Shakti The Spiritual Science Of Dna:

Shakti E. J. Gold,1973-08 **Shakti, the Spiritual Science of DNA** Susan J. Palmer,1976 **Shakti, the Spiritual Science of DNA** Palmer, Susan J,1976 *The Encyclopedic Sourcebook of New Age Religions* James R. Lewis,2004-08-30

In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity. While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study. Professor James R. Lewis was among the first to examine this growing religious phenomenon scientifically. In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought. The present collection pursues this theme bringing together some of the best recent scholarship on new religions. Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality. Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups. Other chapters examine the movement's historical roots. A unique feature of Dr. Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups. This is a fascinating examination of a significant and persistent religious and social phenomenon.

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1975 **The Rajneesh Papers** Susan J. Palmer,Arvind Sharma,1993-01-01 Contributed articles **Moon Sisters, Krishna Mothers, Rajneesh Lovers** Susan J. Palmer,1994 Explores the role of women in seven unorthodox religious movements in Western culture. Based on interviews and first hand data the study illustrates a range of roles: celibate sister, devoted Hindu wife, sexually expressive lover, veiled Nubian bride in polygamy and asexual shaman.

Expecting Armageddon Jon R. Stone,2013-09-05 The expectation of an end to time and the yearning for a millennial paradise have been recurring themes in Western religious thought. But when we speak of expectation of the world's end we are mindful of the fact that generation after generation of millenarians have been disappointed. Their endtime hopes and prophecies have not come true. What happens one might ask when prophecies fail? Does failure spell the end of the very movements that embrace such expectations? The aim of this anthology is to gather together in one volume the essential research from the fields of sociology and psychology that seeks to answer this intriguing question as first raised by Festinger in his 1956 work *When Prophecy Fails*. Cross cultural and comparative this collection chronicles forty years of research into failed prophecy and response to the attending cognitive dissonance it produces that is at once timely and informative.

New Religions and Spiritualities Stephen Hunt,2017-03-02 Since the 1960s a fresh wave of new religions and what has come to be termed spiritualities have been evident on a global scale. This volume in *The Library of Essays on Sexuality and Religion* focuses on these new religions.

and their often contentious attitudes towards human sexuality Part 1 through previously published articles provides instances of affirming orientations of the new religions towards sexuality This entails scrutinising examples of innovative religion from a historical perspective as well as those of a more contemporary nature Part 2 examines with pertinent illustrations the controversial character of new religions in their cultist forms and matters of sexual control and abuse Part 3 considers sexuality as articulated through paganism the occult and esotericism in the postmodern setting Part 4 examines both hetero and non hetero expressions of sexuality through the so called New Spiritualities Quasi religions and the more hidden forms of religiosity

Cults in Context Lorne Dawson,2018-02-06 In the face of the increasingly variegated ideological landscape of contemporary America cults have become the focus of public controversy The growth of new religions has been matched by the development of an organized and vocal opposition the anti cult movement This in turn has prompted an extensive investigation of new religious movements NRMs by sociologists and psychologists of religion as well as historians and religious studies scholars The readings collected here contribute to the debate about cults by sampling some of the best and most accessible publications from the academic study of NRMs The contributors address the questions most commonly asked about cults such as What brought about the emergence of new religious movements What is a cult or new religious movement Who joins new religious movements and why Are converts to new religious movements brainwashed Why did the Jonestown and Waco tragedies happen Are cults inclined to be violent What does the emergence of so many new religious movements say about our society What does it say about the future of religion *Cults in Context* surveys the descriptive typologies theories and data accumulated by sociologists and psychologists studying new religious movements over the last twenty years It serves to defuse many popular fears and misconceptions about cults allowing the reader to develop a more reasonable and tolerant understanding of the people who join new religious movements and the functions of these movements in contemporary society

Transnational Crime in the Americas Tom J. Farer,2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company

Routledge Library Editions: International Islam Various,2021-03-11 First published between 1913 and 1994 this 6 volume set examines the history of Islam in a variety of regions across the world Spanning continents from Africa to Asia North America and Europe and ranging from 19th century ethnographical studies to modern day historical research these titles not only demonstrate the diversity within this global religion but also how the study of Islam has changed over time The titles in this set will be of interest to those studying the history of Islam as well as those fascinated by the study of religion and international communities itself

Islam in North America Michael A. Köszegi,J. Gordon Melton,2017-01-12 First published in 1992 this book focuses on the Muslim community and how it has developed in North America Divided into eight sections it traces the history of the Muslim community in North America from the nineteenth century to the end of the twentieth century and examines different aspects of the community such as Sectarian Movements Islam in the African American community and points of contact between Christian and Islamic

communities The text includes a number of bibliographies to aid further study and closes with a helpful directory of Muslim organizations and centers in North America This book will be of particular interest to those studying Islam and Religion in North America Religion and Culture in Canada Peter Slater, 2006-01-01 No detailed description available for Religion and Culture in Canada *Religion Et Culture Au Canada* Canadian Society for the Study of Religion, 1978 **The Book of Enlightened Masters** Andrew Rawlinson, 1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson calls spiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others The Encyclopedia of American Religions J. Gordon Melton, 1978 **The Complex Forms of the Religious Life** Frances Westley, 1983 **The Masters of Wisdom** Ray Carlson, 1980 Third prize essay in the Friends of the Library fourteenth annual book collection contest University of California Santa Cruz 1980 *Ritual Symbolism and Ceremonialism in the Americas* , 1979
