Resistance and Survival Ann González, 2022-08-23 In her analysis of some of the most interesting and important children s literature from Central America and the Caribbean Ann Gonz lez uses postcolonial narrative theory to expose and decode what marginalized peoples say when they tell stories to their children and how the interpretations children give these stories today differ from the ways they have read them in the past Gonz lez reads against the grain deconstructing and critiquing dominant discourses to reveal consistent narrative patterns throughout the region that have helped children maneuver in a world dominated by powerful figures from parents to agents of social control political repression and global takeover Many of these stories are in some way lessons in resistance and survival in a world where the toughest kid on the block often an outsider demands that a group of children play or pay on his terms Gonz lez demonstrates that where traditional strategies have proposed the model of the trickster or the paradoxically astute fool to mock the pretensions of the would be oppressor new trends indicate that the region s children and those who write for them show increasing interest in playing the game on their own terms getting to know the Other embracing difference and redefining their identity and role within the new global culture Resistance and Survival emphasizes the hope underlying this contemporary children s literature for a world in which all voices can be heard and valued the hope

Teoría semántica y método lexicográfico Luis Fernando Lara, 2016-04-12. Este libro es una reelaboración aumentada de *De la definición lexicográfica* 2004, cuyo objetivo, como lo indica su título, es explicar los fundamentos semánticos de la metodología lexicográfica. Está formado por quince artículos publicados originalmente en diferentes revistas, en los que se explican los fundamentos teóricos de la existencia de la palabra y del léxico, la naturaleza de la definición lexicográfica, su pertinencia como elemento de información, su valor cultural, los riesgos de falsificarla, y las dificultades que plantea la definición de voces jergales y ofensivas. Trata también el papel de la metáfora en la polisemia de los vocablos, las dificultades del orden de acepciones en los diccionarios, la necesidad de determinar el papel del ejemplo en el artículo lexicográfico, y la difícil solución de las marcas de uso social. Finalmente, se agregan dos estudios de la creatividad verbal en los juegos de palabras que plantean serias interrogantes a los lexicógrafos acerca de la manera de tratarlos en un diccionario.
