Shaping Consensus Table ronde nationale sur l'environnement et l'économie (Canada),1993 Shaping Consensus DIANE Publishing Company,1994-07 *Shaping Consensus* National Round Table on the Environment and the Economy (Canada),1993 *Environmental Regulations and Corporate Strategy* Alan M. Rugman,John J. Kirton,Julie A. Soloway,1999 International agreements and environmental regulations are important constraints in today s business context By analyzing development and case studies within NAFTA North American Free Trade Agreement the authors demonstrate how firms can develop strategies which utilize international trade and environment regimes to open up international markets **The Greening of US Free Trade Agreements** Linda Allen,2018-09-03 This book provides an up to date critical analysis of the integration of environmental policies into US free trade agreements The work focuses on the evolution of the design of environmental policies and analyzes their effectiveness Starting with the North American Free Trade Agreement NAFTA leading to the Trans Pacific Partnership TPP the book examines the history of policy integration In doing so it provides an overview of the major trade related environmental policies and presents empirical research on their effectiveness a discussion of the continued demand for policy integration in light of the effectiveness and recommendations for addressing shortcomings The main objective of the book is to inform the ongoing policy debate over integration of environmental policies into trade agreements The current renegotiation of NAFTA provides an opportune time for undertaking this critical review of trade related environmental policies As our understanding and knowledge of the environmental policies associated with US trade agreements in particular for NAFTA has grown significantly over the past twenty five years this book provides a timely and critical update for this policy debate Students and scholars of environmental law trade and economics and specifically US trade environmental policy and law will find this book of great interest Shaping Consensus Sarah Richardson,1993

The Environment and NAFTA Pierre-Marc Johnson,André Beaulieu,1996 Pierre Marc Johnson and Andre Beaulieu consider the context in which those implications were brought to the negotiating table the legal mechanism established to address them and the original trilateral institution set up to maintain a continent wide level of environmental cooperation

The Citizen Submission Process of the North American Commission for Environmental Cooperation Jaime Miguel Carreno-Martinez,2001 The Politics of Structural Choice of the Commission for Environmental Cooperation Linda J. Allen,2005 For over a century states have been crafting international institutions to address a wide range of environmental problems but the effectiveness of these institutions has been limited Theories of international relations have historically guided research on these institutions but this scholarship has failed to provide adequate insights into why states have not been able to design effective institutions This study utilizes an alternative approach a theory of domestic politics in particular the positive theory of public bureaucracies to analyze the design of these institutions The main thesis of this study is that the design of international environmental institutions reflects efforts of political actors to overcome problems of expertise

political uncertainty and political compromise while they seek to achieve their policy goals within a particular political arena rather than efforts by states to rationally pursue mutually beneficial joint gains or a desire of a powerful hegemon to cater to its own self interest To test this thesis this study examines the institutional choices associated with the creation of the North American Commission for Environmental Cooperation CEC This research consists of a single case study that draws on multiple sources of qualitative and quantitative data collected from documentation archival records interviews written surveys and direct observation and analyzed using counterfactuals and process tracing for qualitative data and descriptive statistics for quantitative data The findings of this research indicate that the positive theory of public bureaucracies has greater explanatory power for the institutional design of the CEC than rival theories hegemonic stability and functionalist theories Overall this research suggests that this theory of domestic politics offers a potentially useful theoretical approach for understanding the institutional design of international institutions

An Environmental Agenda for North America National Planning Association, 1994

Greening the GATT Daniel C. Esty, 1994 This text examines the vital connections between trade environment and development It argues that current international trade rules and institutions must be significantly reformed to address environmental concerns while still promoting economic growth and development

Regionalism, Multilateralism, and the Politics of Global Trade Donald Barry, Ronald C. Keith, 1999 The essays in this volume reflect the current debate about whether the new regionalism and interregional politics of the last decade support or undermine the global trading system Political scientists and international relations scholars from North America examine the changing relationship between regionalism and multilateralism and discuss the implications for national policy in the globalized economy The essays are arranged into four categories covering regionalism globalism and the state the dynamics of regional integration interregional relations and the policy implications particularly for Canada Annotation copyrighted by Book News Inc Portland OR

Freeing Trade in North America Greg Anderson, 2020-03-02 Conceived in an era of rapid post Cold War economic liberalization the North American Free Trade Agreement NAFTA signed in 1994 brought together Canada Mexico and the United States with the aim of creating a regional trade bloc that eliminated the friction and costs of trade between the three

nations Without an overarching institutional framework NAFTA never sought to attain the levels of integration achieved by the European Union for many it was a missed opportunity and never quite fulfilled its potential as a single market And under Donald Trump s administration a trilateral trade agreement has become increasingly precarious Freeing Trade in North America explains the theory behind the politics and economics of trade in North America offering an accessible and concise analysis of the key provisions shortcomings and past revision efforts of the governments involved At a time of increasing protectionism and heightened awareness of trading relationships the book highlights the lessons to be learned from the fraught history of one of the largest trade blocs in the world Journal of World Trade ,1997 **Trade, Sustainable**
