Sharing Child Care In Early Parenthood:

Sharing Child Care in Early Parenthood Malcolm Hill, 2023-02-13 Originally published in 1987 Malcolm Hill examines the different ways in which parents share responsibility for looking after their pre school children with other people whether members of their social networks formal groups or paid carers He also looks at the reasons parents give for choosing and changing their particular arrangements In this way he provides insights into a range of ideas which ordinary members of the public have about children s needs the rights and responsibilities of mothers and fathers and how children think and feel Marked differences are described in the social relationships of families and in notions about who is acceptable as a substitute carer for children in what circumstances and for what purpose Several of these contrasts are linked to attitudes and life conditions which are affected by social class The book identifies possible consequences for individual children s social adaptability resulting from these patterns of care It suggests that people working with the under fives could profit from adapting their activities and services to children s previous experiences of shared care and families differing expectations about groups for children

Growing Up in a Changing Society Ronnie Carr, Paul Light, Martin Woodhead, 2014-02-04 The final reader in the Child Development in Social Context series shows how the study of child development is inevitably bound up in more ephemeral cultural ideas about the nature and needs of children and in the educational practices that rise from these ideas Some readings point to the dangers which can arise from the meeting of science and cultural values using for illustration studies of the role of psychological theory in reinforcing social attitudes to child care inside and outside the family Other readings look at children s initiation into that relatively recent cultural invention the school and the relationship with their learning at home There are studies of their social development in classroom and playground with particular emphasis on ethnic relationships

Sociology for Social Workers and Probation Officers Vivienne E. Cree, 2012-10-12 How does a social work student make the connection between sociological knowledge and day to day social work procedures Sociology for Social Workers provides an introduction to sociological ideas and research and places it firmly into the context of social work practice It takes the issues that sociology addresses and uses them to show how social work can be better informed and improved Each chapter provides full referencing so that students and social work practitioners can follow up on primary sources to pursue and develop the most useful specific themes and ideas

Middle Childhood Moira Borland, 1998 The period of childhood which falls between the early years and adolescence is a comparatively neglected area of study In its combination of viewpoints set against a background of related research law policy and practice this book offers a rich and challenging study of an important period of the child's development

Equal Parenthood and Social Policy Linda Haas, 1992-01-01 Sweden is the only society in the world that has as an official goal the equal participation of fathers and mothers in childcare Equal Parenthood and Social Policy analyzes the government program which best symbolizes this commitment to equal parenthood parental leave With return to one's original job being assured a Swedish couple has twelve months to divide between them so that one parent can stay home to care for their new offspring While a few other countries mostly in Scandinavia have paid parental leave available to fathers Sweden's program is the oldest and most generous as well as the one most closely committed to realizing complete equality between men and women in every sphere of social life In analyzing this unique social program Haas describes the social political and economic circumstances which led Sweden to take such a revolutionary stance on the issue of shared parenthood Haas also discusses the extent to which Swedish fathers take advantage of their right to parental leave barriers to fathers participation and fathers experiences while on leave along with the effects that leavetaking has on mothers and fathers later labor market involvement and participation in childcare This study of the Swedish program raises important questions about future prospects for equal parenthood in Sweden and other industrial societies and more significantly about the potential effectiveness of social policy for bringing about the end of such a cultural universal as women's responsibility for infants

Resources in Education , 2001-10 Children And Social Competence Ian Hutchby, Jo Moran-Ellis, 2005-08-15 A text which addresses the relationship between childhood competence and the social arenas of action in which children live The contributors develop a picture of children as competent sophisticated social agents focusing on the contexts which both enable and constrain that competence

Men and Maternity Rosemary Mander, 2004-08-02 Since the development of modern medicine men have become increasingly involved in childbearing as obstetricians and more

recently as fathers This book argues that the beneficial contribution of men has been taken for granted Certain changes to childbearing practice have resulted which together with men s involvement have been encouraged without any reference to evidence and without adequate opportunity for reflection Considering the findings of recent research and wider literature and using qualitative research with mothers the text examines how men became increasingly involved in childbearing the medicalisation of childbirth the difficulties men experience with childbirth as fathers challenging situations such as fathers grief the taken for granted assumptions that men s increased contribution to childbearing is beneficial This text will be of great interest to academics and postgraduate students of midwifery obstetrics medicine and health studies as well as practising midwives and obstetricians health visitors childbirth educators and labor and delivery room nurses

Family Man Scott Coltrane, 1996-03-28 The typical American family has changed dramatically since the days of Ozzie and Harriet and Father Knows Best Double income families are now the rule and fathers are much more involved in raising the children and cleaning house Reactions to these changes have been diverse ranging from grave misgivings to a sense of liberation and new possibility Groups as diverse as Promise Keepers the Million Man March and Robert Bly s mythopoetic men s movement tell us that fathers are important From the fundamentalist right to the feminist left opinions about the changing nature of the family and the consequent rethinking of gender roles have been vehement if not always very well founded In Family Man sociologist Scott Coltrane brings a wealth of compelling evidence to this debate over the American family Drawing on his own extensive research and many fascinating interviews Coltrane explodes many of the common myths about shared parenting provides first hand accounts of men s and women s feelings in two job families and reveals some innovative solutions that couples have developed to balance job and family commitments Readers will find an insightful discussion of precisely how and why family life has changed what forms it may take in the future and what new kinds of fathers may be on the horizon The author firmly places these questions within a broad contextual framework He provides for instance an illuminating history of the family that shows that far from being a fixed structure the family has always adapted to changing economic social and ideological pressures And by examining how families operate in a variety of non industrial societies he demonstrates that our own notions of gender specific work and parenting roles are culturally rather than biologically determined and thus inherently flexible And indeed these roles are changing While contemporary American women still perform the bulk of domestic tasks Family Man gives us decisive evidence that men are becoming increasingly involved in both housework and childrearing Coltrane argues convincingly that this trend will continue Given the current economic situation with two job households now the norm and the gradual ideological shift away from restrictive gender roles more and more couples will find it both necessary and desirable to share the workload More important Coltrane suggests that as fathers participate more fully in raising their children and performing traditionally female household tasks men will themselves be transformed by the experience in profoundly positive ways and American society as a whole will move closer

to true gender equity Family Man succeeds brilliantly in bringing clarity perspective and above all hope to a discussion that is too often shrill chaotic and beset with the rhetoric of nostalgia It shows us not only exactly where the family is today but where it has been and what it may become **A London Bibliography of the Social Sciences** ,1931 Vols 1 4 include material to June 1 1929 **The Children Act** Great Britain. Dept. of Health,1991 How will the Children Act affect work with disabled children This guidance outlines the responsibilities of social services departments SSDs under the Act stating that they have a clear duty to provide services to children with disabilities Treating disabled children as children first is of paramount importance However there is a need for all staff who may be involved in providing a service to a child with a disability to be aware of legislation and SSDs should ensure that advice expertise and resources are available for their staff when needed
