Back Robert C Anderson, 2018-10-24 One of my proudest moments as President occurred on July 26 1990 the day I signed the Americans with Disabilities Act into law With its passage a shameful wall of exclusion came tumbling down This landmark legislation was the culmination of the dedicated efforts of so many and I salute the bipartisan leadership of the Congress as well as the countless advocates from all parts of society who contributed to our success It was a team effort With the ADA our country took a dramatic step toward eliminating the physical barriers that existed and the social barriers that were accepted Much work lies ahead but I am confident that we will finish the wonderful work already begun After all it's the right thing to do Former President George Bush In 1990 despite resistance from the business sector and state and local governments disability groups and activists together with responsive government leaders succeeded in passing the most significant civil rights bill in decades A Look Back The Birth of the Americans with Disabilities Act takes you to the unique moment in

American history when persons of many different backgrounds and with different disabilities united to press Congress for full recognition and protection of their rights as American citizens The ADA recalls the promise of earlier civil rights legislation and advocacy A Look Back will remind you that people are people before they are disabled and that they deserve to be acknowledged as individuals rather than stereotyped on the basis of their physical conditions You ll witness this firsthand through the inspirational example the Reverend Harold Wilke has set through his own personal struggles triumphs and ministry A witness to the signing of the ADA on the lawn of the White House he played a key role as a vocal activist in the transformation of self image for persons with disabilities and in the fight for this bill In this book you will see the progress that has been made since the ADA was passed and that despite the headway made for empowering persons with disabilities there is much to be done before all individuals are aware of their rights responsibilities and protection under the ADA A Look Back contends that through public education pastoral care and open sensitive congregations bridges can be built between religion secular society and persons with disabilities This will result in persons with disabilities becoming full participants in daily American life
