A Bibliography of Publications on Old English Literature to the End of 1972 Stanley B. Greenfield, Fred C. Robinson, 2008-07-28

Greenfield and Robinson state in their preface that they have sought to include every book monograph article note and review published on Old English literature since the invention of printing They have come as close to doing so as two descendants of Adam possibly can undeterred by the trouble at Babel By my count thirty different languages are represented in the bibliography sixteen of them frequently Rarely has any bibliography in any other discipline equalled the thoroughness and accuracy of this one It is a contribution for which Greenfield and Robinson will long receive from their colleagues that measure of gratitude reserved for Old English scholarship's most bounteous treasure givers Carl T Berkhout

What astonishes is how well Greenfield and Robinson have succeeded in what they set out to do how uniformly excellent their volume is in all its profusion of information and detail The Bibliography will bring scholars that peculiar joy in complex intellectual work done well that only they know it will be immensely useful virtually indispensable if not a vade mecum because of its size then at least an enchiridion with which they will fight their battles on behalf of Beowulf and Brunanburh and the Blickling Homilies

The Old English Newsletter A volume long needed the Bibliography will now become an indispensable reference work for every student of Old English literature from the beginner to the acknowledged authority
