G. McGee,Ginny Sullivan,1997 The great processes reshaping our world today can be summed up by the term globalisation Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space It is illustrated by technological change pronounced economic growth the dominance of giant corporations ever more open markets and universal consumption Dramatic developments have occurred in Asia Pacific trade investment labour movements and political cooperation marked for example by APEC a giant free trade area designed to encompass about 60% of the world's population and half the world's economy But the processes also create social tension political reaction and local resistance as a result of regional restructuring widening regional disparities the neglect of backward areas or imposed modernisation Asia Pacific New Geographies of the Pacific Rim written by leading scholars from the region examines the extent to which Pacific Rim economies especially East Asia and Southeast Asia are increasingly integrated and considers the economic political and cultural forces at work In the process many new geographies are being created or reconstructed At the same time the local global dialectic whereby local forces react to negotiate with resist or capitulate to global forces is examined Part I analyses globalisation and the emergence of sub global regions Part II the processes of change in Asia Pacific and Part III the national responses to globalisation Part IV addresses local reactions to global forces resistance negotiations or capitulation Finally the editors enumerate the challenges to the region which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants For the time being these forces seem to be in the ascendant **Innovation in the Asia Pacific** Thomas Clarke,Keun Lee,2017-10-20 This book promotes the creation of advanced knowledge based economies driven by innovation networks and the continuous development of human capital and capability It provides valuable insights into the growing emergence of knowledge based industries of the Asia Pacific and highlights research on modes of creativity and innovation intellectual property the components of national innovation systems such as firms education and training knowledge and technical infrastructure and public policy The Asia Pacific region is currently in the process of transforming from being the manufacturing centre of the global economy to a centre of

innovation for the knowledge economy with the successful IPO of Alibaba in 2014 being a prime example of this shift From a neo Schumpeterian perspective the region is increasingly engaged in shortening and intensifying cycles of innovation The historic agreement at the Beijing APEC meeting between China and the US to radically reduce carbon emissions indicates that one imperative of this innovation is to contribute to sustainability The fact that the US Government is moving away from this historic commitment while the Chinese Government is endorsing the commitment indicates an emerging opportunity for Asia to lead the world technologically in a vital industrial sector of the future **Business America** ,1990
