China on Film Paul G. Pickowicz, 2011-12-15 Leading scholar Paul G Pickowicz traces the dynamic history of Chinese filmmaking and discusses its course of development from the early days to the present Moving decade by decade he explores such key themes as the ever shifting definitions of modern marriage in 1920s silent features East West cultural conflict in the movies of the 1930s the strong appeal of the powerful melodramatic mode of the 1930s and 1940s the polarizing political controversies surrounding Chinese filmmaking under the Japanese occupation of Shanghai in the 1940s and the critical role of cinema during the bloody civil war of the late 1940s Pickowicz then considers the challenging Mao years including chapters on legendary screen personalities who tried but failed to adjust to the new socialist order in the 1950s celebrities who made the sort of artistic and political accommodations that would keep them in the spotlight in the post revolutionary era and insider film professionals of the early 1960s who actively resisted the most extreme forms of Maoist cultural production The book concludes with explorations of the highly cathartic films of the early post Mao era edgy postsocialist movies that appeared on the eve of the Tiananmen demonstrations of 1989 the relevance of the Eastern European velvet prison cultural production model and the rise of underground and independent filmmaking beginning in the 1990s Throughout its long history of film production China has been embroiled in a seemingly unending series of wars revolutions and jarring social transformations Despite daunting censorship obstacles Chinese filmmakers have found ingenious ways of taking political stands and weighing in for better or worse on the most explosive social cultural and economic issues of the day Exploring the often gut wrenching controversies generated by their work Pickowicz offers a unique and perceptive window on Chinese culture and society

Chinese Shakespeares Alexa Huang,2009-06-26 For close to two hundred years the ideas of Shakespeare have inspired incredible work in the literature fiction theater and cinema of China Taiwan and Hong Kong From the novels of Lao She and Lin Shu to Lu Xun s search for a Chinese Shakespeare and from Feng Xiaogang s martial arts films to labor camp memoirs Soviet Chinese theater Chinese opera in Europe and silent film Shakespeare has been put to work in unexpected places yielding a rich trove of transnational imagery and paradoxical citations in popular and political culture Chinese Shakespeares is the first book to concentrate on both Shakespearean performance and Shakespeare s appearance in Sinophone culture and their ambiguous relationship to the postcolonial question Substantiated by case studies of major cultural events and texts from the first Opium War in 1839 to our times Chinese Shakespeares theorizes competing visions of China and Shakespeare in the global cultural marketplace and challenges the logic of fidelity based criticism and the myth of cultural exclusivity In her critique of the locality and ideological investments of authenticity in nationalism modernity Marxism and personal identities Huang reveals the truly transformative power of Chinese Shakespeares **One Industry, Two Chinas** Lynda S. Bell,1999-09-01 This book reopens and restructures the grand debate on the nature of economic development in China prior to the Communist revolution It rejects the debate s old contours in which quantitative data were used to argue that the trajectory of Chinese development was either positive or negative Instead the author combines quantitative analysis with a detailed study of local politics culture and gender to explain the shaping of the modern Chinese economy Focusing on silk production in Wuxi county in the Yangzi Delta the author argues that local elites used social dominance to build a silk industry continuum one industry fusing modern factory production with older patterns of peasant family farming The resulting social configuration was two Chinas one populated by wealthy urban elites transformed into a new silk industry bourgeoisie and the other by peasant families whose women became the workforce for cocoon production The author describes the roles of merchant guilds and other elite organizations established to protect the silk industry from outside competition and excessive taxation the methods and styles of elite networking and investment in building modern silk

filatures and the roles of women elite women in sericulture reform and peasant women in silkworm raising She also reveals the cooperation between silk industry elites and Nationalist government officials in the 1920 s and 1930 s which resulted in an industry that was virtually state directed and designed to pass downward to the peasants the costs of building more competitive silk filatures This discovery challenges the prevailing tendency to think in terms of radical ruptures between Nationalist and Communist rule
