BRADLEY, 2021-12-22 The question we are to consider in this lecture may be stated in a variety of ways We may put it thus What is the substance of a Shakespearean tragedy taken in abstraction both from its form and from the differences in point of substance between one tragedy and another Or thus What is the nature of the tragic aspect of life as represented by Shakespeare What is the general fact shown now in this tragedy and now in that And we are putting the same question when we ask What is Shakespeare's tragic conception or conception of tragedy These expressions it should be observed do not imply that Shakespeare himself ever asked or answered such a question that he set himself to reflect on the tragic aspects of life that he framed a tragic conception and still less that like Aristotle or Corneille he had a theory of the kind of poetry called tragedy These things are all possible how far any one of them is probable we need not discuss but none of them is presupposed by the question we are going to consider This question implies only that as a matter of fact Shakespeare in writing tragedy did represent a certain aspect of life in a certain way and that through examination of his writings we ought to be able to some extent to describe this aspect and way in terms addressed to the understanding Such a description so far as it is true and adequate may after these explanations be called indifferently an account of the substance of Shakespearean tragedy or an account of Shakespeare's conception of tragedy or view of the tragic fact Two further warnings may be required In the first place we must remember that the tragic aspect of life is only one aspect We cannot arrive at Shakespeare's whole dramatic way of looking at the world from his tragedies alone as we can arrive at Milton's way of regarding things or at Wordsworth's or at Shelley's by examining almost any one of their important works Speaking very broadly one may say that these poets at their best always look at things in one light but Hamlet and Henry IV and Cymbeline reflect things from quite distinct positions and Shakespeare's whole dramatic view is not to be identified with any one of these reflections And in the second place I may repeat that in these lectures at any rate for the most part we are to be

content with his dramatic view and are not to ask whether it corresponded exactly with his opinions or creed outside his poetry the opinions or creed of the being whom we sometimes oddly call Shakespeare the man It does not seem likely that outside his poetry he was a very simple minded Catholic or Protestant or Atheist as some have maintained but we cannot be sure as with those other poets we can that in his works he expressed his deepest and most cherished convictions on ultimate questions or even that he had any And in his dramatic conceptions there is enough to occupy us

**Shakespearean Tragedy Lectures on Hamlet, Othello, King Lear & Macbeth** A. C. Bradley, 2007-01-01 **Shakespearean Tragedy; Lectures on Hamlet, Othello** Andrew Cecil Bradley, 1910 Shakespearean Tragedy A. C. Bradley, 2011-12-12 Bradley offers some of the most eloquent complete and balanced criticisms of the tragedies that you will ever read Unlike so many literary critics of today Bradley does not disdain to view Shakespeare's characters as actual people which lends his view of the works a sense of import and meaning which so few critics manage to convey These lectures are necessary reading for anyone at all who wishes to understand Shakespeare's tragedies better actors directors and academics alike This has for almost a century been and continues to be today one of the most important books on Shakespeare's best and most popular tragedies For much of the time since around 1930 it has been severely criticised on the grounds chiefly that the author is too much inclined to respect or have sympathy for the heroes which he is and that he treats them too much like real people which he does and which they aren't Yet for all that Bradley's approach to the heroes as though they were characters we all know has revealed a great deal about what Shakespeare has made those characters and those who see the characters as complex and psychologically worth exploring identify a more significant aspect of Shakespeare's interest in humans and his art than do many of Bradley's opponents Moreover the detail of his examinations of the texts makes it possible to probe much with him even if one continues to question or quarrel with him on the way and he is not infrequently demonstrably wrong Thus this remains a work of criticism which is inspirational and searching even if at times quite wrongheaded and every serious reader of Shakespeare including actors and directors should read this book and own it

Shakespearean Tragedy. Lectures on Hamlet, Othello, King Lear, Macbeth (Annotated) Andrew Cecil Bradley, 2020-02-08

Differentiated book It has a historical context with research of the time In these lectures I propose to consider the four principal tragedies of Shakespeare from a single point of view Nothing will be said of Shakespeare's place in the history either of English literature or of the drama in general No attempt will be made to compare him with other writers I shall leave untouched or merely glanced at questions regarding his life and character the development of his genius and art the genuineness sources texts inter relations of his various works Even what may be called in a restricted sense the poetry of the four tragedies the beauties of style diction versification I shall pass by in silence Our one object will be what again in a restricted sense may be called dramatic appreciation to increase our understanding and enjoyment of these works as dramas to learn to apprehend the action and some of the personages of each with a somewhat greater truth and intensity so that they may assume in our imaginations a shape a little less unlike the shape they wore in the imagination of their creator For this end all those studies that were mentioned just now of literary history and the like are useful and even in various degrees necessary But an overt pursuit of them is not necessary here nor is any one of them so indispensable to our object as that close familiarity with the plays that native strength and justice of perception and that habit of reading with an eager mind which make many an unscholarly lover of Shakespeare

Excerpt The question we are to consider in this lecture may be stated in a variety of ways We may put it thus What is the substance of a Shakespearean tragedy taken in abstraction both from its form and from the differences in point of substance between one tragedy and another Or thus What is the nature of the tragic aspect of life as represented by Shakespeare What is the general fact shown now in this tragedy and now in that And we are putting the same question when we ask What is Shakespeare's tragic conception or conception of tragedy These expressions it should be observed do not imply that Shakespeare himself ever asked or answered such a question that he set himself to reflect on the tragic aspects of life that he framed a tragic conception and still less that like Aristotle or Corneille he had a theory of the kind of poetry called tragedy These things are all possible how far any one of them is probable we need not discuss but none of them is presupposed by the question we are going to consider This question implies only that as a matter of fact Shakespeare in writing tragedy did represent a certain aspect of life in a certain way and that through examination of his writings we ought to be able to some extent to describe this aspect and way in terms addressed to the understanding Such a description so far as it is true and adequate may after these explanations be called indifferently an account of the substance of Shakespearean tragedy or an account of Shakespeare's conception of tragedy or view of the tragic fact Two further warnings may be required In the first place we must remember that the tragic aspect of life is only one aspect We cannot arrive at Shakespeare's whole dramatic way of looking at the world from his tragedies alone as we can arrive at Milton's way

of regarding things or at Wordsworth's or at Shelley's by examining almost any one of their important works. Speaking very broadly one may say that these poets at their best always look at things in one light but Hamlet and Henry IV and Cymbeline reflect things from quite distinct positions and Shakespeare's whole dramatic view is not to be identified with any one of these reflections.
