The Urals and Western Siberia in the Bronze and Iron Ages Ludmila Koryakova, Andrej Vladimirovich Epimakhov, 2014-03-24 This book is the first synthesis of the archaeology of the Urals and Western Siberia. It presents a comprehensive overview of the late prehistoric cultures of these regions which are of key importance for the understanding of long term changes in Eurasia. At the crossroads of Europe and Asia the Urals and Western Siberia are characterized by great environmental and cultural diversity which is reflected in the variety and richness of their archaeological sites. Based on the latest achievements of Russian archaeologists this study demonstrates the temporal and geographical range of its subjects starting with a survey of the chronological sequence from the late fourth millennium BC to the early first millennium AD. Recent discoveries contribute to an understanding of issues such as the development of Eurasian metallurgy, technological and ritual innovations, pastoral nomadism and its role in Eurasian interactions and major sociocultural fluctuations of the Bronze and Iron Ages.

History Beyond the Text Sarah

Barber, Corinna Peniston-Bird, 2013-02-01 Historians are increasingly looking beyond the traditional and turning to visual, oral, aural and virtual sources to inform their work. The challenges these sources pose require new skills of interpretation and require historians to consider alternative theoretical and practical approaches. In order to help historians successfully move beyond traditional text, Sarah Barber and Corinna Peniston Bird bring together chapters from historical specialists in the fields of fine art, photography, film, oral history, architecture, virtual sources, music, cartoons, landscape and material culture to explain why, when and how these less traditional sources can be used. Each chapter introduces the reader to the source, suggests the methodological and theoretical questions historians should keep in mind when using it, and provides case studies to illustrate best practice in analysis and interpretation. Pulling these disparate sources together, the introduction discusses the nature of historical sources and those factors which are unique to and shared by the sources covered throughout the book. Taking examples from around the globe, this collection of essays aims to inspire practitioners of history to expand their horizons and incorporate a wide variety of primary sources in their work.

Arctic Alaska and Siberia, Or, Eight Months with the Arctic Whalemén Herbert Lincoln Aldrich, 1889 Arctic Alaska and Siberia, or Eight Months with the Arctic Whalemén is an account of the 1887 Arctic whaling season by journalist Herbert L. Aldrich. Between March and October of 1887, Aldrich spent time on eight New Bedford whaling vessels documenting the whaling industry and the native peoples of Arctic Alaska. Aldrich was a young reporter for the New Bedford Evening Standard who resolved to accompany the Arctic whaling fleet after he was diagnosed with tuberculosis and told he had less than a year to live. He received the support of the leaders of New Bedford's whaling industry who wanted him to document what they knew to be a dying industry. During his time in the Arctic, Aldrich took more than 700 photographs documenting all aspects of the whale hunt. Many of his photographs are now preserved in the New Bedford Whaling Museum in New Bedford, Massachusetts. Upon his

return to New Bedford Aldrich lectured extensively on his experiences and published this book in 1889 The book includes illustrations and a map of the Arctic whaling grounds north of Alaska Defying predictions of an early death Aldrich lived into his late eighties He went on to become managing editor of the Cleveland Plain Dealer and the Jacksonville Florida Citizen and in 1897 founded the Aldrich Publishing Company of New York Victims of Stalin and Hitler T. The awakening of the East: Siberia-Japan-China. Tr. by R. Davey Pierre Leroy-Beaulieu,1900 The American Siberia J. C. Powell,1891 The Dawn of Tibet John Vincent Bellezza,2014-08-29 This unique book reveals the existence of an advanced civilization where none was known before presenting an entirely new perspective on the culture and history of Tibet In his groundbreaking study of an epic period in Tibet few people even knew existed John Vincent Bellezza details the discovery of an ancient people on the most desolate reaches of the Tibetan plateau revolutionizing our ideas about who Tibetans really are While many associate Tibet with Buddhism it was also once a land of warriors and chariots whose burials included megalithic arrays and golden masks This first Tibetan civilization known as Zhang Zhung was a cosmopolitan one with links extending across Eurasia bringing it in line with many of the major cultural innovations of the Late Bronze Age and Iron Age Based on decades of research The Dawn of Tibet draws on a rich trove of archaeological textual and ethnographic materials collected and analyzed by the author Bellezza describes the vast network of castles temples megaliths necropolises and rock art established on the highest and now depopulated part of the Tibetan plateau He relates literary tales of priests and priestesses horned deities and the celestial afterlife to the actual archaeological evidence providing a fascinating perspective on the origins and development of civilization The story builds to the present by following the colorful culture of the herders of Upper Tibet an ancient people whose way of life is endangered by modern development Tracing Bellezza s epic journeys across lands where few Westerners have ventured this book provides a compelling window into the most inaccessible reaches of Tibet and a civilization that flourished long before Buddhism took root **Inhuman Land** Jozef Czapski,2018-12-18 A classic work of reportage about the Katy Massacre during World War II by a soldier who narrowly escaped the atrocity himself In 1941 when Germany turned against the USSR tens of thousands of Poles men women and

children who were starving sickly and impoverished were released from Soviet prison camps and allowed to join the Polish Army being formed in the south of Russia One of the survivors who made the difficult winter journey was the painter and reserve officer J zef Czapski General Anders the army s commander in chief assigned Czapski the task of receiving the Poles arriving for military training gathering accounts of what their fates had been organizing education culture and news for the soldiers and most important investigating the disappearance of thousands of missing Polish officers Blocked at every level by the Soviet authorities Czapski was unaware that in April 1940 many officers had been shot dead in Katyn forest a crime for which Soviet Russia never accepted responsibility Czapski s account of the years following his release from the camp and the formation of the Polish Army and its arduous trek through Central Asia and the Middle East to fight on the Italian front offers a stark depiction of Stalin s Russia at war and of the suffering stoicism and bravery of his fellow Poles A work of clear observation and deep compassion *Inhuman Land* is one of the twentieth century s indispensable acts of literary witness

The British National Bibliography Arthur James Wells, 2006 **The Czecho-Slovak Struggle for Independence, 1914-1920** Brent Muegggenberg, 2014-09-06 The calamity of World War I spawned dozens of liberation movements among ethnic and religious groups throughout the world None was more successful in realizing the goal of self determination than the Czechs and Slovaks From its humble beginning the Czecho Slovak liberation movement grew into an impressive struggle that was waged from the capitals of Western Europe to the frozen steppes of Siberia Its ranks included exiled propagandists war prisoners turned legionaries and conspirators inside Austria Hungary This book shows how these groups overcame their estrangements and coordinated their efforts to win independence for their homeland It also examines the consequences of the Czecho Slovaks achievements including their entanglement in the Russian Civil War and their impact on the postwar settlements that redrew the political boundaries of Central Europe
