Principles and Practice of Gynecologic Oncology Richard Barakat,Andrew Berchuck,Maurie Markman,Marcus E. Randall,2013-05-08 Today multidisciplinary approaches to treatment are at the heart of cancer care They offer improved clinical outcomes new possibilities in patient quality of life and enable the development of true innovation in individualized treatment To accurately reflect this modern day approach to cancer care the content of the 6th edition of Principles and Practice of Gynecologic Oncology was written entirely by surgeons medical oncologists radiation oncologists and pathologists New to the editorial team Dr Andrew Berchuck has made significant contributions to the understanding of the molecular pathogenesis of ovarian and endometrial cancer in the book s content Every chapter of this book has been either completely rewritten or extensively updated to ensure that everyone involved in treating women with gynecologic cancer will have the most comprehensive and up to date information on the subject *Functional Preservation and Quality of Life in Head and Neck Radiotherapy* Paul M. Harari,Nadine P. Connor,Cai Grau,2009-06-12 The emphasis on cancer management in the past

was based primarily on control rates from multidisciplinary input in management. There has always been a recognition that one would like to achieve the best result with the least complication but never has there been any major emphasis on evidence based outcome studies nor on functional preservation and quality of life. The authors of this book have dealt very effectively with the various tumor types in head and neck cancer with the experts in the field of management. The contents range from epidemiology and treatment outcome treatment techniques with the potential impact on the quality of life such as dysphagia to the various options relative to high technology radiation therapy programs for management. The potential for improving form and function through surgical care as an integrated part of the program is dealt with very effectively as well as the potentials for chemotherapy and the use of targeted agents have on quality of life issues. The volume also addresses toxicity quality of life and techniques for prevention of adverse effects as well as the potentials for rehabilitation and supportive care. The authors have clearly done an extraordinarily good job in addressing the multiplicity of problems that impact upon the functional preservation and quality of life in head and neck radiation therapy.
