

SHAPING THINGS

THIS BOOK IS ABOUT CREATED OBJECTS and the environment, which is to say, ~~it's a book about everything.~~ Seen from sufficient distance, this is a small topic.

The ideal readers for this book are those ambitious young souls (of any age) who want to constructively intervene in the process of technosocial transformation. That is to say, this book is for designers and thinkers, engineers and scientists, entrepreneurs and financiers, and anyone else who might care to understand why things were once as they were, why things are as they are, and what things seem to be becoming.

Shaping Things Mediaworks Pamphlets:

Shaping Things Bruce Sterling, 2005-10-07 A guide to the next great wave of technology an era of objects so programmable that they can be regarded as material instantiations of an immaterial system Shaping Things is about created objects and the environment which is to say it s about everything writes Bruce Sterling in this addition to the Mediawork Pamphlet series He adds Seen from sufficient distance this is a small topic Sterling offers a brilliant often hilarious history of shaped things We have moved from an age of artifacts made by hand through complex machines to the current era of gizmos New forms of design and manufacture are appearing that lack historical precedent he writes but the production methods using archaic forms of energy and materials that are finite and toxic are not sustainable The future will see a new kind of object we have the primitive forms of them now in our pockets and briefcases user alterable baroquely multi featured and programmable that will be sustainable enhanceable and uniquely identifiable Sterling coins the term spime for them these future manufactured objects with informational support so extensive and rich that they are regarded as material instantiations of an immaterial system Spimes are designed on screens fabricated by digital means and precisely tracked through space and time They are made of substances that can be folded back into the production stream of future spimes challenging all of us to become involved in their production Spimes are coming says Sterling We will need these objects in order to live we won t be able to surrender their advantages without awful consequences The vision of Shaping Things is given material form by the intricate design of Lorraine Wild Shaping Things is for designers and thinkers engineers and scientists entrepreneurs and financiers and anyone who wants to understand and be part of the process of technosocial transformation

Murphy,Ian Pearson,Laura

Goodrich,Cornelia Daheim,Joyce Gioia,Calum Chace,2015-03-15 The Future of Business explores how the commercial world is being transformed by the complex interplay between social economic and political shifts disruptive ideas bold strategies and breakthroughs in science and technology Over 60 contributors from 21 countries explore how the business landscape will be reshaped by factors as diverse as the modification of the human brain and body 3D printing alternative energy sources the reinvention of government new business models artificial intelligence blockchain technology and the potential emergence of the Star Trek economy Critical by Design? Claudia Mareis,Moritz Greiner-Petter,Michael

Renner,2022-02-03 In its constructive and speculative nature design has the critical potential to reshape prevalent socio material realities At the same time design is inevitably normative if not often violent as it stabilises the past normalises the present and precludes just and sustainable futures The contributions rethink concepts of critique that influence the field of design question inherent blind spots of the discipline and expand understandings of what critical design practices could be

With contributions from design theory practice and education art theory philosophy and informatics Critical by Design aims to question and unpack the ambivalent tensions between design and critique

Living in Digital Worlds Naomi Jacobs, Rachel Cooper, 2018-01-29 Living in Digital Worlds investigates the relationship between human society and technology as our private and particularly our public lives are increasingly undertaken in spaces that are inherently digital digital public spaces The book unpicks why digital technology is such an inextricable part of modern society first by examining the historical relationship between technological development and the early progression of human sociality This is then followed by an examination of the ways in which modern life is currently being impacted by the expansion of digital information and devices into multiple aspects of our lives including focuses on privacy bias and ownership in digital spaces Finally it explores potential future developments and their implications and proposes that it is crucial to consider the design of technology and systems in order to support a positive and beneficial direction of change Each chapter includes case studies primarily drawn from The Creative Exchange a fiveyear programme which ran from 2012 to 2016 to explore the notion of the digital public space through collaborative cross sector research
