestation that transformed the traditional political culture of the Old Regime during its last decades Baker revises our historical map of the political space in which the French Revolution took form Some essays study the ways in which the revolutionaries break with the past was prepared by competition between agents and critics of absolute monarchy to control the cultural resources and political meanings of French history by the contending political vocabularies in which the French sought before 1789 to reconstitute their body politic and by the invention of public opinion as a new form of political authority displacing absolute rule Others trace to the conceptual improvisation of revolutionary notions of representation constitution sovereignty and of the French Revolution itself the ambiguities tensions and contradictions that were to drive the revolutionary dynamic in subsequent years The result is a substantial and unified set of studies stimulating renewed reflection on one of the central themes in modern European history

L'anarchie de Mably à Proudhon, 1750-1850 Marc Deleplace, 2000 Plus qu'une nouvelle histoire de l'anarchisme comme le montre une chronologie inhabituelle pour un tel sujet l'auteur nous invite à suivre le processus contradictoire de l'entrée en politique du concept d'Anarchie depuis les premières interrogations de Mably sur l'identification de l'ordre naturel l'anarchie jusqu'à la revendication de celle-ci par Proudhon Histoire fortement politique et qui chemin faisant conduit à mettre en lumière un moment généralement négligé de l'historiographie révolutionnaire comme de l'histoire de l'anarchisme

celui de la Convention thermidorienne et du Directoire Parcours méthodologique original galement nourri des apports de l'histoire des mentalités de l'histoire des idées et de l'analyse du discours et qui cherche renouveler la manière de poser le discours comme objet d'histoire sociale Le Concept de liberté au Canada à l'époque des Révolutions atlantiques (1776-1838) Michel Ducharme, 2009-12-01 Cet ouvrage revisite l'histoire intellectuelle et politique canadienne entre la révolution américaine et les rébellions de 1837-1838 au Haut et au Bas Canada en la reliant dans le cadre des Révolutions atlantiques qui ont secoué l'Europe et l'Amérique entre 1776 et 1838 Reposant sur un cadre théorique inspiré des travaux des historiens intellectuels du monde atlantique il traite plus particulièrement de l'importance du concept de liberté dans le développement de l'état dans les deux colonies Il démontre que ces dernières se sont développées dès 1791 en suivant un idéal de liberté qui tout en étant différent de la liberté l'œuvre au sein des mouvements révolutionnaires de la fin du XVIIIe siècle n'en était pas moins issu des Lumières Il présente également les rébellions de 1837-1838 comme tant en partie le résultat d'un affrontement entre deux concepts très différents de liberté *The Economic Turn* Steven Kaplan, Sophus Reinert, 2019-01-16 The mid eighteenth century witnessed what might be dubbed an economic turn that resolutely changed the trajectory of world history The discipline of economics itself emerged amidst this turn and it is frequently traced back to the work of François Quesnay and his school of Physiocracy Though lionized by the subsequent historiography of economics the theoretical postulates and policy consequences of Physiocracy were disastrous at the time resulting in a veritable subsistence trauma in France This galvanized relentless and diverse critiques of the doctrine not only in France but also throughout the European world that have hitherto been largely neglected by scholars Though Physiocracy was an integral part of the economic turn it was rapidly overcome both theoretically and practically with durable and important consequences for the history of political economy The Economic Turn brings together some of the leading historians of that moment to fundamentally recast our understanding of the origins and diverse natures of political economy in the Enlightenment *Ethics of Catholicism and the Consecration of the Intellectual* André J. Bélanger, 1997-01-06 Using France as the most representative case of a Catholic context Bélanger argues that as French society became more secularized intellectuals replaced the clergy as arbitrators of justice and enlightenment Catholic morality was consolidated by the scholastic tradition and confirmed by the Counter Reformation providing the foundation that allowed the establishment of a lay elite Bélanger describes the progressive takeover of positions of influence by the new elite in Catholic society and examines arguments used by thinkers from the seventeenth to the twentieth century to legitimize their positions In contrast the Anglo Saxon Protestant tradition due to its emphasis on the priesthood of all believers led to recognition of the individual's conscience as the sole judge of her or his deeds and failed to provide intellectuals with the basis for any claim to serve as moral leaders in political affairs Straddling a variety of disciplines this study will be of interest to students of political science sociology philosophy and history **Athens on Trial** Jennifer T. Roberts, 2011-10-23 The Classical Athenians were the first to articulate and implement the notion that

ordinary citizens of no particular affluence or education could make responsible political decisions For this reason reactions to Athenian democracy have long provided a prime Rorschach test for political thought Whether praising Athens's government as the legitimizing ancestor of modern democracies or condemning it as mob rule commentators throughout history have revealed much about their own notions of politics and society In this book Jennifer Roberts charts responses to Athenian democracy from Athens itself through the twentieth century exploring a debate that touches upon historiography ethics political science anthropology sociology philosophy gender studies and educational theory **The Cambridge**

History of Eighteenth-Century Political Thought Mark Goldie, Robert Wokler, 2006-08-31 Publisher description **Die Politische Philosophie des Gabriel Bonnot de Mably (1709-1785)** Peter Friedemann, 2014 **Trésors des bibliothèques de Lorraine**, 1997-12-31 T23:00:00+01:00 Un panorama des plus beaux documents des bibliothèques de Lorraine des manuscrits du XVIIIe siècle aux ouvrages de bibliophilie contemporaine qui illustrent l'histoire des bibliothèques et du livre Copyright Electre **The Idea of Liberty in Canada during the Age of Atlantic Revolutions, 1776-1838**

Michel Ducharme, 2014-09-01 In *Idea of Liberty in Canada during the Age of Atlantic Revolutions 1776-1838* Michel Ducharme shows that Canadian intellectual and political history between the American Revolution and the Upper and Lower Canada rebellions of 1837-38 can be better understood by considering it in relation to the broad framework of revolution in the Atlantic world between 1776 and 1838 Inspired by intellectual histories of the Atlantic world Ducharme goes beyond the scholarly focus on Atlantic republicanism to present the rebellions of 1837-38 as a confrontation between two very different concepts of liberty He uses these concepts as lenses through which to read colonial ideological conflict Ducharme traces political discourse in both colonies showing how the differing fates and influence of republican and constitutional notions of liberty affected state development He also pursues a number of important revisionist historical claims including the idea that nationalist politics were not at issue in the period and that responsible government was never a Patriote party platform or interest Taking a wider view allows Ducharme to provide a solid understanding of the ideological substance of political conflict and shows that starting in 1791 Canadian colonial political culture revolved around an ideal of liberty that differed from the liberty at work within the revolutionary movements of the late eighteenth century but was nonetheless born of the Enlightenment [Inventing Human Science](#) Christopher Fox, Roy Porter, Robert Wokler, 2023-11-15 The human sciences

including psychology anthropology and social theory are widely held to have been born during the eighteenth century This first full length English language study of the Enlightenment sciences of humans explores the sources context and effects of this major intellectual development The book argues that the most fundamental inspiration for the Enlightenment was the scientific revolution of the seventeenth century Natural philosophers from Copernicus to Newton had created a magisterial science of nature based on the realization that the physical world operated according to orderly discoverable laws Eighteenth century thinkers sought to cap this achievement with a science of human nature Belief in the existence of laws governing

human will and emotion social change and politics economics and medicine suffused the writings of such disparate figures as Hume Kant and Adam Smith and formed the basis of the new sciences A work of remarkable cross disciplinary scholarship this volume illuminates the origins of the human sciences and offers a new view of the Enlightenment that highlights the period s subtle social theory awareness of ambiguity and sympathy for historical and cultural difference The human sciences including psychology anthropology and social theory are widely held to have been born during the eighteenth century This first full length English language study of the Enlightenment sciences of humans explores the sources context
