Ukrainian Dissidents: An Anthology of Texts Oleksii Stus, Dmytro Finberg,

Leonid Sinchenko,2021-03-16 This anthology of seminal texts documents the development of the post war anti Soviet

Ukrainian dissident movement The collection is designed to introduce via some crucial primary sources Western and other

non Ukrainian readers to various forms of Ukrainian opposition to the communist regime Stories of ideas and personal

undertakings are unfolding before the reader in a vivid pulsation of texts that testify for themselves The anthology gathers

contributions from different genres They range from poetry public speeches and samvydav uncensored self published texts to

court speeches They come from dissidents who were held in jails special psychiatric hospitals for not accepting the official

ideology and prison camps Finally they include self reflections by dissidents on their personal experience of opposing the

totalitarian system This variety of contributions creates a multidimensional picture of the Ukrainian dissident movement a

generation of prominent Ukrainian public and cultural figures who in one way or another insisted on their freedom of speech

and made history by daring to challenge the official ideology and culture This remarkable book about the struggle for

freedom has been compiled by Oleksii Sinchenko Dmytro Stus and Leonid Finberg Scholarly reviewed by Myroslav

Marynovych Cumulative Index, 1972-1975, to Published Hearings, Studies, and Reports of the Subcommittee to

A History of Modern Political Thought in East Central Europe Balázs Trencsenyi,Michal Kopeček,Luka Lisjak Gabrijelčič,Maria

Falina,Mónika Baár,2018-10-18 A History of Modern Political Thought in East Central Europe is a synthetic work authored by

an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation

centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and

discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic

assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond *Ukraine* Orest Subtelny, 2009-11-10 In 1988 the first edition of Orest Subtelny's *Ukraine* was published to international acclaim as the definitive history of what was at that time a republic in the USSR In the years since the world has seen the dismantling of the Soviet bloc and the restoration of Ukraine's independence an event celebrated by Ukrainians around the world but which also heralded a time of tumultuous change for those in the homeland While previous updates brought readers up to the year 2000 this new fourth edition includes an overview of Ukraine's most recent history focusing on the dramatic political socio economic and cultural changes that occurred during the Kuchma and Yushchenko presidencies It analyzes political developments particularly the so called Orange Revolution and the institutional growth of the new state Subtelny examines Ukraine's entry into the era of globalization looking at social and economic transformations regional ideological and linguistic tensions and describes the myriad challenges currently facing Ukrainian state and society Canadian Literary Landmarks John Robert Colombo, 1984-01-01 Here is a list of three dozen of the top literary locales in the country The selection of sites is necessarily subjective yet it attempts to represent geographical historical social and cultural concerns as well as strictly literary interests Had this list been prepared by the editors of Michelin Guide they would have added asterisks or stars to the entries Interesting Worth a detour Worth a journey It is the opinion of the author of *Canadian Literary Landmarks* that all thirty six sites are Worth a journey It is recognized that the average person is unlikely to visit No 1 not to mention No 36 but as these sites happen to be the first and last entries in the book they mark a convenient and symbolic beginning and ending No 1 being L'Anse aux Meadows Epaves Bay Nfld and No 36 being the North Pole NWT **A History of Ukraine** Paul R. Magocsi, 2010-01-01 Dotyczy m in Kres w wschodnich Rzeczypospolitej **Toward a Catholic Theology of Nationality** Dorian Llywelyn, 2010-06-28 Nationality continues to be an important part of how people identify themselves and others Who am I is inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of

culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn s wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values

The Russian Intelligentsia Christopher Read,2024-02-22 The Russian Intelligentsia is the first single volume history of a small but tremendously influential group of Russian intellectuals who achieved world renown in a variety of spheres While previous accounts have addressed the history of individuals within this collective Christopher Read offers the first explanation of the intelligentsia as a group Read traces the vast debates that broke out between and within a multitude of intellectual factions and contextualizes the ideas of the group within the framework of cultural social political and economic development from the late 18th century to the present day This comprehensive yet accessible account demonstrates how the Russian intelligentsia morphed from one incarnation to the next and effectively situates this change and continuity within a pan European context It considers the role of the intelligentsia throughout its origins its transformation during the Russian Revolution and since the collapse of communism and highlights the beliefs of key figures such as Fyodor Dostoyevsky Ivan Pavlov Vladimir Lenin Leon Trotsky and Mikhail Gorbachev In doing so Read provides an essential guide to a fascinating aspect of Russia s social and cultural history

The Carpathians, the Hutsuls, and Ukraine Anthony J. Amato,2020-12-02 This book examines the relationship between Ukraine s Galician Hutsuls and the Carpathian landscape between 1848 and 1939 The author analyzes the intersections of ecology and culture in the history of the Carpathian Mountains with a focus on the region s economy and biodiversity

The Soviet Sixties Robert Hornsby,2023-01-01 The story of a remarkable era of reform controversy optimism and Cold War confrontation in the Soviet Union Beginning with the death of Stalin in 1953 the sixties era in the Soviet Union was just as vibrant and transformative as in the West The ideological romanticism of the revolutionary years was revived with renewed emphasis on egalitarianism equality and the building of a communist utopia Mass terror was reined in great victories were won in the space race Stalinist cultural dogmas were challenged and young people danced to jazz and rock and roll Robert Hornsby examines this remarkable and surprising period showing that even as living standards rose aspects of earlier days endured Censorship and policing remained tight and massacres during protests in Tbilisi and Novocherkassk alongside invasions of Hungary and

Czechoslovakia showed the limits of reform The rivalry with the United States reached perhaps its most volatile point friendship with China turned to bitter enmity and global decolonization opened up new horizons for the USSR in the developing world These tumultuous years transformed the lives of Soviet citizens and helped reshape the wider world

Religion and Nationalism in Soviet and East European Politics Sabrina P. Ramet, 1989 Religious organizations in many countries of the communist world have served as agents for the preservation defense and reinforcement of nationalist feelings and in playing this role have frequently been a source of frustration to the Communist Party elites Although the relationship between governments and religious groups varies according to the particular country and group in question the mosaic of these relationships constitutes a revealing picture of the political reform shaping the lives of Soviet and East European citizens

Historical Dictionary of Ukraine Ivan Katchanovski, Zenon E. Kohut, Bohdan Y. Nebesio, Myroslav Yurkevich, 2013-07-11 Although present day Ukraine has only been in existence for something over two decades its recorded history reaches much further back for more than a thousand years to Kyivan Rus Over that time it has usually been under control of invaders like the Turks and Tatars or neighbors like Russia and Poland and indeed it was part of the Soviet Union until it gained its independence in 1991 Today it is drawn between its huge neighbor to the east and the European Union and is still struggling to choose its own path although it remains uncertain of which way to turn Nonetheless as one of the largest European states with considerable economic potential it is not a place that can be readily overlooked The problem is or at least was where to find information on this huge modern Ukraine and since 2005 the answer has been the Historical Dictionary of Ukraine in its first edition and now even more so with this second edition It now boasts a dictionary section of about 725 entries these covering the thousand years of history but particularly the recent past and focusing on significant persons places and events political parties and institutions as well as more broadly international relations the economy society and culture The chronology permits readers to follow this history and the introduction is there to make sense of it It also features the most extensive and up to date bibliography of English language writing on Ukraine

The Ukrainian Diaspora Vic Satzewich, 2003-09-02 In this fascinating book Vic Satzewich traces one hundred and twenty five years of Ukrainian migration from the economic migration at the end of the nineteenth century to the political migration during the inter war period and throughout the 1960s and 1980s resulting from the troubled relationship between Russia and the Ukraine The author looks at the ways the Ukrainian Diaspora has retained its identity at the different factions within it and its response to the war crimes trials of the 1980s
