Contemporary Security Analysis and Copenhagen Peace Research Stefano Guzzini,Dietrich Jung,2003-12-25 This book examines the development of peace research and explores its present challenges focusing on the contribution made by the Copenhagen Peace Research Institute The authors investigate how peace research relates to security studies and international relations providing a comprehensive study of conceptual innovations and a discussion of secu

The Evolution of International Security Studies Barry Buzan,Lene Hansen,2009-08-27 International Security Studies ISS has changed and diversified in many ways since 1945 This book provides the first intellectual history of the development of the subject in that period It explains how ISS evolved from an initial concern with the strategic consequences of superpower rivalry and nuclear weapons to its current diversity in which environmental economic human and other securities sit alongside military security and in which approaches ranging from traditional Realist analysis to Feminism and Post colonialism are in play It sets out the driving forces that shaped debates in ISS shows what makes ISS a single conversation across its diversity and gives an authoritative account of debates on all the main topics within ISS This is an unparalleled survey of the literature and institutions of ISS that will be an invaluable guide for all students and scholars of ISS whether traditionalist new agenda or critical

Understanding Emerging Security Challenges Ashok Swain,2013 This book offers an overview of emerging security challenges in the global environment in the post Cold War era After the fall of the Berlin Wall and the subsequent shifting of international political environment a new broader concept of security began to gain acceptance This concept encompassed socio economic environmental challenges such as resource scarcity and climate change water sharing issues deforestation and forest protection measures food and health security and large population migration The book examines the causes and consequences of these emerging security threats and retains a critical focus on evolving approaches to address these issues The author attempts to develop a framework for sustainable security in a rapidly changing global political landscape which seeks to bring states and societies together in a way that addresses weaknesses of the evolving international system Moreover through a detailed analysis of the emerging security issues and their pathways the book further argues that the evolving processes not only pose critical challenges but also provide remarkable opportunity for cooperation and collaboration among and within various stakeholders This book will be of much interest to students of global security war and conflict studies peace studies and IR in general

State Security and Regime Security Y. Hong,1999-10-11 This book examines the interaction between state security and regime security in South Korea in the period 1953-60 under the leadership of President Syngman Rhee

Global Resources and International Conflict Stockholm International Peace Research Institute,1986 This study evaluates the influence of geographical distribution of natural

resources and differential population growth on strategic and military policymaking and presents an expanded environmentally based view of international security **Environmental Change and Security Project Report** ,1998

Understanding Global Security Peter Hough,2023-04-25 Fully revised and updated this fifth edition of *Understanding Global Security* considers the variety of ways in which peoples lives are threatened and or secured in contemporary global politics The traditional focus of security studies war deterrence and terrorism are analyzed alongside non military security issues such as famine crime disease disasters environmental degradation and human rights abuses to provide a comprehensive survey of how and why people are killed in the contemporary world Key concepts of International Relations and globalization are defined and explained prominent political thinkers and activists are profiled in short biographies and the human impact of the various security threats considered graphically illustrated in top ten tables Hence this textbook introduces students to the full range of security issues in a clear and concise format that is easy to follow Specific updates include A refresh of the evolving theoretical literature on security including more analysis of feminist and post colonial thought Key recent international political developments such as the Covid 19 pandemic the war in Ukraine and the withdrawal of the US from Afghanistan are appraised and incorporated A new section on hybrid warfare is included in Chapter 2 misogynistic terror is profiled in Chapter 3 whilst gun smuggling and cybercrime are considered in more depth in Chapter 10 Chapter 5 features analysis of the rise of genocide diplomacy The rise of private legal challenges to governments for failing to implement commitments to the Paris 2015 Climate Change Accords is reviewed and analysed Greater evaluation of global governance in the face of populist nationalist challenges to international cooperation is offered User friendly and easy to follow this textbook is designed to make a complex subject accessible to all Key features include Top ten tables highlighting the most destructive events or forms of death in those areas throughout history Boxed descriptions elaborating key concepts in the fields of security and International Relations Biographical boxes of key individuals who have shaped security politics Further reading and websites at the end of each chapter guiding you towards classic texts and the most up to date information on the various topics Glossary of political terminology This highly acclaimed and popular academic text will continue to be essential reading for everyone interested in security **Europe's New Security Challenges** Heinz Gärtner,Adrian G. V. Hyde-Price,Erich Reiter,2001 A central point of controversy among both academics and policymakers is the nature and significance of security in the post Cold War world Engaging that discussion this collection explores the new security challenges facing Europe **Globalization and Environmental Challenges** Hans Günter Brauch,Úrsula Oswald Spring,Czeslaw Mesjasz,John Grin,Pál Dunay,Navnita Chadha Behera,Béchir Chourou,Patricia Kamari-Mbote,P. H. Liotta,2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and

globalization as well as the multifarious impacts of global environmental change in the early 21st century

Thinking International Relations Differently Arlene Tickner, David L. Blaney, 2013-03-01 A host of voices has risen to challenge Western core dominance of the field of International Relations IR and yet intellectual production about world politics continues to be highly skewed This book is the second volume in a trilogy of titles that tries to put the international back into IR by showing how knowledge is actually produced around the world The book examines how concepts that are central to the analysis of international relations are conceived in diverse parts of the world both within the disciplinary boundaries of IR and beyond them Adopting a thematic structure scholars from around the world issues that include security the state authority and sovereignty globalization secularism and religion and the international an idea that is central to discourses about world politics but which in given geocultural locations does not necessarily look the same By mapping global variation in the concepts used by scholars to think about international relations the work brings to light important differences in non Western approaches and the potential implications of such differences for the IR discipline and the study of world politics in general This is essential reading for anyone who is concerned about the history development and future of International Relations

The Palgrave Encyclopedia of Global Security Studies, 2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world

International Relations in Latin America Andrea Oelsner, 2013-10-11 This work studies the development of bilateral relations in two pairs of states dyads Argentina Brazil and Argentina Chile It takes on a moderate constructivist approach that incorporates into the analysis of international relations the role of identities ideas and perceptions as well as of material forces and understands that the former are affected and changed during interaction It also uses to securitization theory to explain how issues come or cease to be considered security matters through social constructions

Climate Change, Human Security and Violent Conflict Jürgen Scheffran, Michael Brzoska, Hans Günter Brauch, Peter Michael Link, Janpeter Schilling, 2012-05-26 Severe droughts damaging floods and mass migration Climate change is becoming a focal point for security and conflict research and a challenge for the world s governance structures But how severe are the security risks and conflict potentials of climate change Could global warming trigger a sequence of events leading to economic decline social unrest and political instability What are the causal relationships between resource scarcity and violent conflict This book brings together international experts to explore these questions using in depth case studies from around the world Furthermore the authors discuss strategies institutions and cooperative approaches to stabilize the climate society interaction

Raimo Väyrynen: A Pioneer in International Relations, Scholarship and Policy-Making Raimo Väyrynen, 2023-01-03 This book provides a broad overview of Professor Raimo Väyrynen s academic work his role in international research organizations and his contributions to policy debates It

offers an interesting review of important political issues during the time span of half a century from disarmament in Europe to the changing relationship between state sovereignty and transnational forces V yrynen has dealt with the changing agenda of peace and international relations security and the arms race and the world economy This book provides comprehensive analyses of the regional and systemic structure of international relations with the emphasis on conflicts and warfare between nations It argues that while states even smaller ones still matter transnational issues are increasingly important Taking a historical perspective the articles suggest that large scale violence and arms races have been recurrent and cyclical phenomena in international relations These events reflect the deep seated inequalities in the political and economic systems which moreover vary considerably between regions The publication is important reading for any researcher as well as students policy makers and the science oriented public at large Traces the changing agenda of international relations from disarmament and the world economy to the changing relationship between state sovereignty and transnational forces Provides analyses of the regional and systemic structure in international relations with the emphasis on conflicts and warfare Argues that large scale violence and the arms race have been recurrent and cyclical phenomena in international relations Reviews important political issues from peace and conflict in Europe to the changing power relationship in the world

Future Survey Annual 1990 Michael Marien,1990-01-01 **Environment, Scarcity, and Violence** Thomas F. Homer-Dixon,2010-07-01 The Earth s human population is expected to pass eight billion by the year 2025 while rapid growth in the global economy will spur ever increasing demands for natural resources The world will consequently face growing scarcities of such vital renewable resources as cropland fresh water and forests Thomas Homer Dixon argues in this sobering book that these environmental scarcities will have profound social consequences contributing to insurrections ethnic clashes urban unrest and other forms of civil violence especially in the developing world Homer Dixon synthesizes work from a wide range of international research projects to develop a detailed model of the sources of environmental scarcity He refers to water shortages in China population growth in sub Saharan Africa and land distribution in Mexico for example to show that scarcities stem from the degradation and depletion of renewable resources the increased demand for these resources and or their unequal distribution He shows that these scarcities can lead to deepened poverty large scale migrations sharpened social cleavages and weakened institutions And he describes the kinds of violence that can result from these social effects arguing that conflicts in Chiapas Mexico and ongoing turmoil in many African and Asian countries for instance are already partly a consequence of scarcity Homer Dixon is careful to point out that the effects of environmental scarcity are indirect and act in combination with other social political and economic stresses He also acknowledges that human ingenuity can reduce the likelihood of conflict particularly in countries with efficient markets capable states and an educated populace But he argues that the violent consequences of scarcity should not be underestimated especially when about half the world s population depends directly on local renewables for their day to day well being In the next decades he writes growing

scarcities will affect billions of people with unprecedented severity and at an unparalleled scale and pace Clearly written and forcefully argued this book will become the standard work on the complex relationship between environmental scarcities and human violence

Conflicts and Peace - Global Perspectives Mr. Rohit Manglik, 2024-02-18 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels

Global Trends and Transitions in Security Expertise James McGann, 2017-11-08 The scope of Security and International Affairs research has expanded tremendously since the end of the Cold War to include topics beyond the realm of war studies or military statecraft The field once devoted solely to the study of conventional military and nuclear security issues has diversified to include foci often considered nontraditional including peace and conflict political economic environmental and human security In this exciting new volume McGann has undertaken a quantitative and qualitative study of SIA think tanks looking at global and regional trends in their research He argues that the end of the Cold War marked a fundamental shift within the field of defense and security studies among think tanks and academics Tracking the evolution of security as understood by researchers and policymakers is vital as the world follows the path of the Four Mores more issues more actors more competition and more conflict As we move forward into a world of rapid change and ubiquitous uncertainty think tanks will only become more prominent and influential The volume concludes with an assessment of the future of Security and International Affairs studies and raises the possibility of a return to a traditional security focus driven by recent events in Europe and the Middle East This will be an important resource for students and scholars of security studies global governance and think tanks

The Top Books of the Year Non Military Aspects Of International Security Peace And Conflict Ibues The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Non Military Aspects Of International Security Peace And Conflict Ibues : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Pappen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
