Seeing The Invisible In Late Antiquity And The Early Middle Ages:

Seeing the Invisible in Late Antiquity and the Early Middle Ages Giselle de Nie, Karl Frederick Morrison, Marco Mostert, 2005 Limiting itself to the vital centuries when the late Roman West reshaped itself into a first Europe the conference explored the dominant conception of human nature in that era that human existence was both body in the visible world of material things and soul in the invisible world of spirit This was a legacy of pre Christian elements handed down from Greek philosophy and Hebrew Scriptures Assimilating it to indigenous cultures in the Roman West many alien to the ancient Mediterranean world precipitated sea changes in the understanding of human psychology Ensuing frictions sparked extraordinary expressions of creativity in words and visual images It also created dangerously subversive disequilibriums in the collective mentality within elites and between them and majority cultures The papers in this volume investigate numerous configurations of a new culture taking shape in that volatile environment They contribute to continuing debates about the cognitive co ordination of words and pictorial images and to cross disciplinary dialogues in such disparate fields as art history religious literature mysticism and cultural anthropology

The Corporeal Imagination Patricia Cox

Miller, 2012-02-28 With few exceptions the scholarship on religion in late antiquity has emphasized its tendencies toward transcendence abstraction and spirit at the expense of matter In *The Corporeal Imagination* Patricia Cox Miller argues instead that ancient Christianity took a material turn between the fourth and seventh centuries During this period Miller contends there occurred a major shift in the ways in which the human being was oriented in relation to the divine a shift that reconfigured the relationship between materiality and meaning in a positive direction *The Corporeal Imagination* is a groundbreaking investigation into the theological poetics of material substance in late ancient Christian texts From hagiographies to literary descriptions of sacred paintings to treatises on relics and theurgy Miller examines a wide variety of ancient texts to reveal how Christian writers increasingly described the matter of the world as invested with divine power By appealing to the reader's sensory imagination Christian texts endowed phenomena like relics saints bodies in hagiography and saints presence in icons with a visual and tactile presence The book draws on a variety of contemporary theoretical models to elucidate the significance of all these materials in ancient religious life and imagination

Once Out of Nature

Andrea Nightingale, 2011-06-01 *Once Out of Nature* offers an original interpretation of Augustine's theory of time and embodiment Andrea Nightingale draws on philosophy sociology literary theory and social history to analyze Augustine's conception of temporality eternity and the human and transhuman condition In Nightingale's view the notion of embodiment illuminates a set of problems much larger than the body itself it captures the human experience of being an embodied soul dwelling on earth In Augustine's writings humans live both in and out of nature exiled from Eden and punished by mortality they are resident aliens on earth While the human body is subject to earthly time the human mind is governed by what Nightingale calls psychic time For the human psyche always stretches away from the present moment where the physical

body persists into memories and expectations As Nightingale explains while the body is present in the here and now the psyche cannot experience self presence Thus for Augustine the human being dwells in two distinct time zones in earthly time and in psychic time The human self then is a moving target Adam Eve and the resurrected saints by contrast live outside of time and nature these transhumans dwell in an everlasting present Nightingale connects Augustine s views to contemporary debates about transhumans and suggests that Augustine s thought reflects our own ambivalent relationship with our bodies and the earth Once Out of Nature offers a compelling invitation to ponder the boundaries of the human

Death and Rebirth in Late Antiquity Lee M. Jefferson,2022-08-16 Death and rebirth was of vital importance to early Christians in late antiquity In late antiquity death was all encompassing Mortality rates were high plague and disease in urban areas struck at will and one lived on the knife s edge regarding one s health Religion filled a crucial role in this environment offering an option for those who sought cure and comfort Following death the inhumed were memorialized providing solace to family members through sculpture painting and epigraphy This book offers a sustained interdisciplinary treatment of death and rebirth a theme that early Christians and scholars found important By analysing the theme of death and rebirth through various lenses the contributors deepen our understanding of the early Christian funerary and liturgical practices as well as their engagement with other groups in the Empire

The Early Modern Invention of Late Antique Rome Nicola Denzey Lewis,2020-09-03 A new look at the Cult of the Saints in late antiquity did it really dominate Christianity in late antique Rome

From Face to Face Marina Prusac,2010-12-20 This book provides analyses of different recarving methods in Late Antiquity and argues on the basis of 500 recarved portraits that the late antique portrait style which was formerly considered an expression of a new era was rather a technical consequence

The Absent Image Elina Gertsman,2021-06-24 Winner of the 2022 Charles Rufus Morey Award from the College Art Association Winner of the 2023 Otto Gr ndler Book Prize from Western Michigan University Guided by Aristotelian theories medieval philosophers believed that nature abhors a vacuum Medieval art according to modern scholars abhors the same The notion of horror vacui the fear of empty space is thus often construed as a definitive feature of Gothic material culture In *The Absent Image* Elina Gertsman argues that Gothic art in its attempts to grapple with the unrepresentability of the invisible actively engages emptiness voids gaps holes and erasures Exploring complex conversations among medieval philosophy physics mathematics piety and image making Gertsman considers the concept of nothingness in concert with the imaginary revealing profoundly inventive approaches to emptiness in late medieval visual culture from ingenious images of the world s creation ex nihilo to figurations of absence as a replacement for the invisible forces of conception and death Innovative and challenging this book will find its primary audience with students and scholars of art religion physics philosophy and mathematics It will be particularly welcomed by those interested in phenomenological and cross disciplinary approaches to the visual culture of the later Middle Ages

Prudentius, Spain, and Late Antique Christianity Paula Hershkowitz,2017-01-05 This book provides an innovative

approach to the Hispano Roman Christian poet Prudentius and his poetry It is a breakthrough in Prudentian scholarship which unifies the differing disciplines of history archaeology literature and art history in arguing that Prudentius and his envisaged Spanish audience cannot be fully understood in isolation from their environment in late fourth and early fifth century Spain Paula Hershkowitz focuses on Prudentius Peristephanon his collection of verses celebrating the deaths of martyrs and places these poems within the context of Prudentius world uniquely employing material visual and textual remains as evidence for its religious social and cultural affiliations It also draws on this material evidence to contextualise Prudentius awareness of the significance of the visual as a means of promoting beliefs against the background of this crucial formative period in religious history when many of his Spanish audience were not yet fully committed to the Christian faith

Moving Viewer, c. 300-1500 CE, 2022-04-19 Premodern architecture and built environments were fluid spaces whose configurations and meanings were constantly adapting and changing The production of transitory meaning transpired whenever a body or object moved through these dynamic spaces Whether spanning the short duration of a procession or the centuries of a building's long duration a body or object in motion created in the moment narratives that unfolded through time and space The authors in this volume forge new approaches to architectural studies by focusing on the interaction between monuments artworks and their viewers at different points in space and time Contributors are Christopher A Born Elizabeth Carson Pastan Nicole Corrigan Gillian B Elliott Barbara Franz Anne Heath Philip Jacks Divya Kumar Dumas Brigitte Kurmann Schwarz Ashley J Laverock Susan Leibacher Ward Elodie Leschot Meghan Mattsson McGinnis Michael Sizer Kelly Thor and Laura J Whatley **The Beginnings of the Cult of Relics** Robert Wiśniewski, 2019 Christians have often admired and

venerated the martyrs who died for their faith but for a long time thought that the bodies of martyrs should remain undisturbed in their graves Initially the Christian attitude towards the bones of the dead saint or not was that of respectful distance The Beginnings of the Cult of Relics examines how this attitude changed in the mid fourth century Robert Wiśniewski investigates how Christians began to believe in the power of relics first over demons then over physical diseases and

enemies He considers how the faithful sought to reveal hidden knowledge at the tombs of saints and why they buried the dead close to them An essential element of this new belief was a strong conviction that the power of relics was transferred in a physical way and so the following chapters study relics as material objects Wi niewski analyses how contact with relics operated and how close it was Did people touch kiss or look at the very bones or just at tombs and reliquaries which contained them When did the custom of dividing relics begin Finally the book deals with discussions and polemics concerning relics and attempts to find out the strength of the opposition which this new phenomenon had to face both within and outside Christianity on its way to become an essential element of medieval religiosity

The Ends of the Body Suzanne Conklin Akbari, Jill Ross, 2013-01-29 Drawing on Arabic English French Irish Latin and Spanish sources the essays share a focus on the body's productive capacity whether expressed through the flesh's materiality or through its role in performing meaning The collection is divided into four clusters Foundations traces the use of physical remnants of the body in the form of relics or memorial monuments that replicate the form of the body as foundational in communal structures Performing the Body focuses on the ways in which the individual body functions as the medium through which the social body is maintained Bodily Rhetoric explores the poetic linkage of body and meaning and Material Bodies engages with the processes of corporeal being ranging from the energetic flow of humoral liquids to the decay of the flesh Together the essays provide new perspectives on the centrality of the medieval body and underscore the vitality of this rich field of study

Building the Body of Christ Daniel C. Cochran, 2020-11-17 In Building the Body of Christ Daniel C Cochran argues that monumental Christian art and architecture played a crucial role in the formation of individual and communal identities in late antique Italy The ecclesiastical buildings and artistic programs that emerged during the fourth and fifth centuries not only reflected Christianity's changing status within the Roman Empire but also actively shaped those who used them Emphasizing the importance of materiality and the

body in early Christian thought and practice Cochran shows how bishops and their supporters employed the visual arts to present a Christian identity rooted in the sacred past but expressed in the present through church unity and episcopal authority He weaves together archaeological and textual evidence to contextualize case studies from Rome Aquileia and Ravenna showing how these sites responded to the diversity of early Christianity as expressed through private rituals and the imperial appropriation of the saints Cochran shows how these early ecclesiastical buildings and artistic programs worked in conjunction with the liturgy to persuade individuals to adopt alternative beliefs practices and values that contributed to the formation of institutional Christianity and the Christianization of late antique Italy Sanctity and Female Authorship Maria H. Oen,Unn Falkeid,2019-10-10 Birgitta of Sweden Birgitta Birgersdotter 1302 03 1373 and her younger contemporary Catherine of Siena Caterina Benincasa 1347 1380 form the most powerful and influential female duo in European history Both enjoyed saintly reputations in life while acting as the charismatic leaders of a considerable group of followers consisting of clergy as well as mighty secular men and women They are also among the very few women of the Trecento to leave a substantial body of written work which was widely disseminated in their original languages and in translations Copies of Birgitta s *Liber celestis revelacionum* The Heavenly Book of Revelations and compilations of Catherine s letters *Le lettere* prayers *Le orazioni* and her theological work *Il Dialogo della divina Provvidenza* The Dialogue found their way into monastic royal and humanist libraries all over Europe After their deaths Birgitta s and Catherine s respective groups of supporters sought to have them formally canonized In both cases however their political and theological outspokenness orally and in text and their public authority represented obstacles In this comparative study leading scholars from different disciplinary backgrounds offer for the very first time a comprehensive exploration of the lives and activities of Birgitta and Catherine in tandem Particular attention is given to their literary works and the complex process of negotiating their sanctity and authorial roles Above all what the chapters reveal is the many points of connections between two of the most influential women of the Trecento and how they were related to one another by their peers and successors **A Saving Science** Eric M. Ramírez-Weaver,2017-02-24 In *A Saving Science* Eric Ramírez Weaver explores the significance of early medieval astronomy in the Frankish empire using as his lens an astronomical masterpiece the deluxe manuscript of the *Handbook of 809* painted in roughly 830 for Bishop Drogo of Metz one of Charlemagne s sons Created in an age in which careful study of the heavens served a liturgical purpose to reckon Christian feast days and seasons accurately and thus reflect a heavenly order the diagrams of celestial bodies in the *Handbook of 809* are extraordinary signifiers of the intersection of Christian art and classical astronomy Ramírez Weaver shows how by studying this lavishly painted and carefully executed manuscript we gain a unique understanding of early medieval astronomy and its cultural significance In a time when the Frankish church sought to renew society through education the *Handbook of 809* presented a model in which study aided the spiritual reform of the cleric s soul and by extension enabled the spiritual care of his community An exciting new interpretation of Frankish

painting A Saving Science shows that constellations in books such as Drogo's were not simple copies for posterity's sake but functional tools in the service of the rejuvenation of a creative Carolingian culture **Alcuin** Douglas Dales, 2012-11-29 Scholar ecclesiastic teacher and poet of the eighth century Alcuin was a person of deep Christian faith tenacious in his loyalty to orthodox Catholic theology He had a seminal influence upon his own generation and those that came after him Although he remained a Northumbrian Christian at heart the part of his life about which most is known was spent on the Continent He never lost contact with his homeland but his most significant and lasting work was evidently accomplished in Europe and his influence on the early medieval Western Church was an abiding one This book examines his life and career in England and on the continent it also considers his legacy as a churchman and a leading political figure This volume prefigures a forthcoming work on Alcuin's intellectual legacy Alcuin A Study of his Theology due for release April 2013 This rich study is intended for the general reader as well as for those studying teaching or researching this period of early medieval history and theology in schools and universities "Gender, Piety, and Production in Fourteenth-Century English Apocalypse Manuscripts" Renana Bartal, 2017-07-05 Gender Piety and Production in Fourteenth Century English Apocalypse Manuscripts is the first in depth study of three textually and iconographically diverse Apocalypses illustrated in England in the first half of the fourteenth century by a single group of artists It offers a close look at a group of illuminators previously on the fringe of art historical scholarship challenging the commonly held perception of them as mere craftsmen at a time when both audiences and methods of production were becoming increasingly varied Analyzing the manuscripts codicological features visual and textual programmes and social contexts it explores the mechanisms of a fourteenth century commercial workshop and traces the customization of these books of the same genre to the needs and expectations of varied readers revealing the crucial influence of their female audience The book will be of interest to scholars and students of English medieval art medieval manuscripts and the medieval Apocalypse as well as medievalists interested in late medieval spirituality and theology medieval religious and intellectual culture book patronage and ownership and female patronage and ownership **The Long Morning of Medieval Europe** Jennifer R.
