Made in Canada, Read in Spain

Pilar Somacarrera, 2013-08-21 *Made in Canada Read in Spain* is an edited collection of essays on the impact diffusion and translation of English Canadian literature in Spain Given the size of the world's Spanish speaking population some 350 million people and the importance of the Spanish language in global publishing it appeals to publishers cultural agents and translators as well as to Canadianists and Translation Studies scholars By analyzing more than 100 sources of online and print reviews this volume covers a wide range of areas and offers an ambitious scope that goes from the institutional side of the Spanish Anglo Canadian exchange to issues on the insertion of CanLit in the Spanish curriculum from nation branding translation and circulation of Canadian authors in autonomous communities such as Catalonia to the official

acknowledgement of some authors by the Spanish literary system Margaret Atwood and Leonard Cohen were awarded the prestigious Prince of Asturias prize in 2008 and 2011 respectively

Likenesses Matthew Reynolds, 2017-07-05 Translation illustration and interpretation have at least two things in common They all begin when sense is made in the act of reading that is where illustrative images and explanatory words begin to form And they all ask to be understood in relation to the works from which they have arisen reading them is a matter of reading readings *Likenesses* explores this palimpsestic realm with examples from Dante to the contemporary sculptor Rachel Whiteread The complexities that emerge are different from Empsonian ambiguity or de Man's unknowable infinity of signification here meaning dawns and fades as the hologrammic text is filled out and flattened by successive encounters Since all literature and art is palimpsestic to some degree Reynolds proposes this style of interpretation can become a tactic for criticism in general Critics need both to indulge and to distrust the metamorphic power of their interpreting imaginations *Likenesses* follows on from the argument of Reynolds's *The Poetry of Translation* 2011 extending it through other translations and beyond them into a wide range of layered texts Browning emerges as a key figure because his poems laminate languages places times and modes of utterance with such compelling energy There are also substantial innovative accounts of Dryden Stubbs Goya Turner Tennyson Ungaretti and many more

Imagined Frontiers Carl Abbott, 2015-09-10 We live near the edge whether in a settlement at the core of the Rockies a gated community tucked into the wilds of the Santa Monica Mountains a silicon culture emerging in the suburbs or in the future homesteading on a terraformed Mars In *Imagined Frontiers* urban historian and popular culture scholar Carl Abbott looks at the work of American artists who have used novels film television maps and occasionally even performance art to explore these frontiers the metropolitan frontier of suburban development the classic continental frontier of American settlement and the yet unrealized frontiers beyond Earth Focusing on writers and artists working during the past half century an era of global economic and social reach Abbott describes the dialogue between historians and social scientists seeking to understand these frontier places and the artists reimagining them in written and visual fictions This book offers perspectives on such well known authors as T C Boyle and John Updike and on such familiar movies and television shows as *Falling Down* and *The Sopranos* By putting *The Rockford Files* and the cult favorite *Firefly* in conversation with popular fiction writers Robert Heinlein and Stephen King and literary novelists Peter Matthiessen and Leslie Marmon Silko Abbott interweaves the disparate subjects of western history urban planning and science fiction in a single volume Abbott combines all new essays with others previously published but substantially revised to integrate western and urban history literary analysis and American studies scholarship in a uniquely compelling analysis of the frontier in popular culture

Life After God Douglas Coupland, 2012-12-25 YOU ARE THE FIRST GENERATION RAISED WITHOUT RELIGION What happens if we are raised without religion or beliefs As we grow older the beauty and disenchantments of the world temper our souls We all have spiritual impulses yet where do these impulses flow in a world of commodities and consumerism *LIFE AFTER GOD* is a compellingly innovative collection of stories responding to these themes Douglas Coupland takes us into worlds we know exist but rarely see finding rare grace amid our pre millennium turmoil

Generations of Youth Joe Alan Austin, Michael Nevin Willard, Michael Willard, 1998-06 Contains twenty six chronologically arranged essays in which social historians and American cultural studies scholars examine American youth and youth cultures over the course of the twentieth century

themselves Waking up in an L A hospital John Johnson is amazed that it was the flu and not an overdose of five different drugs mixed with cognac that nearly killed him As a producer of high adrenaline action flicks he s led a decadent and dangerous life purchasing his way through every conceivable variant of sex But each variation seems to take him one notch away from a capacity for love and while movie making was once a way for him to create worlds of sensation it now bores him After his near death experience John decides to walk away from his life Susan Colgate is an unbankable former tv star and child beauty pageant contender Forced to marry a heavy metal singer in need of a Green Card after her parents squander her sitcom earnings she becomes the alpha road rat But when the band s popularity dwindles the marriage dissolves Flying back to Los Angeles in Economy Susan s plane crashes and only she survives As she walks away from the disaster virtually unscathed Susan too decides to disappear John and Susan are two souls searching for love across the bizarre celebrity obsessed landscape of LA and are driven almost fatefully toward each other Hilarious fast paced and ultimately heart wrenching Miss Wyoming is about people who after throwing off their self made identities begin the fearful search for a love that exposes all vulnerabilities

Generation at the Crossroads Paul Rogat Loeb,1994 Challenging prevailing media stereotypes Generation at the Crossroads explores the beliefs and choices of the students who came of age in the 1980s and 1990s For seven years at over a hundred campuses in thirty states Paul Loeb asked students about the values they held He examines their concepts of responsibility the links they draw between present and future and how they view themselves in relation to the larger human community in which they live He brings us a range of voices from I m not that kind of person to I had to take a stand Loeb looks at how the rest of us can serve young people as better role models and give them courage and vision to help build a better world This insightful book explores the culture of withdrawal that dominated American campuses through most of the eighties He locates its roots in historical ignorance relentless individualism mistrust of social movements and a general isolation from urgent realities He examines why a steadily increasing minority has begun to take on critical public issues whether environmental activism apartheid hunger and homelessness affordable education or racial and sexual equity Loeb looks at individuals who have overcome precisely the barriers he has described and how their journeys can become models The generational choices he explores will shape our common future

The Global Remapping of American Literature Paul Giles, 2018-06-12 This book charts how the cartographies of American literature as an institutional category have varied radically across different times and places Arguing that American literature was consolidated as a distinctively nationalist entity only in the wake of the U S Civil War Paul Giles identifies this formation as extending until the beginning of the Reagan presidency in 1981 He contrasts this with the more amorphous boundaries of American culture in the eighteenth century and with ways in which conditions of globalization at the turn of the twenty first century have reconfigured the parameters of the subject In light of these fluctuating conceptions of space Giles suggests new ways of understanding the shifting territory of American literary history ranging from Cotton Mather to David Foster Wallace and from Henry Wadsworth Longfellow to Zora Neale Hurston Giles considers why European medievalism and Native American prehistory were crucial to classic nineteenth century authors such as Emerson Hawthorne and Melville He discusses how twentieth century technological innovations such as air travel affected representations of the national domain in the texts of F Scott Fitzgerald and Gertrude Stein And he analyzes how regional projections of the South and the Pacific Northwest helped to shape the work of writers such as William Gilmore Simms Jos Mart Elizabeth Bishop and William Gibson Bringing together literary analysis political history and cultural geography *The Global Remapping of American Literature* reorients the subject for the transnational era
