Shame, Exposure, and Privacy ,1992 **Shame, Exposure, and Privacy** Carl Schneider,1977-04 **The Legal Aspects of Shaming: An Ancient Sanction in the Modern World** Meital Pinto,Guy Seidman,2023-09-06 Offering an original legal definition of shaming this incisive book argues for greater attention to shaming by legal scholars and practitioners Suggesting nuanced procedures to regulate shaming in diverse areas of law it seeks to make shaming by legal entities legitimate and effective and to use legal mechanisms to limit inappropriate shaming in non legal contexts Shame and Pride: Affect, Sex, and the Birth of the Self Donald L. Nathanson,1994-03-17 This is a revolutionary book about the nature of emotion about the way emotions are triggered in our private moments in our relations with others and by our biology Drawing on every theme of the modern life sciences Donald Nathanson shows how nine basic affects interest excitement enjoyment joy surprise startle fear terror distress anguish anger rage dissmell disgust and shame humiliation not only determine how we feel but shape our very sense of self For too long those who explain emotional discomfort on the basis of lived experience and those who blame chemistry have been at loggerheads As Dr Nathanson shows chemicals and illnesses can affect our mood just as surely as an uncomfortable memory or a stern rebuke Linking for the first time the affect theory of the pioneering researcher Silvan S Thomkins with the entire world of biology medicine psychology psychotherapy religion and the social sciences Dr Nathanson presents a completely new understanding of all emotion **Paul And The Religious Experience Of Reconciliation** Gilbert I. Bond,2005 **Loss of the Assumptive World** Jeffrey Kauffman,2013-05-13 The assumptive world concept is a psychological principle of the conservation of human reality or culture it is a lens for seeing the psychological disturbances that occur in times of change In this collection the authors examine the assumptive world from diverse theoretical perspectives providing the reader with an array of different viewpoints illuminating the concept and its clinical usefulness *The Continuing Relevance of Wesleyan Theology* Nathan Crawford,2011-06-01 What does the Wesleyan message have to say to the greater theological world This is a question that Laurence Wood has taken up as his concern throughout his career In order to honor his work this collection takes up this question through a series of essays designed to show how Wesleyan Theology while distinctive has a continued relevance to the wider world of theological scholarship This collection does this in two ways First by showing how the Wesleyan distinctives have been present throughout the history of theology And secondly the collection brings the Wesleyan distinctives into conversation with various contemporary theological conversations ranging from theological hermeneutics and the science religion dialogue to the practice of preaching and spirituality The result is a volume that puts Wesleyan theology into continued dialogue with the broader theological world showing its vitality and importance for the contemporary situation *The Oxford Handbook of Practical Ethics* Hugh LaFollette,2005-09-15 This is a guide to contemporary thought on ethical issues in all areas of human activity personal medical sexual social political judicial and international from the natural world to the world of business

The Ethics of Homelessness, 2021-11-22 This book extends the study of homelessness beyond the need of shelter Philosophical exploration exposes the fragility of human fulfillment in contemporary society The authors weave the moral fabric of what it means to be human They show how economic and political values compromise the dignity of homeless persons They argue for recognition of rights for the homeless who otherwise would be voiceless and without membership in the moral community This pioneering contribution instills our moral sensitivity to the homeless condition and justifies our moral responsibility to change that condition

Theatrical Shows and Ascetic Lives Blake Leyerle, 2001-07-28 This book provides an original and rewarding context for understanding the prolific fourth century Christian theologian John Chrysostom and the religious and social world in which he lived Blake Leyerle analyzes two highly rhetorical treatises by this early church father attacking the phenomenon of spiritual marriage Spiritual marriage was an ascetic practice with a long history in which a man and a woman lived together in an intimate relationship without sex What begins as an analysis of Chrysostom's attack on spiritual marriage becomes a broad investigation into Chrysostom's life and work the practice of spiritual marriage itself the role of the theater in late antique city life and the early history of Christianity Though thoroughly grounded in the texts themselves and in the cultural history of late antiquity this study breaks new ground with its focus on issues of rhetoric sexuality and power Leyerle argues that Chrysostom used images and tropes drawn from the theater to persuade religious men and women that spiritual marriage was wrong In addition to her analysis of the significance of the rhetorical strategies used by Chrysostom Leyerle gives a thorough discussion of the role of the theater in late antiquity particularly in Antioch one of the gems among late antique cities She also discusses gender in the context of late antique religion shedding new light on early Christian attitudes toward sexuality Throughout Leyerle weaves an ongoing conversation with contemporary theory in film and gender studies that gives her study an important analytic dimension

Varieties of Feminist Liberalism Amy R. Baehr, 2004-04-05 Over the past thirty years western political philosophy has been enriched by a renewed interest in liberalism and by the development of feminism Although liberalism is one of the important historical roots of feminism many contemporary feminist political philosophers reject liberal political theory Indeed that liberalism and feminism are incompatible has been the dominant view among feminist scholars over the

past 30 years *Varieties of Feminist Liberalism* is a groundbreaking collection that examines the relationship between these two rich normative traditions. The essays in this volume present versions of feminism that are explicitly liberal or versions of liberalism that are explicitly feminist. By bringing together some of the most respected and well known scholars in mainstream political philosophy today, Amy R Baehr challenges the reader to reconsider the dominant view that liberalism and feminism are incompatible. This long overdue volume is the first to bring together papers by feminist liberals and to aim explicitly at reconciling feminism and liberalism.

The Ethics of Homelessness: Philosophical Perspectives, 2020-01-20 This new and expanded edition of G John M Abbarno's anthology *The Ethics of Homelessness* underscores what is ignored in plain sight: people without a home or dwelling are also without privacy and dignity. It is argued that they lack moral standing. The chapters uncover the harsh realities of poverty where economic value overrides competing human values. Naomi Zack argues that homelessness is symbolic of society's materialistic values. It has a tendency to resist sufficient charity and perpetuates conditions of injustice. Uma Narayan questions whether the homeless have protection under the U S Constitution. Other authors present an enlarged sphere of homeless to include runaway children, refugees, adoptees, and the disabled. The book demonstrates the value of applied philosophy.

The Empathic God Frank Woggon, 2024 In *The Empathic God*, Frank Woggon constructs a clinical theology of atonement. Woggon calls for a caring participation in God's ongoing work of salvation through a praxis of spiritual care. The book will help practitioners and students of spiritual care as well as clergy to critically reflect on where spiritual care practice and theology meet.

Values and Education, 2021-10-25 This book brings together eighteen essays on education and matters of evaluative concern to which it gives rise. The essays range from discussions of basic issues on the nature of education and the importance of its two sides: teaching and learning to practical issues that bear on curricular development. Several of the authors focus on liberal education and its place in a liberal state. Some authors take up the topic of moral education while others examine the notion of multicultural education. Broad social issues of educational opportunity and affirmative action are also considered. A number of authors speak to educational reforms and conditions in particular countries including Italy, Canada, and the United States. For anyone with an interest in formal education or a love of life-long learning, the essays in this book offer fresh ideas for reflection.
