**CALL** P.N.D. Lewis, 2002-01-01 This volume presents 17 perspectives on CALL and language technology from teachers and researchers connected to the CALL Special Interest Group of the Japan Association for Language Teaching The book aims to shed light on progress in both theoretical and practical areas of CALL *A Stranger Within the Gates* Kathleen

Constable, 2000 Kathleen Constable s ambitious work *A Stranger Within the Gates* investigates fully Bront s Irish heritage

and the way in which it is reflected in her literary endeavours including Jane Eyre and Shirley Constable draws on primary sources to illuminate the relations of Ireland and England then gives a conclusive literary background of the Brontë family. An analysis of both Brontë's juvenile and mature pieces reveals the persistence of Irish characters, Irish nouns and Irish narrative elements that Constable argues point to Brontë's Irish consciousness. The use of mask and theater in Jane Eyre is discussed as an anti-colonial construct within the Victorian novel. Finally, Constable places Jane Eyre in the Big House literary tradition. Together, the four sections of this work aim to connect otherwise separate and unrelated fields of literary study: the Victorian Novel and the Irish experience.

*The Sacred Tree* Carole M. Cusack, 2011-05-25. The fundamental nature of the tree as a symbol for many communities reflects the historical reality that human beings have always interacted with and depended upon trees for their survival. Trees provided one of the earliest forms of shelter along with caves, and the bounty of trees' nuts, fruits, and berries gave sustenance to gatherer-hunter populations. This study has concentrated on the tree as sacred and significant for a particular group of societies living in the ancient and medieval eras in the geographical confines of Europe and sharing a common Indo-European inheritance, but sacred trees are found throughout the world in vastly different cultures and historical periods. Sacred trees feature in the religious frameworks of the Ghanaian Akan, Arctic Altaic shamanic communities, and in China and Japan. The power of the sacred tree as a symbol is derived from the fact that trees function as homologues of both human beings and of the cosmos. This study concentrates on the tree as axis mundi, hub or centre of the world, and the tree as imago mundi, picture of the world. The Greeks and Romans in the ancient world and the Irish Anglo-Saxons, continental Germans and Scandinavians in the medieval world all understood the power of the tree and its derivative, the pillar, as markers of the centre. Sacred trees and pillars dotted their landscapes, and the territory around them derived its meaning from their presence. Unfamiliar or even hostile lands could be tamed and made meaningful by the erection of a monument that replicated the sacred centre. Such monuments also linked with boundaries and, by extension, with law and order, custom and tradition. The sacred tree and pillar as centre symbolized the stability of the cosmos and of society. When the Pagan peoples of Europe adopted Christianity, the sacred trees and pillars, visible signs of the presence of the gods in the landscape, were popular targets for axe-wielding saints and missionaries who desired to force the conversion of the landscape as well as the people. Yet Christianity had its own tree monument, the cross, on which Jesus Christ was crucified, and which came to signify resurrected life and the conquest of eternal death for the devout. As European Pagans were converted to Christianity, their tree and pillar monuments were changed into Christian forms: the great standing crosses of Anglo-Saxon northern England played many of the same roles as Pagan sacred trees and pillars. Irish and Anglo-Saxons often combined the image of the Tree of Life from the Garden of Eden with Christ on the cross to produce a Christian version of the tree as imago mundi.

**Women, Writing, and Language in Early Modern Ireland** Marie-Louise Coolahan, 2010-01-28. This book examines writing in English, Irish, and Spanish by women living in Ireland and by Irish women

living on the continent between the years 1574 and 1676 This was a tumultuous period of political religious and linguistic contestation that encompassed the key power struggles of early modern Ireland This study brings to light the ways in which women contributed they strove to be heard and to make sense of their situations forging space for their voices in complex ways and engaging with native and new language traditions The book investigates the genres in which women wrote poetry nuns writing petition letters depositions biography and autobiography It argues for a complex understanding of authorial agency that centres of the act of creating or composing a text which does not necessarily equate with the physical act of writing The Irish English and European contexts for women's production of texts are identified and assessed The literary traditions and languages of the different communities living on the island are juxtaposed in order to show how identities were shaped and defined in relation to each other Marie Louise Coolahan elucidates the social political and economic imperatives for women's writing examines the ways in which women characterized female composition and describes an extensive range of cross cultural multilingual activity
