Secession and Self Gregory Millard, 2008-10-24 The possibility of Quebec's departure has long haunted Canadian politics and English speaking Canadians have resisted such a break But why and how does Quebec's membership in the existing constitutional order matter to Canadians outside Quebec

Constitutionalising Secession David Haljan, 2014-11-01 Constitutionalising Secession proceeds from the question What if anything does the law have to say about a secession crisis But rather than approaching secession through the optic of political or nationalist institutional accommodation this book focuses on the underpinnings to a constitutional order as a law making community underpinnings laid bare by secession pressures Relying on the corrosive effects of secession it explores the deep structure of a constitutional order and the motive forces creating and sustaining that order A core idea is that the normativity of law is best understood through a constitutional optic as an integrative associative force Constitutionalising Secession critically analyses conceptions of constitutional order implicit in the leading models of secession and takes as a leading case study the judicial and legislative response to secession in Canada The book therefore develops a concept of constitutionalism and law making associative constitutionalism to describe their deep structure as a continuing integrative process of association This model of a dynamic process of value formation can address both the association and the disassociation of constitutional systems

The Referendum Papers C.D. Howe Institute, 1999 The Razor Thin Outcome of the October 1995 Referendum in Quebec was a jarring wake up call for English Canada forcing Canadians outside Quebec to confront the unthinkable This collection of papers by leading academics and analysts offers the most thorough examination yet of the main issues arising for the country out of the October referendum It considers not only what might be done to help

the country survive but what should be done if it doesn't The book is divided into two parts the first focussing on ways to improve the social political and economic union of Canada The second confronts head on the possibility of Quebec separation and discusses the terms and processes of Quebec's possible departure As the recent Supreme Court decision made clear the time for reasoned negotiation with a soon to be independent Quebec may come Although committed to keeping the country together all the contributors to this volume share a commitment to democracy and the peaceful resolution of conflict The individual papers go beyond analysis to provide a clear set of proposals for action and change Originally commissioned by the C D Howe Institute the papers provide the first real blueprint for thinking about the unthinkable As such this collection will be of great interest to anyone concerned about the future of Canada and the future of Quebec

Constitutional Politics in Multinational Democracies André Lecours, Nikola Brassard-Dion, Guy Laforest, 2021-07-15 Constitutional politics is exceptionally intense and unpredictable It involves negotiations over the very nature of the state and the implications of self determination Multinational democracies face pressing challenges to the existing order because they are composed of communities with distinct cultures histories and aspirations striving to coexist under mutually agreed upon terms Conflict over the recognition of these multiple identities and the distribution of power and resources is inevitable and indeed part of what defines democratic life in multinational societies In *Constitutional Politics in Multinational Democracies* Andr Lecours Nikola Brassard Dion and Guy Laforest bring together experts on multinational democracies to analyze the claims of minority nations about their political future and the responses they elicit through constitutional politics Essays focus on the nature of these states and the actors and political process within them This framework allows for a multidimensional examination of crucial political periods in these democracies by assessing what constitutional politics is who is involved in it and how it happens Case studies include Catalonia and Spain Puerto Rico and the United States Scotland and the United Kingdom Belgium Bosnia and Herzegovina and Quebec and the M tis People in Canada Theoretically significant and empirically rich *Constitutional Politics in Multinational Democracies* is a necessary read for any student of multinationalism

The Paradox of Federalism Jan Erk, Lawrence M. Do Think Tanks Matter?, *Second Edition* Donald E. Abelson, 2009-09-01 It is often assumed that think tanks carry enormous weight with lawmakers In *Do Think Tanks Matter* Donald Abelson argues that the basic question of how think tanks have evolved and under what conditions they can and do have an effect is consistently ignored Think tank directors often credit their institutes with influencing major policy debates and government legislation and many journalists and scholars believe the explosion of think tanks in the latter part of the twentieth century indicates their growing importance in the policy making process Abelson goes beyond assumptions identifying the influence and relevance of public policy institutes in today's political arena in the United States where they've become an integral feature of the political landscape and in Canada where despite recent growth in numbers they enjoy less prominence than their US counterparts By focusing on the policy cycle issue articulation policy formation and implementation Abelson argues that individual think tanks have sometimes played an important role in shaping the political dialogue and the policy preferences and choices of decision makers but often in different ways and at different stages of the policy cycle This revised and updated edition of the book includes up to date data 2000-08 on the growing visibility and policy relevance of think tanks in Canada and the United States

Canada's Indigenous Constitution John Borrows, 2010-03-06 Canada s Indigenous Constitution reflects on the nature and sources of law in Canada beginning with the conviction that the Canadian legal system has helped to engender the high level of wealth and security enjoyed by people across the country However longstanding disputes about the origins legitimacy and applicability of certain aspects of the legal system have led John Borrows to argue that Canada s constitution is incomplete without a broader acceptance of Indigenous legal traditions With characteristic richness and eloquence John Borrows explores legal traditions the role of governments and courts and the prospect of a multi juridical legal culture all with a view to understanding and improving legal processes in Canada He discusses the place of individuals families and communities in recovering and extending the role of Indigenous law within both Indigenous communities and Canadian society more broadly This is a major work by one of Canada s leading legal scholars and an essential companion to *Drawing Out Law A Spirit s Guide*

Do Think Tanks Matter?, First Edition Donald E. Abelson, 2002-03-08 Do Think Tanks Matter evaluates the influence and relevance of public policy institutes in today s political arena Many journalists and scholars believe the explosion of think tanks in the latter part of the twentieth century indicates their growing importance in the policy making process This perception has been reinforced by directors of think tanks who often credit their institutes with influencing major policy debates and government legislation Yet the basic question of how and in what way they influence public policy has Donald Abelson contends frequently been ignored Abelson studies the experiences of think tanks in the United States where they have become an integral feature of the political landscape and in Canada where their numbers have grown considerably in recent years but where compared to their U S counterparts they enjoy less prominence in policy making By focusing on the policy cycle issue articulation that is getting issues on the political agenda and policy formation and implementation actually affecting the outcome of policies already on the political agenda he argues that think tanks have sometimes played an important role in shaping the political dialogue and the policy preferences and choices of decision makers but often in different ways and at different stages of the policy cycle
