Shared Reflections Of My Impressions:

Norms, Realities and Lies Juan Antonio Rodriguez, 2005 Norms Realities and Lies is a poetry collection that explores some current social religious and personal issues in verse It is a call for the recognition of the oppression of social norms and religious dogmas on the individual The author stresses emphasis on individualism and spiritualism as factors that can truly free humanity to live a happier life Furthermore it confronts stereotypes that are based on weight height physical attraction language and culture just to name a few Norms Realities and Lies overtly points out how most of us have preconceived notions of others based on some imaginary measure of human worth that uses physical appearance as its foundation without actually getting to personally know an individual The importance of the recognition of each matchless individual as a cure for prejudice is also evident Dr Rodriguez maintains the same precision and beauty in Norms Realities and Lies as he does in all of his previous seven poetry collections Juan Antonio Rodriguez BA MA Ph D was born in the Dominican Republic and was raised in New York City He has written six academic books on English instruction and seven collections of poetry five in Spanish and two in English One of his books won an international sonnet prize El Premio Internacional El Eria de Sonetos 2003 in Spain *Shared Reflections of My Impressions* Juan Antonio Rodriguez, 2004-06-01 The book s title embraces this writer s concept of poetry writing Juan Rodriguez shares his reactions to critical issues and experiences lived in New York Texas California and the Dominican Republic and his cruises to other countries These poems present many facets of life through the impressions within the soul of this bilingual bicultural poet whose horizon transcends cultural boundaries with passion and eloquence This work covers human aspects of life in a manner that only a sensitive and experienced poet can reflect Different phases of life in America are presented through the reflections of a young man a mature man and a middle aged man whose soul and passion extend throughout the book The collection is varied in topics and style and it demonstrates as similar a command of language as his five Spanish poetry books do Dr Rodriguez writes to communicate feelings and concepts with precision not to confuse or to impress **The Handbook for Aspiring Higher Education Leaders** Antione D. The Course Reflection Project Nicole Schonemann,Emily Metzgar,Andrew Libby,2015-05-01 Service learning is entering a post initiatory phase At tertiary institutions of all types and sizes service learning programs are common and service learning requirements for graduation are growing in popularity Taken together alongside continued faculty interest in effective teaching these factors have raised the visibility and popularity of service learning Now the greater need in service learning is not to prove the need for or efficacy of service learning but to turn the focus squarely back on practice Following established best practice is not enough instructors also need to reflect on how this fits within the specific context and application of each unique course and service learning partnership While there are many excellent resources that detail best practice and showcase exemplary service learning courses faculty reflection and course

revision often goes unmentioned In response to the lack of attention on the role of reflection and course revision we convened groups of faculty from a variety of disciplines to reflect deeply on their courses paying specific attention to obstacles and challenges These conversations were converted to articles for this edited collection each chapter representing the process of reflection and revision and serving as a guide to develop effective practice in varied curricular contexts This text contributes to the body of literature on service learning in a unique and practical manner Faculty teaching or interested in teaching service learning classes would benefit from this text as well as university administrators and community service directors involved in service learning at a programmatic and institutional level This book should be marketed to faculty teaching disciplinary service learning classes and service learning pedagogy classes and administrative offices involved in service learning This could be a supplementary text for graduate level pedagogy courses Higher education institutional libraries would benefit from this text as well as the national and state campus compact offices **But if Not: The**

Politically Reflective Psychotherapy Manuel Llorens,2020-10-27 This book shows how clinical psychology has been deliberately used to label control and oppress political dissidence under oppressive regimes and presents an epistemological and theoretical framework to help psychologists deal with the political dilemmas that surround clinical practice Based on his own experience working as a clinical and community psychologist in Venezuela for almost twenty five years the author recounts the controversial history of how the Bolivarian Revolution has used psychology to persecute and oppress political dissidents

recovers the experience of doing psychotherapy under oppressive regimes in other countries and stresses the importance of developing an ethically and politically aware clinical practice The first part of the book presents the dilemmas psychotherapists have faced in different parts of the world such as the former Soviet Union USA China Spain Hungary Argentina Brazil Uruguay and Venezuela when dealing with the intrusion of the political domain in clinical research and practice and the difficulties clinicians have had in dealing with these issues The second part of the book presents an epistemological and theoretical framework from which these issues may be tackled effectively The book helps raise awareness of the risks of framing psychotherapy as apolitical as well as the benefits of thinking of our lives as contextualized in our political settings It draws from several theoretical options that have been useful to challenge traditional clinical theory and include the political in our clinical comprehensions In particular Latin American Community Psychology that has developed tools to favor awareness of political issues has been used to expand the psychotherapeutic conversation Politically Reflective Psychotherapy Towards a Contextualized Approach will help clinical psychologists psychiatrists and other social and mental health workers reflect on the challenges psychotherapy faces in a politically polarized society showing how the political dimension can be incorporated into clinical practice Reflections with Lessons Ric Grubaugh, 2025-05-05 This book Reflections with Lessons A Journey through Grief could be described as two books in one One part depicts how a person moves through his life and either grows or regresses in his attempt to find his way forward The author reflects on many events that occur in his life as he moved from a child to a teenager to an adult and now to a senior citizen In his reflections of these events he tries to draw a lesson what did he learn how did it shape his future and was it correct or should he have used the reflection to draw a completely different lesson that would have served him better It is hoped that these reflections and lessons are meaningful and are written concisely and occasionally with a bit of humor sometimes third grade humor The other half of the book does not reflect on a child playing baseball or a teenager trying to date the cheerleader or a young child lying to his mom No these tell of finding and losing the one The one person who made sense of the time between the finding and the losing This book will not find world peace or cure cancer or help you decide between Diet Pepsi or Diet Coke but it is hoped that upon completion the reader chooses to attack the grief and not let grief or the other bears and wolves of life win Bang on
