Age of the Passions John Dwyer, 2001-01-01 The eighteenth century is often described as the age of reason This book argues that it should also be considered the age of the passions Eighteenth century writers recognised the passions as the springs of human life and actions They began to explore self interest sociability and love in ways that would have momentous consequences for the development of western culture The century's philosophes did not merely acknowledge the existence of the passions they sought to manipulate them for the good of society When carefully cultivated self interest led to prudent behaviour and national improvement sociability contributed to inter group harmony and national identity the powerful attraction between the sexes metamorphosed into politeness and altruism This book explores the eighteenth century language of the passions in its specifically Scottish context suggesting that Scottish writers such as Allan Ramsay James Fordyce and James Macpherson were cultural pioneers whose significance goes far beyond the transitory popularity of the literary products they created It also examines thinkers like Adam Smith and John Millar from a radically different perspective And it constructs new connections between the philosophy social thought sermons letters poetry and epic literature of enlightened Scottish society The Scottish contribution to modern consciousness was nothing short of profound The Scots brought the passions into the centre of discourse so they could no longer be ignored only exploited or repressed

Governing Passions Mark Greengrass, 2007-09-13 The French kingdom dissolved into civil wars known as the wars of religion for a generation from 1562 to 1598 This book examines the reactions of France's governing groups to that experience Their major political endeavour was securing peace They attempted to achieve it through a religious pluralism not envisaged in any other state on this scale in this period Its achievement would only be fulfilled however alongside a reform of the kingdom's institutions and society Peace and reform went hand in hand a moral agenda for restoration France's notables drew on reservoirs of classical

and Christian moral philosophy and wisdom to find practical answers to the difficult problems of governance that confronted them. The resulting public introspection and vocal debates are difficult to match anywhere else in Europe at this time. They were an essential part of the profound sense of crisis that France's governing elites experienced during the later sixteenth century. Drawing extensively on manuscript and printed sources not hitherto examined, this book analyses for the first time the debates at the Estates General of Blois 1576-7 and the Assembly of Notables at Saint Germain en Laye of 1583-4. It shows the French polity in a fresh light, presenting major issues of political thought in their public and practical context. And it re-examines the crucial and little understood reign of Henri III, the last Valois king, suggesting how Bourbon France could have emerged very differently from the civil wars of the late sixteenth century. **Passions of Love and Life** Lewis

Barnhart, 2004-08 This book is to share the visions of love, life and passion with poetry and prose. It is for the passionate heart that burns like fire and the tender lover that moves as gentle as a butterfly but is as direct and deliberate as Cupid's arrow. Come share the passion and warmth that inspires new love to float on a cloud. *Binding Passions* Guido

Ruggiero, 1993-06-10 Mining the rich Venetian archives, especially the unusually detailed records of Venice's own branch of the Roman Inquisition, Guido Ruggiero provides a strikingly new and provocative interpretation of the end of the Renaissance in Italy. In this boldly structured work, he develops five narrative accounts of individual encounters with the Inquisition that illustrate the double-edged metaphor of how passions were both bound by late Renaissance society and were seen in turn as binding people. In this way, new perspectives are opened on magic, witchcraft, love, marriage, gender and discipline at the level of the community and beyond. Witches, courtesans, prostitutes, women, healers, nobles, Cardinals and renegade priests and monks speak from these pages, describing their lives, beliefs, hopes, fears and lies. With an imaginative flair for storytelling and impeccable scholarship, Ruggiero exposes the rich complexity of the culture and poetics of the everyday at the end of the Renaissance and illuminates a previously unexplored chapter in Italian history. *A Los Angeles Passion* Sherelle
