Numerology Colin M Baker, 2014-02-25 On a simplistic level numbers are used to measure age or time solve a mathematical puzzle or define weight and size Materialistically they are used to attribute a numerical value to possessions income and homes But numbers influence us in ways we may not be aware of and can actually affect our destiny Numerology is the science of numbers and cycles that has a specific application to each individual and this book shows how numbers and their various attributes can shape our lives Working out a personal number is easy and fun using the number derived from a person's name to assess personality and motivation while the birth date gives signals about how a person develops their potential At a psychological level each number is assigned a series of qualities that can assist in mapping a life path This is a fascinating little book that provides an intriguing insight into a subject that can change our perception of the world

The Mystery of Numbers: Revealed Through Their Digital Root Talal Ghannam, 2012-07-04 What is it that brings all these different things together The subatomic particles and the Vedic square The hydrogen atom and the golden section Fibonacci numbers consciousness and alchemy Nikola Tesla music and the ether Electromagnetism gravity and the fourth dimension The procession of the equinox the Mayan dooms day the Hindu Brahma cycle and Atlantis It is Numbers or more precisely their Digital Root In this book the author examines the amazing world of numbers particularly those which have intrigued and fascinated ancient and modern mathematicians alike However he does it from a very novel point of view by implementing the digital root operation in which the individual digits of any of these numbers are summed up until a single digit is left over The author will show that when applying this simple operation to magical numbers and to many other groups of numbers an amazing world of hidden interconnections repetition cycles numerical symmetries and geometrical patterns emerge Especially when the geometrical the circle and the numerical aspects of the digital root world are combined together It is in this circular numerical world where numbers individually and collectively exist in their most basic yet perfect and symmetrical states and where the basic nine numbers are differentiated into three groups of amazing properties which will be shown to underlie the essence of the whole universe from the atom and its forces to the solar system and its geometry This book will take us on a numerical and spiritual journey starting from prime and figurate numbers to

Fibonacci sequence and the golden section to alchemy and the Mayan calendar to the atoms and its forces along with the ether and the fourth dimension In addition the author will show how these new revelations of the digital root world are corroborating the numerological and mystical qualities that have been attributed to numbers by philosophers and mystics throughout the ages This book will paint a so holistic and meaningful image of the world that will forever change our perception not only towards numbers but towards the whole universe as well
