Shaping History Wayne te Brake, 2023-11-15 As long as there have been governments ordinary people have been acting in a variety of often informal or extralegal ways to influence the rulers who claimed authority over them Shaping History shows how ordinary people broke down the institutional and cultural barriers that separated elite from popular politics in sixteenth and seventeenth century Europe and entered fully into the historical

process of European state formation Wayne te Brake s outstanding synthesis builds on the many studies of popular political action in specific settings and conflicts locating the interaction of rulers and subjects more generally within the multiple political spaces of composite states In these states says Te Brake a broad range of political subjects often religiously divided among themselves necessarily aligned themselves with alternative claimants to cultural and political sovereignty in challenging the cultural and fiscal demands of some rulers This often violent interaction between subjects and rulers had particularly potent consequences during the course of the Reformation the Counter Reformation and the Crisis of the Seventeenth Century But as Te Brake makes clear it was an ongoing political process not a series of separate cataclysmic events Offering a compelling alternative to traditionally elite centered accounts of territorial state formation in Europe this book calls attention to the variety of ways ordinary people have molded and shaped their own political histories As long as there have been governments ordinary people have been acting in a variety of often informal or extralegal ways to influence the rulers who claimed authority over them Shaping History shows how ordinary people broke down the institution

**The Prophecy That Is Shaping History** Jon Mark Ruthven, Jon Ruthven, 2003 Millions of Jews Christians and Muslims believe that a 2 500 year old prophecy is about to be fulfilled a global apocalyptic jihad of many nations against the tiny state of Israel whose recent re emergence in its traditional land has sparked unrelenting rage and attack Repeated resolutions passed in the United Nations reflect world wide and nearly unanimous hostility against the so called Zionist entity even to the point of denying its right to exist Most news media and political analysts seem unaware of the ancient prophecy that not only predicts this apocalyptic war but also amazingly how this prophecy by Ezekiel chapters 36-44 provides the scenario for numerous best selling books in both the English speaking and Muslim worlds These best sellers not only describe this great conflagration but actually also motivate their readers to prepare for it *The Prophecy That Is Shaping History* represents a major advance in research and scholarship in examining the historical and contemporary impact of Ezekiel s prophecy on world events This academic monograph also offers a wealth of new evidence in tracing the identities

**Abbatial Authority and the Writing of History in the Middle Ages** Benjamin Pohl, 2023-08-22 This book argues that abbatial authority was fundamental to monastic historical writing in the period c 500-1500 Writing history was a collaborative enterprise integral to the life and identity of medieval monastic communities but it was not an activity for which time and resources were set aside routinely Each act of historiographical production constituted an extraordinary event one for which singular provision had to be made workers and materials assigned time carved out from the monastic routine and licence granted This allocation of human and material resources was the responsibility and prerogative of the monastic superior Drawing on a wide and diverse range of primary evidence gathered from across the medieval Latin West this book is the first to investigate systematically how and why abbots and abbesses exercised their official authority and resources to lay the foundations on which their communities' historiographical traditions were built by themselves and others It showcases them as prolific authors patrons commissioners project managers and facilitators of historical narratives who not only regularly put pen to parchment personally but also and perhaps more importantly enabled others inside and outside their communities by granting them the resources and licence to write Revealing the intrinsic relationship between abbatial authority and the writing of history in the Middle Ages with unprecedented clarity Benjamin Pohl urges us to revisit and revise our understanding of monastic historiography its processes and its protagonists in ways that require some radical rethinking of the medieval historian's craft in communal and institutional contexts
