Thomas Acklin, 2017 The need for spiritual direction or the accompaniment of a spiritual guide is becoming more prominent in a world where so many are suffering from so many wounds With a harmonious integration of both timeless spiritual wisdom from the Catholic Church's tradition of prayer and direction and the insight of the psychological sciences Fathers Thomas Acklin and Boniface Hicks offer a comprehensive guide for all who provide or seek spiritual direction *Spiritual Direction A Guide for Sharing the Father's Love* fortifies priests religious and lay faithful who embrace the ministry of spiritual direction and accompany the wounded assist men and women in hearing the voice of God and model the love and mercy of the Father for the many who are seeking Him but do not know Him or have false

images of Him This book also shows how various aspects of the spiritual life can emerge from and be fostered by a one on one relationship with a spiritual director Together with concrete guidelines and numerous examples from personal experience this book refers extensively to Sacred Scripture as the foundation for spiritual direction Furthermore since the practice of spiritual direction goes back to the first centuries of the Church the authors turn for guidance to the Doctors of the Church the writings of the saints and the papal magisterium in developing and supporting their insights Spiritual Direction will call spiritual directors to deeper holiness even as they assist others in growing closer to the Father through His loving gaze of mercy

Sharing the Journey Robert Wuthnow,1996-07-01 A look at how support groups have affected American society argues that although support groups provide a warmth and security that holds society together they can lead to an unhealthy self absorption and a trivialized sense of what is sacred

Sharing the Fire Luce Irigaray,2019-12-13 Whilst he broaches the theme of the difference between the sexes Hegel does not go deep enough into the question of their mutual desire as a crucial stage in our becoming truly human He ignores the dialectical process regarding sensitivity and sensuousness And yet this is needed to make spiritual the relation between two human subjectivities differently determined by nature and to ensure the connection between body and spirit nature and culture private life and public life This leads Hegel to fragment human subjectivity into yearnings for art religion and philosophy thereby losing the unity attained through the cultivation of a longing for the absolute born of a desire for one another as different Furthermore our epoch of history is different from the Hegelian one and demands that we consider additional aspects of human subjectivity This is essential if we are to overcome the nihilism inherent in our traditional metaphysics without falling into a worse nihilism due to a lack of rigorous thinking common today The increasing power of technique and technologies as well as the task of building a world culture are two other challenges we face Our sexuate belonging provides us with a universal living determination of our subjectivity now a dual subjectivity and also with a natural energy potential which allows us to use technical resources without becoming dependent on them

Sharing the Light Anna Coudenys,Ben Risby-Jones,2019-01-24 In *Sharing the Light* the Australian naturopath and healer Ben Risby Jones provides an honest and profound view on spirituality and what it means to be human Deriving from his own broad experience he also challenges the reader to question world views and belief systems opinions and insights and to formulate a personal vision on spirituality The ten talks in this book are the result of the cooperation with the Belgian author Anna Coudenys who starting from her own search for meaning poses the questions we all want to ask The result is a deep surprising and above all enriching dialogue

The Necessity of Experience Edward S. Reed,1996-01-01 Primary experience gained through the senses is our most basic way of understanding reality and learning for ourselves Our culture however favors the indirect knowledge gained from secondary experience in which information is selected modified packaged and presented to us by others In this controversial book Edward S Reed warns that secondhand experience has become so dominant in our technological workplaces schools and even homes that primary experience is endangered Reed calls for a better balance between firsthand and secondhand experience particularly in our social institutions He contends that without opportunities to learn directly we become less likely to think and feel for ourselves Since the scientific revolution of the seventeenth century Western epistemological tradition has rejected primary experience in favor of the abstractions of secondhand experience Building on James Gibson s concept of ecological psychology Reed offers a spirited defense of the reality and significance of ordinary experience against both modernist and postmodernist critics He expands on the radical critiques of work education and art begun by William Morris and John Dewey offering an alternative vision of meaningful learning that places greater emphasis on unmediated experience and he outlines the psychological cultural and intellectual conditions that will be needed to foster that crucial change
